Duane Albrecht earns prestigious Paul Harris Award

Caseville Sewer Project gets EPA approval

By AMY HEIDEN

The first hurdle in the way of the controversial Caseville sewer project was cleared recently as the Environmental Protection Agency approved a $1.9 million grant, paving the way for more grant submissions leading up to construction of the sewer project.

Caseville Village Controller Janice Prill said the village received word of the award last week in a letter from Michael Cox of the Surface Water Quality Division of the Department of Natural Resources.

In granting the award, the EPA accepted the environmental impact statement submitted by the DNR, thus saying no harm would be done to the environment by the new lagoon system.

BACKGROUND: As far back as 1978, problems with septic systems in the village were apparent. DNR officials have said that several residents have seepage going directly through their septic systems, into a drain field, and into the Pigeon River.

The village entered into an agreement in 1987 with the EPA and the DNR to establish a sewer system within five years.

CHANGES: The process has not been without controversy, however. Owners of the site on Sturm Road originally chosen by village officials decided not to sell their property, and a site north of W. Kinds Road on the Pigeon River was purchased by the village.

Several residents in the area had fought against the proposed site, saying that foul odors from the sewer lagoon would lower their property values, and that

Bush is kids' choice

By AMY HEIDEN

If fourth graders in the Laker and Caseville school districts had their way, the next president of the United States would be George Bush — and by a fairly substantial margin.

We asked fourth graders to "vote" for us in a mock election, to get an idea of how younger students feel about the presidential sweepstakes less than a month before the election.

At Pigeon Elementary, Mr. Harmon's fourth-graders voted overwhelmingly for Bush, 15-4, over Dukakis.

In Elkton, Mr. Lang's fourth-graders chose the Republican contender 15-10 over the Democratic challenger.

At Caseville Elementary, fourth graders in Mr. Reed's class made it unanimous — voting 10 for Bush versus 6 for Dukakis.

Overall, that gives Vice President Bush 64 votes — or 64% of the ballots "cast" in the mock election, versus 33 votes — or 34% — for Massachusetts Governor Dukakis.

We'd BETTER candidate would LOVE a 60% total behind their name the day after the Nov. 8 election.

Letties deserve their rights, too

THERE'S one minority that you don't hear from often—they're not the "next big thing" enjoyed by others. Twenty-five million American women are living with a disability. They face the world backwards from what they perceive, and feel left out. We're talking, of course, about left-handed people. A recent Reader's Digest story says why people are left- or right-handed remains one of the greatest mysteries of the human psyche. Newly three-tenths of lefties are male, and left-handedness is far more common among males than females. (Neetu-one in 100!) So we're left to ask why lefties do what's left to us, righties do what's right to them.

Many of us had been taught that lefties just wrote their names differently. The truth is that lefties sometimesawl write their names backwards. The difference is that the brain begins to work in such a way that only a few left-handers have that ability. The left hemisphere is where the language area is located, so only right-handed people can write names backwards. If you're left-handed, you'll never be able to do it because the language area is on the right side of your brain.

And look at the catwalk! Don Richels, of Evanston's newest and snazziest shop, 8,000-square feet of Munsingwear downtown. We're all familiar with Munsingwear's slogan, "A boy's best friend is his mother," but the new slogan, "A girl's best friend is her Munsingwear," should be just as popular. Don Richels offers Munsingwear in sizes 3A-22, and the prices are unbelievable. At Don Richels, you can find everything from a simple skirt to a formal gown, and everything in between. Don't miss the chance to see the new Munsingwear collection firsthand.

Our Readers Write... 

I just wanted to thank you for your kind words in the Progress Advance. It is a great service to our community and we are grateful for your support.

Sincerely,

david

DEAR EDITOR:

Thank you for your kind words in the Progress Advance. It is a great service to our community and we are grateful for your support.

Sincerely,

David

DEAR EDITOR:

Some time ago, a young lady told me she could never remember the first word of a sentence because she couldn't think of any words to go with it. I told her to practice thinking about what she wanted to say before she started writing. She then told me she was planning to take literature classes at the local community college. I told her that if she wanted to be a writer, she should look into taking creative writing classes as well.

DEAR EDITOR:

I ran a marathon in the spring, and I am very proud of myself. I started running as a way to lose weight and get in shape, and I have been running regularly ever since. I have been challenged to run a marathon in the fall, and I have been training hard for it. I am very excited to run the marathon, and I hope to do well.

DEAR EDITOR:

I want to thank you for your article about the importance of volunteering in the community. I have been volunteering at the local food bank for the past year, and I have found it to be a very rewarding experience. I have met many wonderful people and have been able to help those in need.

Sincerely,

Jessica

Create a catchy title for an article about the benefits of volunteering in the community:

"Volunteering: A Heartwarming Journey of Service and Fulfillment"

Which modern technology has had the most significant impact on our daily lives?

овые технологии, такие как смартфоны, Интернет и социальные сети, оказали значительное влияние на нашу повседневную жизнь.

What are the implications of climate change on agriculture?

The implications of climate change on agriculture are severe. Rising temperatures and changing precipitation patterns can lead to decreased crop yields, increased water stress, and increased risk of crop disease. It is crucial for farmers to adapt to these changes to ensure food security.

