Pigeon folks visit and travel

Mr. and Mrs. Art Kulas checked the Michigan weather forecast before booking their trip to Florida. Mr. Kulas said they chose to go to Florida because the weather is warmer and they can enjoy the beach and the ocean. Mrs. Kulas said they like to take long walks along the beach and watch the sunsets. They plan to visit the Everglades National Park and the Kennedy Space Center. They are looking forward to spending quality time together and relaxing in the warm weather. They plan to return to Pigeon after two weeks in Florida. They are excited to see their family and friends when they return.

Girl Scouts visit Petroglyphs

Girl Scout Troop #166 visited the Scenic Petroglyphs on a recent outing to learn about the history and culture of the Native American people. The girls were able to see petroglyphs that were created by the ancient Native Americans. They were fascinated by the carvings and the stories that they represent. The girls were also able to see the tools that were used to create the petroglyphs and the techniques that were used. They were impressed by the skill and creativity of the ancient Native Americans. The girls were able to take a close-up look at the petroglyphs and learn about the significance of the designs. They were able to ask questions and get answers from the guides who accompanied them. The girls were very happy with the trip and they learned a lot about the history and culture of the Native American people.

**Remembering When...**

This series of aerial photos is about 30 years old, but the pictures have never been seen by anyone except staff of the newspaper.

You'll be amazed at how these farms have changed in 3 decades. Some old homes have been taken down and new ones built. Many farmers have new spouses, or children, or grandchildren living there now. Almost all of them have far fewer buildings today than they had in the '50s. In some cases you'll notice that fields are larger today than the earlier buildings. Many of them have been cut down, all of them have grown. On some farms, hedges of cows are seen in the barnyards or in a adjoining pastures or orchards.

These old photos will prove a genuine history book of changes in farming during the past decades.

The Progress-Advance is no more acquainted with the names of the farms than the readers, as they were "shot" by Bill Hudsonbrick and his pilot flying from town to town, and farm to farm. So put on your thinking cap, then call 483-2331 or deliver or mail your answer to our office. Winning entry will be drawn at the close of business Friday, from all correct entries received. Decision of judges is final.
