Commandments that Rule Housekeepers

To manage her household so that the comfort, health and well being of every member shall be insured is a difficult task for a woman, and requires much tact, as well as domestic ability.

To accomplish this she must make it her aim:
To spend wisely as well as to save.
To choose and buy food which those who eat will enjoy, and which will be suited to their needs.
To have this food cooked in such a way that it will be agreeable, wholesome and digestible, and to have the meals served punctually and in order.
To see that every part of the home is kept clean always, because dirt is degrading and brutalizing and leads to disease and crime.
To see that all those to whom she is responsible are suitably and comfortably clad, and to study beauty and becomingness in her own dress as well as mere comfort.
To respect the rights of others and train her children and servants to do the same.
To do everything by example, by influence, by encouragement, and by sympathy, to make those who dwell under the roof good and virtuous.
To try to make all who come within her reach happy.
To permit no injustice, wrong or unkindness to be done even to the meanest.
To constitute herself the protector of all who come under her roof, even the dumb animals.
To seek to extend her influence beyond the four walls of her home; to benefit those outside, because the best use a woman can make of her home is to share its comforts with those who have none.

"We may live without poetry, music and art; We may live without conscience and live without heart, We may live without friends, we may live without books, But civilized men cannot live without cooks. He may live without books—what is knowledge but grieving? He may live without hope—what is hope but deceiving? He may live without love—what is passion but pining? But where is the man that can live without dining?"
   —Owen Meredith.

"Though we eat little flesh and drink no wine, Yet let's be merry; we'll have tea and toast; Custard's for supper, and an endless host Of syllabubs and jellies and mince pie, And other such ladylike luxuries."

DEDICATION

To all the housewives and sweethearts throughout the land who are aiming at greater perfection in the art of cooking, this little book is respectfully dedicated.
BREAD

"But tho' so much of learning had been crammed into her head, She couldn't for the life of her compound a loaf of bread."

When a well-bred girl expects to wed, 'Tis well to remember that men like bread, We're going to show the steps to take, So she may learn good bread to make.

First, mix a luke warm quart, my daughter, One-half of milk and one-half of water; To this please add two cakes of yeast, Or the liquid kind if preferred in the least.

Next stir in a teaspoonful of nice clear salt, If this bread isn't good, it won't be our fault, Now add the sugar, tablespoonfuls three, Mix well together, for dissolved they must be.

Pour the whole mixture into an earthen bowl, A pan's just as good, if it hasn't a hole. It's the cook and the flour, not the bowl or the pan, That "makes the bread that makes the man."

Some people like a little shortening power, If this is your choice, just add to the flour Two tablespoonfuls of lard, and jumble it about, 'Till the flour and lard are mixed without doubt.

Next stir the flour into the mixture that's stood Waiting to play its part to make the bread good, Mix it up thoroughly, but not too thick; Some flours make bread that's more like a brick.

Now grease well a bowl and put the dough in, Don't fill the bowl full, that would be a sin; For the dough is all right and it's going to rise, 'Till you will declare that it's twice the old size.
Brush the dough with melted butter, as the recipes say;
Cover with a bread towel, set in a warm place to stay
Two hours or more, to rise until light,
When you see it grow, you'll know it's all right.

As soon as it's light, place again on the board;
Knead it well this time. Here is knowledge to hoard.
Now back in the bowl once more it must go.
And set again to rise for an hour or so.

Form the dough gently into loaves when light,
And place it in bread pans, greased just right.
Shape each loaf you make to half fill the pan,
This bread will be good enough for any young man.

Next let it rise to the level of pans—no more,
Have the temperature right—don't set near a door.
We must be careful about draughts, it isn't made to freeze,
Keep the room good and warm—say seventy-two degrees.

Now put in the oven; it's ready to bake;
Keep uniform fire, great results are at stake.
One hour more of waiting and you'll be repaid,
By bread that is worthy a "well-bred maid."

