

## Eby, McGee continue domination of power track

Eric Eby and Tom McGee continue to dominate the shot put and discus events at area track meets with their record-setting performances. For instance, at the Mayville Relays, they combined their talents to win the shot put relay as well as the discus relay. They not only won both events, but shattered both existing records for each event. Their combined totals for the relay in shot put was 124 ft. 11 in., while the

discus record was set at 370 ft. 10 in. In the meet with Cass City, even though the Lakers fell 105-61, Eby threw his personal best of the season with a throw of 50 ft. 6 1/2 in. Robert Hartz was a double winner in the 3200 meter run with a time of 11:55.82, and the 1600 meter with a time of 5:20.19, both personal bests.

Jeremy Eden came on strong to place second in the

1600 meter run with a time of 5:31.70, and had his best time in the 800 meter run with a time of 2:29.0. Other solid performances were turned in by hurdlers Casey Haley and Charles Kimmel, and discus man Tom McGee took first with a throw of 141 ft. 6 in. McGee also took second in the shot put with a toss of 40 ft. 10 3/4 in. Brian Bollenbacher took second in the pole vault with a jump of 9 ft.

Casey Haley hurdled his way to a first place finish in the 110 meter hurdles against Imlay City last week, and took a third against Cass City.

Eric Eby has been a force to reckon with in the shot put and discus events at area track meets. Here, Eby throws the iron ball 49 ft. 8 3/4 inches to take the first place against Imlay City.

## Baseball team drops two to Caro

The Laker Varsity Baseball team dropped two games to Caro last week, 7-4 and 1-0. In the first game, Caro got seven runs on nine hits, while the Lakers could only manage four runs on five hits. Shawn Siemen took the loss for the Green and White, with five strikeouts and one walk. Kevin Wolfram hit a bases-loaded double in third-inning, which was the only

inning in which the Lakers got on the scoreboard. Bill McLellan had two singles, while a single by Shawn Parrish sent a runner to home. Caro shut out the Lakers in the nightcap, but they could only manage one run themselves. Bill McLellan pitched well, despite taking the loss, and pitched eight strikeouts and walked one. Jeremy Esch singled twice in the game.

Their record now is 5-7 overall, and 0-4 in the league. **JV ACTION:** The JV team continued their undefeated season by downing the Caro Tigers 11-0 and 10-9. Laker pitcher Eric Wissner got the credit for the win in the first game, shutting out the Tigers 11-0. Reggie Ignash also powered in a three-run homer. In the second game, Aaron Dubs pitched four strong innings, then Ignash came in and got the win for the Lakers. The Green and White came from behind by scoring three times in the last

inning. Chris Bixman had an outstanding day by getting four hits, three doubles, and seven rbis.

## JV softballers split

The girls' junior varsity softball team split a twinbill with Cass City, winning the first game 19-8, and dropping the second, 23-12.

Tricia Kuch as pitcher got the credit for the first game, and Susan Englehardt knocked in two two-run homers.

Tracey Pillion took the loss in the second game, and hitter Holly Esch was four for four at the plate with a double and three singles.

The team's record so far is 1-3.

## Laker netters keep winning ways

It's a great feeling to start the season with a win, which is exactly what the Laker tennis team did with a victory over Crosswell-Lexington, 4-3. Coach Dick Paul said, "I was very pleased to see the way our senior veterans played. Hopefully, our returning letter winners can hold us together until our first-year players can gain some experience."

In first singles, Jody Caverly defeated Geoff Mee of Cros-Lex, 5-7, 6-1, 6-3; in second singles, Steve Deneen defeated Don Serra 6-2, 6-1; in third singles, Jeff Rosenthal defeated Jay Kandler 6-2, 6-3; and in fourth singles, Danny Gonzalez of Lakers lost to Steve Ladowski 7-6, 6-3.

