Eichler leads 1989 Pigeon Chamber Board

Two new names were introduced to the Pigeon Chamber of Commerce for 1989 when newly-elected President Mark Shriver, vice president and regional vice president of the Communications Company in Tinley Park, Illinois, announced the appointments of Robert Beach and B. K. Becher, both from the Midland Bank & Trust Co., to serve as past-presidents.

MARK SHAW

Robert Beach was appointed as past-president of the Chamber Board, while B. K. Becher was given the title of vice president. Both Beach and Becher are from the Midland Bank & Trust Co., which has been in operation in Midland, Michigan, for over 100 years.

The new officers were introduced to the chamber by President Mark Shaw, who stated that the Chamber Board had been working hard to increase the membership and to improve the services offered to the members. He added that the Chamber Board was looking forward to working with the new officers to achieve these goals.

Shriver said that the Chamber Board was committed to providing quality services to the members, and that he was confident that Beach and Becher would help to achieve this goal.

Beach, who has been with the Midland Bank & Trust Co. for 15 years, said that he was honored to be appointed as past-president of the Chamber Board. He added that he was looking forward to working with the other officers to provide the best possible service to the members.

B. K. Becher, who has been with the Midland Bank & Trust Co. for 20 years, said that he was excited to be appointed as vice president of the Chamber Board. He added that he was looking forward to working with the other officers to provide the best possible service to the members.

Here are 5 ways to help a good cause...

WE were pleased to present our "Catalog of Christmas Giving" just prior to this past holiday season, giving the gift of greater support to local agencies. From the responses received from those recipients using the program, we found the response was overwhelmingly positive. In fact, more than 60% of the recipients said that the catal-
gazine was the best gift they had ever received.

For the third year in a row, the "Catalog of Christmas Giving" will once again be available. This year's catalog will include information about more than 60 local agencies that are working hard to provide services to those in need. The agencies are listed in alphabetical order by the first letter of their name. Each entry includes a brief description of the agency's mission and a list of specific areas where donations are needed.

To order a copy of the "Catalog of Christmas Giving," please contact us at 555-1234. The catalog is available in both print and digital formats. The print version is available for a donation of $5, while the digital version is available for a donation of $3. All proceeds from the sale of the catalog will be donated to the agencies listed in the catalog.

In addition to the "Catalog of Christmas Giving," we will also be offering a limited number of gift cards at a discount to those who make a donation of $20 or more. These gift cards can be used at a variety of local businesses and are a great way to give something back to the community.

Thank you for your support and for helping to make a difference in the lives of others.

**Snowshoe Trout**

By Duane Guenther

A heavy snowfall had cut off all travel and adding to the severely cold temperatures, had my mind on Christmas music. To add to the already established Christmas music, lan, gone and food in a whirlpool atmospheric under YFC’s roof, a silent Christmas Eve in a silence and a storm. And at Guiche’s latest point out, YFC has been selling Christmas music and discount tickets to get “good sounds” into the hearts of M.D. house plans, and they’re still selling well.

Now, a donation to YFC approaches for “MAD House,” will help underwrite the costs of dance and play and make a difference in the lives of youth. Holiday cheer and good cheer to you all.

**Laker Club**

By Reporter Brian Shaw

The Lakeview Laker Club, which is the student government organization at Lakeview High School, has announced that the annual membership drive will continue through the month of March.

There is a membership fee of $10 for students and $3 for non-students. The membership fee covers the cost of a T-shirt, which will be distributed to members.

The Laker Club is made up of students from all grade levels and from all departments at Lakeview High School. The club sponsors a variety of activities, including sporting events, dances, and community service projects.

The Laker Club is open to all students and is a great way to get involved in the school community. If you are interested in joining the Laker Club, please see one of the club officers or visit the Laker Club booth in the student center.

By CRAIG DOUGLAS, Secondary Principal

What does the future hold? Interestingly, it seems more uncertainty is coming our way, especially regarding the "new normal". Parents, teachers, and students are all facing the challenges of maintaining education in a changing landscape. The purpose of this article is to share some insights that have been shared with us by various stakeholders in the education field.

DILEMMAS THAT RELATE TO EDUCATION'S PRIORITIZED RESOURCES

In order to continue to serve all students, we need to prioritize our resources. This is especially important in light of the recent pandemic that has caused significant disruptions in the education system. Resources such as technology, funding, and personnel need to be allocated in an efficient manner to ensure that all students have access to the necessary tools to succeed.

DILEMMAS THAT EXIST BECAUSE OF OUR CHANGING MARKETPLACE

The education marketplace is constantly evolving, and schools need to adapt to these changes. This means that schools need to be more innovative and responsive to the needs of students. This can be challenging, but it is also an opportunity for schools to improve their offerings and provide a better education for all students.

DILEMMAS THAT RELATE TO EDUCATION'S INCREASINGLY DIVERSE CLIMATE

With the increasing diversity of students in our schools, it is important to ensure that all students feel included and valued. This means that schools need to be more inclusive and provide opportunities for students from different backgrounds to thrive. This can be challenging, but it is also an opportunity for schools to become more vibrant and dynamic communities.

Secondary School prepares student scheduling process for 1989-90

Secondary School is preparing for the 1989-90 academic year by organizing the student scheduling process. This process is crucial for ensuring that students are placed in the right courses and have a smooth transition into the new school year. Students and parents are encouraged to participate in this process to ensure that their needs and preferences are taken into account.

Questions for the SUPERINTENDENT

QUESTION NO. 1: COULD YOU PLEASE EXPLAIN TO ME HOW THE SUPERINTENDENT IS CHOSEN AT EACH YEAR?

ANSWER: The superintendent is chosen annually through a rigorous and transparent process. This process typically involves a search committee composed of parents, teachers, and community members, as well as input from the school board. The superintendent is chosen based on criteria such as administrative experience, personal qualities, and alignment with the school district's strategic goals.

ANSWER: The term "schools of choice" seems to mean that some programs or schools offer enhanced or alternative educational experiences. This may be to accommodate different learning styles or to provide opportunities for students who do not fit into the traditional educational framework. Schools of choice may offer specialized programs, such as arts or sports, or provide more flexible scheduling options.

ANSWER: Education is a fundamental right and is essential for the development of a well-rounded individual. It is important to provide options for parents and students to choose the best educational path for themselves. This can lead to increased motivation and better academic outcomes. Additionally, schools of choice can create a more diverse and inclusive educational environment.

Chinese is a popular new class at Laker High

The Chinese class at Laker High School has made great progress during the first semester. Learning Chinese has made these different languages of once - a foreign language - seem more accessible, and it's not just the local people who have enjoyed the benefits. The class allows students to engage in conversations in a second language. It creates a new learning experience and encourages them to explore different cultures. In this way, the Chinese class has become a popular new offering at Laker High.

Kindergarteners perform motor skills for Board

For a short time, the January School Board meeting reconvened as a kindergarten's week. Ms. Joanna Szynowski, accompanied by two students, Stephanie Denny and Corrine Edwards, put on a motor-skills demonstration to the delight of both the board members and the audience.

The demonstration began with the viewing of videos of Ms. Szynowski's videos in operation. Motor skills, with the help of parent volunteers, were demonstrated three times a week by the children themselves. The demonstration continued for the remainder of the school year without any interruption. During these demonstrations, the board members were able to observe how the kindergarteners were developing their motor skills, which are essential for their cognitive and emotional development.

EPPB students score high on State Assessment Test

EPPB Michigan students are performing significantly better on the statewide academic tests in science and mathematics, as evidenced by the results of the State Assessment Test. The Michigan Department of Education has released the scores of the test, and EPPB students have performed well above the state average in both subjects.

The test results were tabulated and made available to the public, allowing us to track the progress of EPPB students over time. The science test scores were particularly impressive, with EPPB students outperforming their peers in the state by a significant margin.

Caseville, Elkhorn seniors make news

Caseville High School Principal Mike Gigl and senior Richard Pfeiffer were on the road to Washington, D.C., this past month for a special day's outing. The senior class at Caseville High School decided to make a trip to Washington to see the sights and learn more about the nation's capital. The seniors were accompanied by a few students from the junior class, who were also interested in the trip.

The trip included visits to the National Mall, the Lincoln Memorial, the Washington Monument, and the United States Capitol. The students were excited to learn more about American history and culture, and they were impressed by the architecture and art of the various monuments.

SOME THINGS YOU CAN PUT OFF...

- Fixing your coffee pot
- Fixing your car seat
- Fixing your air conditioner
- Fixing your washing machine
- Fixing your refrigerator
- Fixing your toilet
- Fixing your sink