Cook 3 medium sized potatoes and mash fine. Put 2 tablespoons of flour in a crock, and 2 tablespoons granulated sugar, 2 tablespoons salt, mix this in a thin paste with cold water, then add 2 quarts boiling water, add mashed potatoes, stir in yeast or starter. Cover and let stand until morning. In the morning add as much warm water (not boiling) as desired. Stir in flour to make a thick batter, let rise two or three hours, mix stiff, grease your pan, let rise ten or fifteen minutes, mix down, don't mix too much, let rise and mould into loaves, let rise and then bake in a moderate oven. Grease loaves over top when moulding out.

Wash and quarter three or four good sized squirrels; put them on, with a small teaspoon of salt, directly after breakfast, in a gallon of cold water. Cover the pot close and set it on the back part of the stove to simmer gently, not boil. Add vegetables just the same as you do in case of other meat soups in the summer season, but especially good will you find corn, red potatoes, tomatoes and Lima beans. Strain the soup through a coarse cullendar, when the meat has boiled to shreds so as to get rid of the squirrel's troublesome little bones. Then return to the pot, and after boiling a while longer, thicken with a piece of butter rubbed in flour. Celery salt and parsley leaves chopped up are also considered an improve-
ment by many. Toast two slices of bread, cut them into slices one-half inch square, fry them in butter, put them into the bottom of your tureen, and then pour the soup boiling hot upon them. Very good.

**OX-TAIL SOUP.**

Two ox-tails, two slices of ham, one ounce of butter, two carrots, two turnips, three onions, one leek, one head of celery or celery salt, one bunch of savory herbs, pepper, a tablespoon of salt, 2 tablespoons of catsup, three quarts of water. Cut up the tails, separating them at the joints; wash them, and put them in a stewpan with the butter. Cut the vegetables in slices and add them with the herbs. Put in one-half pint of water, and stir it over a quick fire till the juices are drawn. Fill up the stewpan with water, and when boiling add the salt. Skim well, and simmer very gently for four hours, or until the tails are tender. Take them out, skim and strain the soup, thicken with flour, and flavor with the catsup and port wine. Put back the tails, simmer for five minutes and serve.

**CREAM OF CHICKEN SOUP.**

An old chicken is much the best. Cut it up into quarters, put it into soup kettle with a half pound of corned ham and an onion; add 4 quarts of cold water. Bring slowly to a gentle boil and keep this up until the liquid has diminished one-third and the meat drops from the bones; then add half a cup of rice. Season with salt, pepper and a bunch of chopped parsley. Cook slowly until the rice is tender, then the meat should be taken out. Now stir in two cups of rich milk thickened with a little flour. The chicken could be fried in a spoonful of butter and a gravy made, reserving some of the white part of the meat, chopping it and adding it to the soup.
Two pounds round steak, one large teacup of chopped onions, one can tomatoes, two chili peppers. When the meat is cooked tender, grind and add to liquor about two pints, add onions and strained tomatoes. Scald peppers until the skin can be removed; also remove seeds, then chop fine. Just before putting in oven pour one quart hot milk over. Bake three-quarters of an hour. Cold boiled potatoes may be used the same way, it will take less time to cook them; they are delicious either way.

BOSTON BAKED BEANS.

Soak small white beans over night in fresh water, in the morning put them in a kettle with a second water sufficient to cover and parboil until the skins present a shriveled appearance. Pour off the water, add salt to the beans, place in the middle of the beans, a piece of bacon. Mix in a cup a tablespoon of molasses or brown sugar, half a teaspoon soda and half a teaspoon dry mustard, and add this to the beans. The above quantities are for a quart of beans. Cover with warm water and bake five hours. Keep watch that the water does not dry out until the beans are thoroughly cooked.

Slice about half an inch thick; pare and parboil in salt water, then dip in beaten egg and flour and fry in half butter and half lard.

MUSHROOMS.

Split and soak in weak salt water a few hours, drain well, flour and fry in butter to a nice brown.
MUSHROOMS.