In first doubles, Chris Soule and Mark Lee of Cros-Lex defeated Doug Schember and Jason Sturm of Lakers 6-0, 6-3; in second doubles, Mark Kretzschmer and Kevin Wolfram lost to Chris Smith and Bret Salyer of Cros-Lex 5-7, 6-3, 6-0; and in third doubles, Al McBride and Mike Keefer of Lakers defeated John Sheehy and Phil Ehardt of Cros-Lex 6-1, 7-5.

Playing against Frankemuth, the Lakers lost their first set of matches at home since 1980. In first singles, Jody Caverly lost to Todd Hoffman 7-6, 7-6; in second

doubles, Derek Kroeger of Frankemuth beat Steve Deneen 6-2, 5-7, 6-2; in third singles, Jeff Rosenthal beat Charlie Spencer 4-6, 6-1, 6-1; and in fourth singles, Danny Gonzales of Lakers defeated Chris Irvine 4-6, 7-6, 6-2.

In doubles, Mike Keefer and Al McBride of Lakers lost to J. J. Stein and Aaron Stump 6-1, 6-4; in second doubles, Doug Schember and Kevin Wolfram defeated Mike Luther and Kevin Appolo 6-4, 6-1; and in third doubles, Brenda Buschlen and Darrin Jantzi of Lakers defeated Scott Weidenfeller and Jim Stein 6-1, 4-6, 6-2.

The Lakers got back into winning form against Goodrich, taking four matches. Coach Pauly says that his team is improving with every match, one of their goals for the season. In singles, Lakers took every match, beginning with Jody Caverly beating Adam Hassan 6-3, 6-1; in second doubles, Steven Deneen won over Chris Bosseau 6-4, 6-3; in third doubles, Jeff Rosenthal beat Mike MacDonald 6-0, 6-0; and Dan Gonzalez defeated Tim Tenniswood 6-2, 6-0.

In doubles, the Lakers lost all three matches. Mike Keefer and Doug Schember of Lakers lost to Carl Owens and Jim Bach 6-3, 6-7, 6-4; in

second doubles, Darrin Jantzi and Brenda Buschlen lost to Cliff Owens and Curt Harding 6-1, 7-5; and James Rosenthal and Jamie Learman lost to Todd Firestar and Troy Hiller 6-0, 6-4.

## Sign-up in Elkton

The Elkton Youth Baseball program will have registration night Thursday, May 4, for all boys and girls wishing to participate this summer.

The meeting for the boys will take place at the first pavilion in Ackerman Park in Elkton. Sign up will be as follows:

6:00-6:15 p.m. T-Ball (age 6-8)  
6:15-6:30 p.m. Little League (9-11)  
6:30-6:45 p.m. Traveling League (12-13) Pony League (14-15)

Those who would like to sign up but are unable to attend please call Tom Bouverette at 375-4356, or Dennis Ropp at 375-4214.

The meeting for the girls' Ponytail League, ages 8-14, will take place at Pavilion No. 2 at 6:30 p.m. Those who cannot attend should call Lee Jaworski at 375-4332, or Deb Ackerman at 375-4348. Coaches are also needed!

## Antique clothing highlights Pigeon Museum June opening

The Pigeon Historical Society is gearing up for another busy season at its Historical Museum at the Pigeon Depot. Society officials are planning several special displays for the summer months, and say the museum will open June 3 and remain open through Sept. 10. Hours for the museum will

be Saturdays, 10 a.m. to 1 p.m., and Sundays, 2 to 4 p.m.

In June, antique clothing, particularly antique wedding dresses and attire will be the special feature. Along with the clothing, antique jewelry, wedding photos, and christening dresses will be shown. July's specialty

will be antique gifts and souvenirs from Pigeon merchants, plus old photographs of families and homesteads during the period 1885-1935. Children of all ages will enjoy August's special feature, antique toy tractors and machinery. This display will begin at Farmers' Festival, and be shown July 27

through Sept. 10. Committee chairperson Marie Leipprandt says that anyone having items they'd

like to display in June should bring them to the museum either May 26 or 27 between 10 a.m. and 1 p.m. Or they

can call Leipprandt at 453-3864, or Mabel Swartzendruber at 453-3522, for more information.

THIS 40 YEAR OLD WEDDING DRESS belongs to Mrs. Vincent Smith of Pigeon and it will be on display when the Pigeon Historical Museum opens in June

## Mothers Are For Loving.

We have Carlton cards, gift wraps, mugs and buttons, for showing her how much you care. Mother's Day is Sunday, May 14

## Laker 4-H club news

By JIMMY WHEELER Reporter  
The Laker 4-H Club met April 13 at the Elkton Civic Center.

The meeting was called to order by President Amanda Barry. The pledge to the flag and the 4-H pledge were given. A roll call of members was taken with 23 members present and seven new members. The secretary and treasurer each gave reports. Members were reminded that sheep and hog projects are to be registered with the Extension Office by May 15. This year each 4-H'er selling animals at the Junior Livestock Auction must fill out and turn in a Livestock Record form.

A report was given by those who went to the State 4-H Rabbit show at Michigan State University. Members were told to be thinking about attending 4-H Exploration Days at MSU in June and 4-H Camp in July.

Our next meeting will be May 11 at 7 p.m. at the Elkton Civic Center.

More news you can use... every week in your Progress-Advance!

## Opening Friday, May 5 at 5 am

## Brink's Bakery and Coffee Shoppe

15 South Main - Pigeon - 453-2009

Stop by and visit us!...

And try our homemade bakery items, homemade soups, sandwiches, frozen yogurt seafood salads & more!

Serving Breakfast  
Lunch and Dinners  
Daily from 5 am to 11 pm

Open 7 Days a week  
To serve you and your family delicious homemade food.

# Computers: The key for careers in the 90s

Choosing a career and finding a job in the '90s will be easiest for those who have a clear view of the opportunities and problems they may face in their quests. Young people have an advantage over most of their elders today because they're in at the beginning of a new wave of technology and art... the technology of the computer... and the art of adapting it to make life better. Students in the Elkton-Pigeon-Bay Port School District are advised to view the computer as a tool... not just a product... because in one way or another, they are going to have to use it.

It is also important for students to get their priorities straight, to think of what their aptitudes and abilities are ahead of "making money" or "getting ahead."  
One thing is certain, the younger people have an advantage: There will be fewer around in the 16 to 25 age range, the getting started ages. Thus it becomes a seller's market. The competition will be for the best and the brightest, but little call for the unskilled.  
Services will boom, especially those tied to communications, data processing, banking and finance. For those with technical expertise,

computer sciences and engineering will be strong fields. The demand for electronic engineers will continue.  
In the computer field, computer systems analysts will be in demand, as will software designers, computer programmers, computer-security experts and technical writers.  
The Laker Secondary Schools recognize the importance of computer education and recently have finished outfitting a new computer lab funded by a grant secured by Fred Joles, grant writer for the school district. The lab

boasts two rooms with 55 computers controlled by two main terminals. Students get many chances to take classes in this field through both the Junior High and the High School curriculum.  
Counselors in the secondary school feel that a good grounding in math and science will be increasingly essential for anyone hoping to make it in industry. Also, learning about computers is a must and needn't be a frightening experience. At least familiarize yourself with what they do, how they do it and their uses.

## Laker High has Student Council Leadership w'end

Twelve members of the Laker High School Student Council went with Miss DiCamillo, Miss Fredriksen and Mr. and Mrs. Douglas to Midland on April 8 and 9. The purpose of the trip was to attend a leadership workshop di-

rected by Ms. Connie Bushe. Ms. Bushe worked with the group on problem-solving and motivation. Brainstorming sessions were held which will be helpful to the students and school in the future.

## From the PRINCIPAL'S OFFICE

By CRAIG DOUGLAS, Secondary Principal

## Laker High prepares for North Central Evaluation

"The purpose of the Association shall be the development and maintenance of high standards of excellence..."

Plans are being made for an intensive study of the Laker High School program. The beginning stage is a self-study of our curriculum by our professional staff. This self-study will occur during the 1989-90 school year.

Studies, such as the one just explained, are an integral part of being an accredited school. The normal process is to be evaluated by a team of "outside experts" every seven years. However, this year the administration is searching for a new approach, one that will allow an on-going evaluation each and every year.

The key group heading up this proposed yearly study is the steering committee. The steering committee is responsible for compilation of sub-committee reports and general staff discussion. In addition, the steering committee prepares for the visiting committee and the building improvement plan (a follow-up of the self-study and visiting committee's work). Fac-

ulty members on the steering committee include Anne Eichler, Lee Deneen, Bill McLellan, Mike Terrill, Doug Rees and Duane Guenther. Assistant Principal Lisa DiCamillo and Principal Craig Douglas are also members of the steering committee.

The timetable for the evaluation process goes like this: The self-study will occur during the 1989-90 school year, the visitation study occurs the following year (1990-91) and the improvement plan (follow-up work) takes place in 1992, 1993 and 1994. Two other visitations will take place during this time. After a five-year cycle, the entire process begins again.

North Central Accreditation and subsequently the North Central Evaluation, is an important process in maintaining high educational standards within a local school district. The work is hard, the cost is minimal and the results necessary to produce better schools for you and your children.

## Immunization status of your teen

The Huron County Health Department would like to remind all parents to review their children's immunization records to ensure they have met recommendations from the Michigan Department of Public Health.

The recommendations are that a child should have a Tetanus & Diphtheria booster every 10 years. For instance, if your child received a booster shot of Tetanus & Diphtheria upon entering school as a kindergartner, he/she should be eligible to receive a Tetanus & Diphtheria booster at the age of 14 or 15.

Please contact the Health Department if you have any questions in regards to the immunization status of your child.

"One thing is certain, the younger people have an advantage: There will be fewer around in the 16 to 25 age range, the getting started ages."

## Laker art program is alive and well

Michigan's colleges and universities have indicated that fine arts are an important part of any secondary student's curriculum. Music and art have long been an integral part of the Laker High School curriculum. The band and choir are very visible during football season, summer parades and concerts, but the Art Department tends to be overshadowed by the many activities in a high school. We would like you to know that the Laker Art Department is an active, valuable part of our school system.

On April 26, 38 advanced art students went on a field trip to the Saginaw Valley State University Art Building. From there, they traveled to the Traxler Congregational Art Compe-

dition held at the Bay City Courthouse. Laker students had entered more than 70 art pieces for the two-week long display. Local sponsor for the Art Show was Studio 23.

On May 7 the Laker Art Department will hold the 22nd annual Art Show at the Elkton Civic Center, sponsored by the Elkton Woman's Civic Club. It will be open to the general public from 11 a.m. to 4 p.m. Approximately 350 art pieces will be exhibited, including inks, oils, clay, prints, watercolors and many more.

Treat yourself to a pleasant Sunday by viewing the outstanding work created by these talented high school students. The Laker High School art teacher is Mr. Lee Deneen.

# Caseville water system helps future growth

FROM FRONT PAGE

**STAFF TRAINING:** Robert Peter, Caseville DPW superintendent, and village employe Wayne Champagne, have been taking courses sponsored by the Michigan Department of Public Health and the American Water Works Association for the past two years, and are now licensed to operate the plant after passing state exams.

Peter explained the new plant employs the latest technology in water treatment. "The plastic chips used in the clarifier are the very latest technology. We have the first clarifier of this type to be installed in Michigan," Peter says. He tests the water daily to make sure it meets all state standards for safety and purity, testing for bacteria, chlorine, suspended particles, and hardness.

The plant currently treats about 120,000 gallons of lake water every day, Peter says, but during the summer tourist season, over 500,000 gallons a day will be run through the plant.

**HOW IT WORKS:** Caseville's water is treated like this: First, the water is pumped from an infiltration bed about seven feet below the surface of the lake and about 1,400 ft. offshore.

To make the bed, sheet steel was placed around 22,500 sq. ft. of the lake bottom. Sixteen-inch pipe with arms of eight-inch slotted PVC pipe were laid under a bed of sand and stone and buried under the lake bottom.

Water filters down through the stone and sand and into the pipes. When called for, large pumps at the pumping station by the county beach draw water from the infiltration bed into the 16-inch pipes, then into 12-inch water mains which extend about a mile to the water treatment plant.

Peter says some concern was expressed about the lake intake system, but says, "There's no way a fish or any other living thing could get into those pipes."

And other residents questioned whether lake levels would have any effect on the intake. Peter says feasibility studies looked at 100-year highs and lows of the lake level, and that that the lake would have to drop another five feet to cause any problems.

**IN THE BUILDING:** Once in the treatment plant, the water is pumped into filtration beds of plastic chips, and is treated with aluminum sul-

fate to remove suspended particles.

The aluminum sulfate causes suspended particles to cling to it, making "snowflake" of impurities large enough to be filtered. Chlorine dioxide is also added to disinfect the water.

The water is then filtered through a mixed media of silica sand, coal, and illinite to remove the "snowflakes," and the dirty water

containing the flakes is back-washed out to a pond, where the flakes settle.

Later, the cleared water is pumped back to the lake. None of the aluminum sulfate is left in the water when

it finally reaches a user, Peter says.

Flouride is added as a tooth decay preventative at the plant after the water is cleaned of impurities.

# You Are Invited To Attend...

The Open House and Dedication of the new Caseville Water Treatment Plant on Saturday May 6, 1989

**OPEN HOUSE**  
10 am to 3 pm  
Refreshments Served  
Walk Thru Tours

**DEDICATION CEREMONY**  
11am conducted by Mayor Frank Malosky

Local Dignitaries and Village Officials will be present to greet you and answer your questions. Please join us!

*You Can't See  
What We Did In Caseville...*

*But when you  
turn on the  
faucets..*

*You'll taste  
and see  
the results  
of our work!*

We are proud to have been the contractor for the lake "Intake Bed" of the new Caseville Water Treatment Plant

**THE KING COMPANY, INC.**

13520 BARRY STREET - HOLLAND MI 49424

616-399-1784

**Caseville Water Plant** FROM PAGE 15

**READY TO DRINK:** After the filtering, the water is pumped to a clear well, and from there is pumped into the village's 300,000 gallon water tower until needed for distribution.

The whole process from lake intake to the tower takes about one and a half hours, Peter says, and about four

hours till the water is sent through the village's water system.

**COMPUTERS WORK:** All the systems in the new plant are controlled by programmable controllers, small computers programmed to handle all functions, and everything is completely automatic.

Alarms sound when the water level in the tower becomes too high or too low, or when any other problem is detected. Even if the village loses electricity for some reason, residents will still have fresh water because the plant has its own standby generator, Peter proudly points out.

"Everything here is dual-system. If something goes wrong, it has a backup," he says.

At its present licensing, the plant can treat 1.2 million gallons of water, but it is capable of treating 2 million gallons a day.

**FUTURE SALES?** And because of that excess, the village is exploring a master water plan with Caseville Township that would allow the village to sell water to developed areas of the township.

Peter admits there's a cost to having a state-of-the-art water treatment plant.

"It costs about 66 cents a day up to 20,000 gallons a quarter to have treated water. But it's worth it to have water that's this good. We really take good water for granted. We just turn on the tap and expect it to come out and not smell and to taste good."

**GOOD TIMING:** For the second time in as many years, the public and private sectors will join in a nationwide celebration of National Drinking Water Week, May 1-7, to pay tribute to that often taken for granted but nonetheless precious commodity, safe drinking water.

**What do YOU know  
about your water?**

By AMY HEIDEN

Water. Everyone uses it, and we always expect it to be there, fresh and pure, when we need it.

Our bodies are mostly water, our food is mostly water. But how much do you know about how much water we use and lose? Test your knowledge with this quiz.

**Try this WATER QUIZ!**

1. How much water does it take to process a quarter pound of hamburger?
2. What is the total amount of water used to manufacture a new car, including tires?
3. True or false. Water is the only substance found on earth naturally in the three forms.
4. How long can a person live without food? Without water?
5. How much water does an acre of corn given off per day in evaporation?
6. How much water is used to flush a toilet?
7. How much water is used in the average shower?
8. How much water does the average residence use during the year?
9. How much does an individual person use daily?
10. How many community public water supply systems are there in the United States, and how much water do these utilities produce daily?

# Area clubs busy this spring

## CASEVILLE RETIREMENT CLUB

There were 116 members present for the April 25 pot-luck meal and meeting of the Caseville Retirement Club at the American Legion Hall. A new member, Bea Zelinski, has joined.

President Margaret Wilhelm asked all to stand and greet their neighbors, then led in "The Lord's Prayer." The Pledge to the Flag opened the meeting.

Wilhelm thanked all the workers for April and the volunteers for May, plus Sue Reynolds for the "earlybird" goodies.

Welcomed back were Bill and Marion Smith and Tony and Vi Wintergerst.

Travel Chairman Ray Gerard reported the Crossroads Village trip is filled and that sign-up for the June 28 Saginaw Racetrack trip was to begin May 2.

Four members reported on

the Commission For Aging meeting they attended.

Celebrating birthdays were Emma Potter, Al Pirlik, Annabell Zubrick, Robert Ritchie, Jim Fournier, Betty Zacheretti, Goldie Robinette, Phoebe Pedrotte, Jr. Robinson and Evelyn Campbell.

Feted for anniversaries were Mike and Esther Buchler (53 years), Ken and Mary Gardner (42 years) and Bob and "Jo" Brovege.

Hospitalized at Huron Memorial Hospital is Dorothea Gogola and recuperating at home is Les Grunow.

Card parties and luncheons were announced by Wilhelm as follows: May 8 St. Francis Borgia Hall, Pigeon, 12 noon and May 22 K of C Hall, Pigeon, 12 noon.

The 50/50 raffle of 25 prizes was conducted by Elizabeth Patterson.

Wilhelm read a poem brought in by Bill Smith from Arizona.

## Pigeon Friday League leaders feted

The Friday Night Mens' Bowling Banquet was held April 22 at Annabelle's Restaurant, Sebewaing.

First place trophies were awarded to the Albrecht Auction Service Team of Troy Gunden, captain, Marv Swartzendruber, Dave McAlpine, Carl Henne, Henry Lange, Tony Torres and Terry Swartzendruber (subs).

League awards went to Berkley, Ind. with a high team series of 2649 and Active Feed with a high team game of 953.

155-average and over high series trophy went to Dick Deering with a 659 and high game trophy went to Marv Swartzendruber with a 245.

154 average and under high series trophy went to Lyle Albrecht with a 568 and high game trophy went to Ed Shepherd with a 226.

Special patches went to Dick Deering, 100 pins over average and 150 pins over average. Al Gies received a 7-10 award. Brad Stahl raised his average 15 pins.

New officers for 1989-90 are Clayton Kauffman, president; Brad Stahl, vice president and Robert Damm, secretary/treasurer.

## Top bowler named here

The Thumb Area Women's Bowling Association "Bowler of the Week" for April 2-8 is Sue Morell, who rolled an actual series of 601.

Morell bowls for the Bad Axe Radiator team on the Monday Night Ladies League at Almac Lanes, Bad Axe.

High individual scores: D. Yahn 598 (245-178-175), J. Abbott 555 (193-184-178), D. Herzog 474 (175), R. Voss 180.

Six consecutive strikes: D. Yahn. Splits converted: 2-7-9 D. Herzog.

## WEDNESDAY NITE LADIES Roll-Off

Dodge Girls ..... 2344  
 Bay Port Construct. 2209

High team series and game: Dodge Girls (820-794-730), Bay Port Construct. (800-726).

High individual scores: D. Yahn 598 (245-178-175), J. Abbott 555 (193-184-178), D. Herzog 474 (175), R. Voss 180.

Six consecutive strikes: D. Yahn. Splits converted: 2-7-9 D. Herzog.

## LAST DAY OF REGISTRATION SCHOOL ELECTION

**NOTICE OF LAST DAY OF REGISTRATION OF THE ELECTORS OF ELKTON-PIGEON-BAY PT. SCHOOLS, HURON COUNTY, MI**

TO THE ELECTORS OF THE SCHOOL DISTRICT:

Please take notice that the annual school election of the school district will be held on Monday, June 12, 1989.

The last day on which persons may register with the appropriate city or township clerks, in order to be eligible to vote at the annual school election called to be held on Monday, June 12, 1989, is Monday, May 15, 1989. Persons registering after 5:00 o'clock in the evening on Monday, May 15, 1989, are not eligible to vote at the annual school election.

Persons planning to register with the respective city or township clerks must ascertain the days and hours on which the clerks offices are open for registration.

This notice is given by order of the Board of Education.

**JAMES H. CLABUESCH**  
 Secretary, Board of Education

## Does your child have SCOLIOSIS?

Each year, hundreds of scolioses will go unnoticed and undetected by public health officials and school authorities who have little or no knowledge of spinal structural disorders thereby leaving your children vulnerable to this potentially crippling disorder.

Chiropractors require a minimum of six year's education and are specifically trained in the cause, correction and prevention of many spinal structural disorders, including scoliosis.

The month of May is Spinal Health Care Month in Michigan and during the month of May we're offering

**FREE X-Ray & Spinal Examination**

For All Children 12 Years Old & Under

Don't let your children suffer needlessly ... Call 883-3950 Today!

**SEBEWAING CHIROPRACTIC LIFE CENTER**  
 624 S. Unionville Rd. (M-25) Sebewaing (Behind the Dairy Barn)

### PIGEON DISTRICT LIBRARY NEWS AND NOTES

#### PRESCHOOL STORY HOUR

The Tuesday Preschool Story Hour theme will be "Mothers' Day" on Tuesday, May 9 with the stories "Just For You," "Are You My Mother?" and "Little Red Hen."

Exercises, fingerplays, a game and song will be part of the scheduled activities. Children from age three to five are invited to attend either the 9 or 10:30 a.m. session. A registration fee is required, per family per year.

#### SHIPSHEWANA TOUR GROUP

The Library would like to remind the Shippshewana Tour Group to bring a sack lunch on the bus when the group leaves May 9 at 7 a.m. SHARP from the library.

#### FAMILY HISTORY

Interested in family history? Contact the Pigeon District Library, which has several books on area families, such as "The Buerker Family" by John and Agnes, "The History of My Life" by Florence Gwinn Schluchter, "Seven Generations of the Gettel Family 1820-1983," "The Fluegge Family."

There are also books to help you get started on your own family history, including "The Good Life in a Small Town: Pigeon's Family History," "Portrait and Biographical Album of Huron County," "Searching For Your Ancestors" by Gilbert H. Doane.

"The New Book For Genealogists" by George B. Everton, Sr., "Know Your Ancestors: A Guide to Genealogical Research" by Ethel W. Williams, "Family History For Fun and Profit" by Vincent L. Jones, "Preserving Your Past: A Painless Guide to Writing Your Autobiography and Family

History" by Janice T. Dixon. There's even more information in the vertical files listed under "Genealogy." Most materials can be checked out or copied. There are book listings, information about census, pamphlets and charts to get started, etc.

#### ADULT COFFEE HOUR SOFFEE

The library presented Linda Zibbell of the HSD Gifted Children's Program was guest speaker on Tuesday, April 18, providing pointers to 23 listeners on "Ways to Develop Your Child's Thinking Skills and Creativity."

She said that creativity starts with the parent, who should teach LOVING/LAUGHING/LEARNING.

She also mentioned questions that encourage creative thought:

■ FLUENCY QUESTIONS: "What are all the ways you can...?" "What are all the things you could do if...?"

■ FLEXIBILITY QUESTIONS: "What are all the kinds of... you can think of?" "How would you look to a...?"

■ ORIGINALITY QUESTIONS: "When you combine... with... what new idea/product will be the result?" "Create or design an original..."

■ ELABORATION: "Explain in detail..." "Combine any... words to make a longer phrase or sentence." You can always give or buy a book, but instead, help the child write a book.

She also noted that ideas come from daydreaming, saying it's OK for a child to have an imaginary friend. She suggests parents read a story and stop before the end, letting the child make up the ending.

This was the final Adult Coffee Hour of the spring season. Coffee Hours, which are open to the public, will resume in the fall.

## Thanks a Million By Percy Ross

### A gift for Mother Earth

of my own except by artificial insemination. The cost is \$1,800.

I don't feel like I want to grow old by myself after my parents are gone. I don't want to be the aunt that babysits everyone else's children, either. Would you pay for me to be artificially inseminated so I can have my own baby? I've been told I'm great with kids, but unless I get one this way I'll never have one to call my own. —Miss L.F., St. Louis, Mo.

DEAR MISS F.: No, I won't pay for artificial insemination. You see, everyday I hear about children without parents who are in need of food, clothing and/or shelter. The \$1,800 you want to bring a child into this world could make a world of difference to a child that already exists in a state of poverty.

I hear you saying you want your own special person to nurture and love. Even though you're single, nowadays you can achieve the same goal through adoption or foster care. I think both are wonderful alternatives and worth looking into. The choice is yours.

DEAR MS. A.: Due to our modern lifestyle of convenience, we have thrust an ecological imbalance upon our planet Earth. For what it's worth, I no longer give away disposable diapers but rather choose to give diaper laundry service. Some people might say "big deal," but then I doubt those people realize it takes up to 10 years for disposable diapers to decompose.

Count yourself among the winners in the "If I Were a Millionaire" contest. Please use my forthcoming \$100 check to help support your cause.

DEAR MR. ROSS: My parents are old, and all my sisters and brothers have children. I'm going on 28. I'm not married and I don't have a boyfriend. I've never had a boyfriend, so I guess I'll never have a baby

This ancient relic is a sagging shadow of its former magnificent self — with large hills and deep valleys everywhere the eye can see and hind quarters can feel. Fact is, most of the stuffing and other innards have fallen out, via gaping holes scattered throughout its lifeless body.

I'm a senior barely existing on small Social Security check, which is hardly enough for the basic necessities, let alone for a luxury like a new mattress. If you can possibly see your way to gifting me a good night's sleep, you will have my undying gratitude. However, should you decide I'm not to be one of your lucky recipients, I'll just continue going through

### Lake-Chandler news

Glen Watterworth of Sterling Heights spent Saturday with his parents, Mr. and Mrs. Fred Watterworth.

Mr. and Mrs. Bruce Watterworth were Saturday visitors at the Alan Watterworth home in Flushing.

Mr. and Mrs. Morgan Bal-lagh of Kinde were Friday visitors in the William Ballagh home.

Fred and Marion Watterworth is spending a week with their son Bob in Troy.

Mr. and Mrs. Tom Watterworth visited relatives in Marlette.

### He won the TV, NOT the cash!

Bruce Richmond of Bay Port already had the \$1,000 spent... until he found out that no, he really had not won both \$1,000 AND a color TV in the Pigeon IGA Fame 'n' Fortune Contest, as was reported in two different places in last week's Progress-Advance!

Alas, it was an error that said Richmond had won \$1,000... although he WAS the lucky winner of a 19-inch Magnavox color TV. He's probably crying all the way to the bank, although when he returns, he can relax and enjoy his new TV!

Better luck next time, Bruce! (sorry about the mistake!).

life suffering with chronic back pain, neck pain, leg pain, fanny pain... —Ms. D.D., Brooklyn, N.Y.

DEAR MS. D.: I was beginning to believe I wore a neon sign saying I like to give away beds. Then my editor pointed out that people assume I like to give away beds, because so many bed requests end up in print in this column.

Is there a correlation between needing a bed and the ability to write a clever letter? Perhaps so, because your letter is in print and my check's in the mail for a new bed. Anyone who's been sleeping on a 45 year old rack of pain deserves that and much more. Best wishes.
