Future mountain climber!

Adam Dumas of Pigeon is barely walking, much less getting ready to climb a mountain — but he thinks this fence at a friend's house is a great place to practice.

The 2 1/4-year-old is the son of Chuck and Julie Dumas of Pigeon.

A Hunter Safety class has been set for Henry Tuesday, Wednesday, Oct. 2, 4 and 10 from 4 to 9 P.M. at Lake High School. Interested persons may register, at no cost, on the first night of the class, according to instructor Van Johnson, Pigeon Police Chief.

Topics to be covered will include Firearms, Archery, Handguns, Black Powder Weaponry, Wildlife Identification and First Aid. Participants must attend all six classes and pass a written and demonstration test afterwards in order to receive certification.

According to Johnson, teens from age 12 to 18 must have completed a Hunter Safety course in order to obtain their first hunting license. He adds that the class is open to those over age 16, noting that Canada and many other states require a Hunter Safety course before hunters may obtain a license.

Excellent crop yields being harvested in Thumb & statewide

You may have heard that the 2009-10 Sugar Beet Crop has been harvested. In fact, more than 20,000 acres of sugar beets have been harvested in the Thumb of Michigan. The crop has been harvested in the Thumb for the past 20 years. The crop is harvested during the winter months, and the sugar beets are harvested in the spring.

Many farmers have been working hard to harvest their crops, and they are looking forward to the end of the season. The weather has been favorable for harvesting, and the crop has been harvested in good condition.