Please provide a detailed description of the cityscape in your hometown.

My hometown is a small city with a mix of urban and suburban elements. The city center is filled with historic buildings and a vibrant nightlife, while the surrounding areas offer peaceful parks and natural beauty.

How has technology advanced transportation in the past decade?

The past decade has seen significant advancements in transportation technology. Self-driving cars, electric vehicles, and improved public transportation systems have all contributed to a more efficient and sustainable mode of travel.

Can you explain the concept of sustainable fashion and why it is important?

Sustainable fashion involves creating clothing and accessories that are not only stylish but also environmentally friendly. It is important because it helps reduce the impact of the fashion industry on the environment, such as by reducing waste and emissions.

What factors contribute to the decline of coral reefs, and what can be done to preserve them?

The decline of coral reefs is caused by a variety of factors, including overfishing, pollution, climate change, and disease. To preserve them, we need to reduce these factors and implement conservation strategies such as marine reserves and sustainable fishing practices.
Four years later... Shelly Ginter is still at the net!

Champagne offers Insurance
Champagne Funeral Chapel, McCullough and Fullerton, is offering the finest funeral planning for the advance planning of your affairs in the Caseville-Alcona area. According to Owner John Champagne, families today are taking advantage of our services than ever before. Our funeral planning department is staffed with the help of a professional counselor from a Funeral Home in our area. This takes on a new level because there’s no cost or obligation, explains Champagne, who adds that we foster personal relationships with families that help us better serve their needs. The policy guarantees that the funeral a prearranged plan today will be available in 5 to 7 years or applied to any other arrangements with an established funeral home. The idea behind funeral planning is simply that one day you’ll need all of the information about you or a loved one will be needed by you.

Champagne Seniors welcomes 2 new members
Caseville Seniors holds a membership meeting on October 4th to welcome new members. Alvin Malin of Caseville was welcomed. President Tim Bendel said all members and guests are invited to attend the meeting in the Legend’s Room.

REMEMBRANCE
A letter from Robert Schumacher, the husband of Evelyn Schumacher, a resident of Caseville, was read at the meeting. The letter was written by his son, Robert Schumacher. Evelyn Schumacher was married for 55 years to Robert Schumacher. The letter was read by the following family members: Robert Schumacher, his sons, and his daughter-in-law. The letter was published in the Caseville News.

Judge Clabuensch Probate Court
VICTIM’S RIGHTS:
Presently the Court is implementing new programs to comply with victim’s rights legislation. Judge Clabuensch is a strong advocate of victim’s rights and believes that the Court should do all it can to minimize trauma and inconvenience to victims of juvenile crimes. Included in the future plans are repayment for damages, a victim’s lounge to separate victim from the accused, and a notice which will provide the victim to speak out during a sentencing.

Learning

For a beginning black bass angler, it's a good idea to have a basic understanding of the fundamentals, such as how to cast, retrieve, and set the hook. Here are some tips to get you started:

1. Understanding the Basics: Bass fishing is all about understanding the behavior of the fish and adapting your technique accordingly. Bass are attracted to areas with structure, such as rocks, vegetation, or underwater humps, where they can hide from predators and find food.

2. Choosing the Right Lure: Selecting the right lure is crucial. Bass anglers often use live bait, such as worms or minnows, as well as artificial lures like plastic worms, crankbaits, or jigs.

3. Casting Techniques: Bass are often caught by casting lures into areas where they are likely to be found. Practice your casting technique and aim to place your lure accurately and effectively.

4. Retrieving Techniques: The way you retrieve your lure can make a big difference in your success. Try different retrieve speeds and angles to see what works best for the fish you are targeting.

5. Set the Hook: When a bass grabs the lure, it's important to set the hook quickly and firmly. If you hesitate, the bass may snap the line or break away. Be ready to strike the moment the fish takes the bait.

6. Practice Makes Perfect: Bass fishing is as much about patience as it is about skill. Spend time on the water, observe the fish, and refine your technique over time.

By following these tips, you'll be well on your way to becoming a skilled bass angler. Good luck, and happy fishing!
Be a part of Something GOOD!

Laker FFA CROP Drive
Wednesday, October 19

The Laker FFA raised $2,686 for CROP last year. We gave $672 to Meals on Wheels!

THE GOOD STORY!! — Every year Laker FFA students go door-to-door in a district-wide canvass for Meals on Wheels and CROP. Over the years, our kids have raised thousands of hunger dollars for home and overseas. Churches, community groups and individuals add more money around Thanksgiving and Christmas through offerings and special gifts.

THE PRODUCT — GOOD FOOD!! Beans! Michigan beans, sometimes split beans, sometimes whole beans, sometimes colored beans, sometimes navy beans, are purchased and sent overseas to feed the hungry.

THE GOOD RESULTS!! — Our agricultural area again responds with food for those who need it. Here in the Laker School District Meals on Wheels received over $650 from the 1987 CROP Drive. Food is sent overseas to places like Mozambique, Honduras, Brazil, the Sudan, Costa Rica, and Greece.

If we missed you on the FFA Drive, please send your donation to:
