Kindersey desires attention during March

Walter Kleinfeld

March 1987 - 1989

March is National Kidney Month, when the Kidney Foundation issues its annual appeal for donations to aid the nation’s 300,000 kidney disease suffers. Kidney disease is a serious problem, affecting people of all ages and stages of life. The Kidney Foundation's efforts are critical to the nation's health, as kidney disease is the leading cause of death and the second leading cause of death.

During March, the Kidney Foundation encourages everyone to donate to help fund research and support services for kidney disease patients.

Kidney donors are crucial in the battle against kidney disease. Donating can help save lives and improve the quality of life for those affected by kidney disease. It is important to spread awareness about the importance of donating and encourage others to participate in this life-saving cause.

On the flip side of the coin, the Kidney Foundation is also promoting kidney transplants. A kidney transplant can be a life-saving procedure for those with end-stage kidney disease. It is crucial to educate potential donors about the process and benefits of donating their kidneys.

In conclusion, March is a month of action. It is crucial to support the work of the Kidney Foundation by donating, spreading awareness, and encouraging others to participate in this vital cause.

Kidney disease is a serious problem, but with your support, we can make a difference in the lives of those affected by this disease.
Laker Industrial Arts classes teach life skills

Central Metals is a key part of the Laker High School Industrial Education instructional area. It offers students a chance to learn about and practice real-world work skills.

Metal preparation includes various techniques such as sanding, shaping, and polishing, as well as the use of various tools and equipment.

Students practice skills such as metalworking, design, and problem-solving. The focus is on hands-on learning and developing practical skills.

From the PRINCIPAL'S OFFICE

As "March Madness" season, arrives, in accord-
antly theme, some thoughts about an era being #1
by Robert, associate director of the Michigan High School Athletic Association (MHSAA). The organization provides sports for students in Michigan. The mission is "promoting student achievement and excellence in Michigan."

Our coaches and players have done an ex-
ract job, and we should all be proud of our participation this year. I am excited to see how our school will do in the playoffs, and we should all be able to enjoy the experience.

Attend The Church Of Your Choice This Sunday

WE LEARN THAT THE RIGHT KIND OF PRAYERS ARE ANSWERED

Throughout the Bible and in the teachings of the House of Worship, it is commonly told to put our trust in the Lord, but that is just what we fail to do when we say our prayers as though we were going to God a shopping list. Some of our requests are indeed genuine needs, but all too many of them tend to be frivolous and unnecessary, and occasionally even harmful. Therefore, we should not feel any disappointment when these trivial wishes are not granted.

We should remember that the Lord knows what is really needed within His church and He wants us to pray about the things which will help us to grow in His Kingdom. This is why He has given us the gift of prayer, so that we may have a direct line of communication with Him. He will answer our prayers if they are sincere and if they are in line with His will. So let us pray in faith, knowing that our Father in Heaven hears and answers our prayers.
