Laker Board Studies Shorter Days, Layoffs

Falling SEVs and the possibility of cuts in Laker school programs were the main topics of discussion at Monday night’s board of education meeting. Although no direct action was taken, the possibility of cutting school hours from 5 to 6 was mentioned, along with layoffs of teachers and administrative personnel.

According to school officials, the district has experienced a $16 million decline in state Equalized Valuations in the past year, causing the school system to reduce some programs and cut administrative staff. Suppt. Harry Brunet said that if last year’s “7.5 million for 2 years” proposal had passed, the district would not be facing with continuing program reductions. He was critical of, “gong mongers and finger pointer,” who talk about how bad things are.

Brunet agreed that taxes are high, but he added, “Here in Elkton-Pigeon-Bay Port it’s hard for me to share in that negative attitude when I know that $3 million is rebated back to some local taxpayers.” He was referring to tax rebates under P.A. 116, and the Homestead Property Tax Credits, which rebate a portion of property taxes to qualified landowners.

TAX STRUCTURE: Officials say that the district’s millage rate is 12.5 mills, approximately 7.5 mills below the state average. Brunet said that the district had never asked for an increase in operational millages in 14 years, until last year, when a 10-mill increase was voted down twice. Business Manager Bob Drury shared figures with the board that showed the percentage of agricultural SEVs in the district had dropped from 77% in 1986 to 60% this year. “If we stay with the 25.25 mills...”

Few Surprises In Area Voting Results

There were few surprises in village elections Monday night, as voters went to the polls in Pigeon, Caseville, and Elkton.

ELKTON: In the only contested post in Elkton, Alvin “John” Knechtel, with 56 votes, defeated Orville Luttko, with 9 for the position of treasurer. Current president Elmer Ropp retained his seat with 61 votes. Clerk Janet Santos garnered 60 votes, and Assessor Phyllis Tatem by receiving 63. Trustees Ron Cunningham with 63 votes, Barb Thompson with 56, and Dave Fisher with 51 votes will all retain their seats. There were 70 total votes cast, with 1 spoiled ballot, out of approximately 300 registered voters.

PIGEON: Forty-seven of Pigeon’s 550 registered voters turned out to cast their ballots for uncontested positions. Village President David Geiger received 44 votes, Clark Janet Heckman had 43, Treasurer Frances Armbruster got 42, Assessor Roy Lawrence earned 44, and Trustees Michael Goforth, John Weatherly, David Luttko, and David McCormick garnered 43, 44, and 44, respectively.

CASEVILLE: In the race for village president, challenger Frank Malaksky with 146 votes defeated incumbent Michael Powers, who received 127. For village clerk, Alice Hart defeated Christina Kopak by 194-71. In the race for village trustee, Coleson Redmond received 185 votes, William Goslee, 138 and Arlis Kraft won a new seat on the council with 133 votes. Defeated were Donna Lafontaine and 121 votes, and Brian Smelt with 132.

Also in Caseville, Proposition 1, which allows the village to change its enforcement plan, passed 108-80. Proposition 2, to allow revisions to the Home Rule Charter, passes with 133 yes to 56 no votes. Since Proposition 2 was approved, the election of charter commissioners is valid. Members of that commission will be James Ballard, Melvin Duroyer, Frederick Fortsch, R. Donald Quinn and Robert Quinlan. Sandra Goslee with 116 votes and Ann Victoria Smelt with 96 were defeated for the commission seats. Out of 453 registered voters in Caseville, 275 went to the polls to cast their ballots.

Laker players Connie Schulz and Jenny Warren make sure the ball gets past defending Almont players.

The small gymnasium at Barton Bentlay High School was packed last Saturday and the crowd was loud to defy another regional volleyball championship.

And the Laker volleyball team, which won the District race by a nose, made it to the championship game in the Regionals.

But when the ball made its last fall to the floor of the gym, it was on the Lakers’ side of the net. The Lakers lost the third game of the final match 14-11 against the Anchor Bayiders.

FIRST MATCHUP: The first match of the day was against the Southfield Christian Eagles. In game nine, the Lakers had a 31 lead when Southfield took the lead, winning the next four serves. The Lady Lakers never saw the lead again. They lost 15-9 and learned that they could not come back and win as easily in Regionals as they had in previous games.

In the second game, with Jackie Ginter serving, the Lakers started out with two points. Connie Schulz was next in line to serve. Her serve can be difficult to return when she is set. The next six points came from Schulz serving. The score was 8-7 when Southfield finally got their single point of the game.

Brenda Buschlen and Tracie Humm each added a single point from the service line. Lisa Bushchlen served the next four in a row and gracefully saved the last serve for Schulz, who finished the game off with an ace.

Final score in game two was 15-11.

In the third game, the Lakers led off on a 1-0 before losing the side. Schulz then put the side out with a deadly kill shot. It was 11-7 when Schulz served up the next five. After Southfield scored two more points, Ginter set up Lisa Bushchlen with a kill in the back court. Ginter served the next two, then Southfield added three, making the score 9-6. Lisa Buschlen dealt four aces before losing the side. Schulz stopped Southfield’s offensive attack with a black and served the last two points of match. Final score was 15-11.

LAKERS MOVE UP: In the championship game against the Almont Raiders, the Lakers scored first. Almost scored the next five consecutive points after finally winning the serve back, Jenny Warren served five to gain the lead again.

Almost tied the game at six apiece. Almont added one more and Almont tied it up again, 7-7.

Schulz put the Lakers in the lead again with an unreturnable slam. Almost hit a five point spike, causing the Lakers to trail by one. On the comeback, Schulz went a serve and Warren got a kill shot, making the score 10-12. With Warren serving, Humm put up a block. Lisa Buschlen tipped the ball over and one ace put the Lakers back on top. Almost scored the next three and won the first game.

Judge Clabuesch's ideas are right on target!

May area residents know Huron County Probate Judge David Clabuesch, sitting judge of the Ninth Circuit Court in Pigeon. The fact that he's been appointed a judge by Gov. Milliken and reappointed by the Michigan State Bar Association speaks volumes about his experience and confidence—something I don't believe you don't have, but I do believe you don't need to do it, as much as I believe you can do it. What he's doing is sitting on a bench and making the right decisions. He has a lot of experience in that regard.

Judge Clabuesch has more than just a seat in a courtroom. He has a seat in the community. His wisdom is valued and his counsel sought after. He has been a friend and mentor to many, and his influence extends beyond the courtroom walls.

We are all grateful for the service he has provided to our community. We are all better for it. Thank you, Judge Clabuesch.

Woods & Waters

By DUANE GEUHNTER

Snobs Sports

It used to be just kids fishing. Now, because of increased awareness of being a snob is not only expected but also popular. The current trend is to participate in water activities, and fishing is one of the top choices for many people.

At the end of the summer, there is a flurry of activity as anglers prepare for the big winter fishing season. The state of Michigan is blessed with a variety of water bodies, including rivers, lakes, and streams, which provide excellent opportunities for anglers to pursue their passion.

Michigan waters are known for their diverse fish populations, with species such as bass, trout, pike, walleye, and salmon being common catches.

Pease Corp. seeks help

Over 3,700 acres will be bought by the Pease Corp. for $6.5 million as part of a program to develop the area into a regional park. The land includes 1,000 acres of wetlands and 900 acres of forest.

CMU offers winter classes

Central Michigan University is offering a variety of courses for the winter semester, including classes on topics such as art, music, science, and technology.

Birds' song heralds Spring's arrival

By CHUCK R. HODOSCHUCK, National Headline Services

March is a transitional month in the seasonal scheme of things. The days are getting longer and wintry weather is starting to give way to warmer temperatures.

In the southern Michigan, you may notice the birds are moving back to the area. Look for the first signs of migration as birds begin to return to their homes in northern Michigan. The weather is warming up, and the vegetation is starting to bloom. The birds are returning, and the trees are starting to show color.

ATTEND THE CHURCH OF YOUR CHOICE THIS SUNDAY

Christen MOTHERING day April 16

AREN'T YOU GLAD IT'S SPRING time? Have the last months of winter weighed you down? This month is the month to start cleansing your body and soul. The verse of the week is Romans 12:9:

"Be rooted and grounded in your faith, and built up in Christ Jesus, so that you may no longer walk as the Gentiles do, in the vanity of their minds, ..."

The Rev. Dr. Thomas S. Green, pastor of Christen Lutheran Church, say these words to encourage the congregation to renew their faith and dedication to Jesus Christ. "The Lord is good, and His love endures forever," he says in his sermon. "And He is always with us, no matter what we may be going through." He encourages the congregation to open their hearts to the love of God and to live their lives in accordance with His will.

This month's theme is "Faith, Hope, and Love." The Rev. Green will be giving a series of sermons on these subjects, and the congregation is encouraged to participate in this special month. The schedule for the month is as follows:

April 3: "Faith: A Foundation of Our Lives"
April 10: "Hope: A Reason for Living"
April 17: "Love: A Gift of the Spirit"
April 24: "Prophecy: A Guide for Our Faith"

The Rev. Green encourages the congregation to participate in these sermons and to reflect on the implications of these themes in their daily lives. He also encourages the congregation to join in prayer and worship to strengthen their faith and to seek the guidance of the Holy Spirit.

The Rev. Green concludes by saying, "Let us be guided by the love and grace of God. Let us be filled with the Holy Spirit. Let us live our lives in accordance with His will. Let us live our lives in love, hope, and faith. Amen."
We're Asking YOU....

They are in the state from March 26th through April 2nd.
Protect Your Child Against Accidental Poisoning

March 20-26 is National Poison Prevention Week

Did you know:

- Almost 2 million poisonings occur in the U.S. each year.
- Over 90 percent of all poisonings occur at home.
- Approximately 65 percent of these poisonings happen to children under age five.
- More poisonings occur between the hours of 9 and 10 a.m. and between 5 and 7 p.m. than any other time of day.

Poison Prevention

Take Preventive Action Every Day of the Week

Day 1
Post the number of your nearest Poison Control Center to every phone in your home. Check your supplies of ipecac and activated charcoal.

Day 2
Place all household chemicals and medicines out of reach of children, preferably in a locked cabinet, and avoid using them when children are around.

Day 3
Whenever possible buy containers with child resistant closures, and be sure to close them properly after use.

Day 4
Keep all harmful products in their original containers—especially, never put them in food containers of any type—with their original labels.

Day 5
Over a third of childhood prescription drug ingestions involve a grandparent’s medication. Make sure your parents take appropriate precautions, when your children visit.

Day 6
Check on the toxicity of any houseplants you have. Either move them out of your children’s reach or get rid of any that may cause problems.

Day 7
Medicines can change to deadly poisons as they age, so be sure to throw out any old prescription drugs by flushing them down the toilet.