LIMA AND KIDNEY BEANS.
These beans should be put in boiling water, a little more than enough to cover them, and boil until tender—from half an hour to two hours—serve with butter and salt upon them.
These beans are in season from the last of July to the last of September. There are several other varieties of beans, used as summer vegetables, which are cooked as above.

**BAKED SWEET POTATOES.**

Wash and scrape them, split them lengthwise. Steam or boil them until nearly done. Drain and put them in a baking dish, placing over them lumps of butter, pepper and salt; sprinkle thickly with sugar and bake in oven.

**FRIED SALSIFY.**

Stew the salsify as usual till very tender; then with the back of a spoon or a potato jammer mash it very fine. Beat up an egg, add a teacup of milk, a little flour, butter and seasoning of pepper and salt. Make into little cakes, and fry to a light brown in boiling lard, first rolling in beaten eggs and then flour.

**CABBAGE WITH CREAM.**

Remove the outer leaves from a solid, small-sized head of cabbage, and cut the remainder as fine as for slaw. Have on the fire a spider or deep skillet, and when it is hot put in the cabbage, pouring over it right away a pint of boiling water. Cover closely, and allow it to cook rapidly for ten minutes. Drain off the water and add half a pint of new milk, or part milk and cream; when it boils, stir in a large teaspoon of either wheat or rice flour, moistened with milk; add salt and pepper, and as soon as it comes to a boil serve. Those who find slaw and other dishes prepared from cabbage indigestible, will not complain of this.

**FRIED POTATOES WITH EGG.**

Slice cold boiled potatoes and fry in good butter until brown; beat up one or two eggs, and stir into them just as you dish them for the table; do not leave them for a moment on the fire after the eggs are in, for if they harden they will not be half so nice; one
VEGETABLES.

egg is enough for three or four persons, unless they are very fond of potatoes; if they are, have plenty and put in two.

STEWED PUMPKIN.

Stew pumpkin, cut into small pieces, in a $\frac{1}{2}$ pint water; and, when soft, mash with potato masher very fine, let the water dry away, watching closely to prevent burning or scorching.

POTATO FILLETS.

Pare and slice the potatoes thin; cut them if you like, in small fillets, about a quarter of an inch square, and as long as the potato will admit; keep them in cold water until wanted, then drop them into boiling lard; when nearly done, take them out with a skimmer and drain them, boil up the lard again, drop the potatoes back and fry till done; this operation causes the fillets to swell up and puff.

SWEET POTATOES.

Boiled, steamed and baked the same as Irish potatoes; generally cooked with their jackets on. Cold sweet potatoes may be cut in slices across or lengthwise and fried as common potatoes; or may be cut in halves and served cold.

STRING BEANS.

Break off the end that grew on the vine, drawing off at the same time the string upon the edge; repeat the same process from the other end; cut them with a sharp knife into pieces half an inch long and boil them in just enough water to cover them. They usually require one hour’s boiling, but this depends upon their age and freshness. After they have boiled until tender and the water boiled nearly out, add pepper and salt, a tablespoon butter, and half cream; if you have not the cream, add more butter. Many prefer to drain them before adding the seasoning, in that case they may lose the real goodness of the vegetable.
TO BOIL RICE.

Pick over the rice carefully, wash it in warm water, rubbing it between the hands, rinsing it in several waters, then let it remain in cold water until ready to be cooked. Have a sauce pan of water lightly salted; when it is boiling hard pour off the cold water from the rice and sprinkle it in the boiling water by degrees, so as to keep the particles separated. Boil it steadily for twenty minutes, then take it off the fire and drain off all the water. Place the sauce pan with the lid partly off, on the back of the stove where it is only moderately warm, to allow the rice to dry. The moisture will pass off and each grain of rice will be separated, so that if shaken the grains will fall apart. This is the true way of serving rice as a vegetable, and is the mode of cooking it in the southern states where it is raised.

VEGETABLE HASH.

Chop rather coarsely the remains of vegetables left over from a boiled dinner, such as cabbage, parsnips, potatoes, etc., sprinkle over them a little pepper; place a sauce pan or frying pan over the fire, put in a piece of butter the size of a hickory nut, when it begins to melt, tip the dish so as to keep in the steam. When heated thoroughly take off the cover and stir occasionally until well cooked. Serve hot. Persons fond of vegetables will relish this dish very much.

SPINACH.

It should be cooked so as to retain its bright, green color, and not be sent to the table, as it so often is, of a dull-brown or olive color; to retain its fresh appearance, do not cover the vessel while it is cooking. Spinach requires close examination and picking, as insects are frequently found on the leaves.

STEWED TOMATOES.

Pour boiling water over a dozen sound, ripe tomatoes; let them remain for a few moments; then peel off the skins, slice them and put them over the fire
in a well-lined tin or granite ware sauce pan. Stew them about twenty minutes; then add 1 tablespoon butter; salt and pepper to taste; let them stew fifteen minutes longer and serve hot. Some prefer to thicken tomatoes with a little grated bread, adding a teaspoon sugar, and others who like the flavor of onion, chop up one and add while stewing; then again some add as much green corn as there are tomatoes.

**BAKED WINTER SQUASH.**

Cut open the squash, take out the seeds, and without parting cut it up into large pieces; put the pieces on tins and dripping pan, place in moderately hot oven and bake about an hour. When done, peel and mash like mashed potatoes, or serve the pieces hot on dishes, to be eaten warm with butter like sweet potatoes. It retains its sweetness much better when baked this way than when boiled.

**SCALLOPED POTATOES.**

Peel and slice raw potatoes thin, put a layer in a baking dish, season with salt, pepper and butter, add another layer of potatoes, and so on until the dish is full; put over the top a little cream or milk, a few bread crumbs and small pieces of butter; bake one hour and serve hot.

**BEET GREENS.**

Wash young beets clean, do not separate roots from leaves, look over carefully to see that no bugs or worms remain. Boil in salted water from half to three-quarters of an hour. Take out and drain in a cullender. Dish and dress with butter, pepper and salt, if needed. Serve hot with vinegar.

**FRENCH FRIED POTATOES.**

Cut raw potatoes into long cubes and fry in deep, hot fat until done. Serve with broiled beefsteak.
VEGETABLES.

SCALLOPED ONIONS.
Boil 8 onions in salted water, changing water twice. Drain and cut in halves, if large. Place in baking dish, season with salt and pepper, and pour a white sauce over them. Cover with bread crumbs, put bits of butter on top, set in oven to brown.

BOILED CARROTS.
Wash thoroughly, scraping the skin all off, put into boiling water in which there should be a little salt. Boil until tender; drain, cut lengthwise; put into a hot dish and sprinkle with pepper and bits of butter.

TO FRY STEAK.

Have a nice tenderloin or porterhouse steak one inch and a half in thickness, well hacked. Over this sprinkle, salt, pepper and a little flour. Have ready a very hot spider. Into this drop plenty of good, sweet butter (1/4 pound is not too much). When thoroughly melted, lay in the meat; turn frequently. While cooking make many openings in the steak to allow butter to pass through. When done, place on a hot platter and serve immediately.

MEAT CAKES.

Two cups of chopped cooked meats, 3 tablespoons cracker crumbs, 1 tablespoon butter, 1 small onion, 2 eggs, salt and pepper to taste. Chop onion very fine. Beat eggs very light without separating. Melt the butter, add to the cracker crumbs, mix with the eggs, meat and seasoning. Make into flat cakes and fry in half butter and half lard or drippings.
VEAL CROQUETTES.

Boil meat until tender, chop fine. To 1 bowl of meat add equal quantity of mashed potatoes, a little butter, 1 egg, salt and pepper. Make into balls and roll in flour. Fry in hot lard.

MEAT BALLS.

Chop cold meat with a meat chopper, 1 quart meat, 3 eggs, well beaten, ½ pint cold mashed potatoes, pepper, salt and gravy from meat, or half cup water, flour enough to form into balls as for sausage. Fry in a little grease.

CHICKEN PIE.

Stew chicken until it drops from bone, take out bones, make a sauce with butter, flour and milk, as much as desired. Salt 1 quart flour rubbed with ½ cup lard, a little salt and 2 teaspoons baking powder, wet with milk until you can roll. Place layer of crust in bottom, then chicken and gravy. Cover with crust half inch thick.

SMOTHERED BEEFSTEAK.

Take 1 large thin steak, lay out smoothly and wipe dry; prepare a dressing with 1 cup of fine bread crumbs, ½ teaspoon salt, some pepper, tablespoon butter, ½ teaspoon sage, or use chopped onions and enough meat, roll up and tie carefully with stout string, put a few thin slices of pork in bottom of a kettle and fry till brown; put the roll of steak and also brown it on all sides, then add 1 pint of hot water and cook until tender, then thicken the gravy. The roll is to be carved crosswise.

SWEET BREADS.

Parboil them in salt water; remove the skins and tough parts; cut in pieces the size of a large oyster; dip in beaten eggs; roll in cracker crumbs seasoned with salt and pepper; fry in hot butter or drop in hot lard as you would doughnuts.
"TOAD-IN-THE-HOLE."
Mix 1 pint flour and 1 egg with milk enough to make batter (like that for batter cakes) and a little salt; grease dish well with butter, put in lamb chops, add a little water with pepper and salt; pour batter over it and bake for one hour.

FROGS FRIED.
Frogs are usually fried, and are considered a great delicacy. Only the hind legs and quarters are used. Clean them well, season and fry in egg batter, or dipped in beaten egg and fine cracker crumbs, the same as oysters.

TONGUE WITH TOMATO SAUCE.
Boil a tongue until tender, remove the skin and return to the kettle and add ½ cup stock and 1 can tomatoes. Cook slowly until the tomatoes are done, add flour to thicken as for gravy, and 2 tablespoons onion juice. Remove the tongue to platter and pour over the sauce and garnish with parsley.

TO FRY FRESH HAM.
Soak sliced ham in molasses water for an hour before cooking. Delicious.

TO COOK TONGUE.
Wash the tongue carefully and let lie in cold water for several hours before cooking. Boil until tender, season with salt and pepper, remove the skin and lay in vinegar over night. A sliced onion added to the vinegar is a great improvement.

PRESSED BEEF.
Select four or five pounds of beef, boil until very tender, seasoning while it is boiling. Shred while warm and press firmly together. When cold slice and serve cold, or fry in butter.
CREAMED CHICKEN.

Boil a good-sized chicken until meat falls from bones, put in dish, alternate layers of chicken, cracker crumbs, salt, pepper and butter until dish is full, put in some gravy and as much cream and bake.

BEEF LOAF.

Four pounds ground beef, add to it 3 dozen small crackers, rolled fine, 4 eggs, 1 cup sweet milk, 2 tablespoons salt, 1 teaspoon pepper, 1 tablespoon melted butter. Mix well; pack well. Pour boiling water over and bake two hours.

ROAST TURKEY WITH OYSTER DRESSING.

Clean a turkey and lay it in dripping pan. Prepare a dressing of stale bread composed of 1 quart bread crumbs and 1 cup butter, water enough to moisten; add 2 dozen oysters, salt and pepper to suit the taste. Mix all and stuff the turkey with it. Sew up carefully. Put some water in the dripping pan; salt and a chunk of butter, set in the oven and bake until done, basting often. Never parboil a young turkey.

POT ROAST OF BEEF.

Put into kettle some fresh suet; when hot put in the beef and sear over, as this keeps the juice in; season with salt, pepper and sift a little flour over; cover with boiling water and boil slowly, letting the water boil down so the last half hour the meat will fry. Make a fine brown gravy and the roast is excellent.

TO ROAST BEEF.

Sprinkle flour, salt and pepper on the beef, place in pan, pour in a little water, slice an onion, add 1 tablespoon vinegar. Cover tight in roaster or baste often. A little vinegar makes tough beef tender and juicy.
MEATS.

CHICKEN LOAF.

One chicken, cook until tender, remove bones and chop fine, add 1 cup rolled crackers, 1 pint sweet milk, 1 egg, 1 teaspoon salt, pepper to taste. Mix all together, form into loaf and bake half an hour, baste with broth of chicken.

VEAL LOAF.

Two and a half pounds fresh veal and ¼ pound pickled pork, chopped very fine, ½ teacup rolled crackers, 2 whole eggs, well beaten, salt, pepper and a little sage. Mix all together thoroughly and form into a loaf. Bake 1 hour.

BRAIN CUTLETS.

Well wash the brains and soak them in cold water till white. Parboil them till tender in a small saucepan for about a quarter of an hour; then thoroughly drain them, and place them on a board. Divide them into small pieces with a knife. Dip each piece into flour, and then roll them in egg and bread crumbs, and fry them in butter or well-clarified drippings. Serve very hot with gravy. Another way of doing brains is to prepare them as above, and then stew them gently in rich stock, like stewed sweetbreads. They are also nice plainly boiled, and served with parsley and butter sauce.

ROAST PIGEONS.

Pigeons lose their flavor by being kept more than one day after being killed. They may be prepared and roasted or broiled the same as chicken; they will require from twenty to thirty minutes cooking. Make a gravy of the giblets or not; season with pepper and salt, and add a little flour and butter.

SQUAB POT-PIE.

Cut into dice 8 ounces of salt pork; divide wild squabs into pieces, at the joints; remove the skin. Cut up 4 potatoes into small squares, and prepare a dozen
small dough balls. Put into a yellow, deep baking dish the pork, potatoes and squabs, and then the balls of dough; season with salt, white pepper, a dash of mace or nutmeg, add hot water enough to cover ingredients, cover with a "short" pie-crust and bake in a moderate oven ¾ of an hour.

DRIED BEEF WITH CREAM.

Shave your beef very fine. Put it into a suitable dish on the back of the stove, cover with cold water and give it time to soak out to its original size before being dried. When it is quite soft and the water has become hot (it must not boil), take it off, turn off the water, pour on a cup of cream; if you do not have it use milk and butter, a pinch of pepper, let it come to a boil, thicken with a tablespoon of flour, wet up in a little milk. Serve on dipped toast or not, just as one fancies. A nice breakfast dish.

HEAD CHEESE.

Boil the forehead, ears and feet and nice scraps trimmed from the hams of a fresh pig, until the meat will almost drop from the bones, put it in a large chopping bowl, and season with pepper, salt, sage and summer savory. Chop it rather coarsely; put it back into the same kettle it was boiled in, with just enough of the liquor in which it was boiled to prevent burning; warm it through thoroughly, mixing it well together. Now pour it into a strong muslin bag, press the bag between two flat surfaces, with a heavy weight on top; when cold and solid it can be cut in slices. Good cold or warmed up in vinegar.

FLANK STEAK.

This is cut from the boneless part of the flank and is secreted between an outside and an inside layer of creamy fat. There are two ways of broiling it. One is to slice it diagonally across the grain; the other is to broil it whole. In either case brush but-
ter over it and proceed as broiling other steaks. It is considered by butchers as the finest steak which they frequently reserve for themselves.

**STUFFED HEART.**

Take a beef’s, sheep’s or veal’s heart, wash deeply and thoroughly so as to remove all blood, make the two into one by cutting through the partition with a long sharp knife, being careful not to cut through to the outside; make a stuffing of bread crumbs as for roast turkey, fill the cavity, cover with greased paper or cloth to secure the stuffing, and bake in a deep pan with plenty of water, for two hours or longer, basting and turning often, as the upper part particularly is apt to get dry. While heart is roasting, put valves or “deaf ears” which must be cut off after washing, into a sauce-pan, with pint of cold water and a sliced onion. Let simmer slowly one hour; melt in same sauce-pan a tablespoon of butter, add a tablespoon flour then the strained liquor from valves, and serve as gravy.

**VEAL WITH OYSTERS.**

Fry 2 pounds tender veal cut in thin bits, and dredged with flour, in sufficient hot lard to prevent sticking; when nearly done add 1½ pints of fine oysters, thicken with flour, season with salt and pepper. Cook until done. Serve hot in covered dish.

**VEAL CUTLETS.**

Skin 6 veal cutlets, lay in skillet, cover tight, and let them steam slowly in their own juice until cooked through. Drain them on a plate, dip in egg and cracker crumbs, and fry a golden brown. Season well. The juice that steamed out add to the gravy.
PIG'S FEET PICKLED.

Take twelve pig feet, scrape and wash them clean, put them in a sauce-pan with enough hot (not boiling) water to cover. When partly done, salt them. It requires four or five hours to boil them soft. Pack them in a stone crock, and over them spiced vinegar made hot. They will be ready for use in a day or two. If you wish them for breakfast, split them, make a batter of two eggs, a cup of milk, salt, a teaspoon butter, with flour enough to make a thick batter; dip each piece in this and fry in hot lard. Or dip them in beaten egg and flour and fry. Sauce is good eaten cold or warm.

DELICIOUS FRIED HAM.

Place slices in boiling water and cook until tender, put in frying pan and brown, and dish on a platter; fry some eggs by dripping gravy over them until done; instead of turning take up carefully and lay them on the slices of ham.

ROAST HARE OR RABBIT.

A very close relationship exists between the hare and rabbit, the chief difference being in smaller size and shorter legs and ears of the latter. The manner of dressing and preparing each for the table, is, therefore, pretty nearly the same. To prepare them for roasting, first skin, wash well in cold water and rinse thoroughly in luke warm water. If a little musty from being emptied before they were hung up, afterwards neglected, rub the insides with vinegar and afterward remove all taint of the acid by a thorough washing in lukewarm water. After being well wiped with a soft cloth put in a dressing as usual, sew the animal up, truss it, and roast for half or three-quarters of an hour, until well-browned, basting it constantly with butter and dredging with flour, just before basting up.
FRIED LIVER.
Always use calf's liver (if possible), cut in slices. Pour boiling water over it and let it stand fifteen minutes; fry some slices of breakfast bacon, take out the bacon, roll the liver in either flour or corn meal, and fry a delicate brown; sprinkle with salt and pepper. Serve with gravy if you like.

JELLIED MEAT.
One pound meat, 1 pint stock, 3 ounces gelatine, 1 teaspoon salt, $\frac{1}{4}$ teaspoon pepper, 1 teaspoon lemon juice, 2 hard-boiled eggs, 1 tablespoon chopped parsley. Soften the gelatine in cold water; add the hot stock and seasoning, then the finely-chopped cooked meat. Wet a mould with cold water, place in it the eggs, cut in slices, and the chopped parsley, then the meat mixture, and allow it to stand until firm and cold. Garnish with parsley or lettuce.
FISH AND OYSTERS

"Now good digestion wait on appetite
And health on both."
—Macbeth

SALMON LOAF.

Mix a can of salmon and a half a cup of cracker crumbs with a tablespoon of butter and 3 well-beaten eggs, season to taste with salt and a little lemon juice. Pack closely in a pan and put in the oven long enough to cook the eggs. Serve hot with a rich sauce of drawn butter.

COD FISH BALLS.

To one package of threads of codfish add double the quantity of potatoes. Soak the codfish in cold water about two minutes, then drain through a sieve or cloth. Mix the potatoes thoroughly, add one tablespoon butter and a little pepper. Shape into balls and fry in lard. An egg added to the above recipe improves it.

BAKED BASS.

Two good sized onions chopped fine, 1 pint bread crumbs, butter size of hen's egg; plenty of pepper and salt, mix thoroughly with anchovy sauce until quite red.

Stuff your fish with this compound and pour the rest over it. Tomatoes can be used instead of chovies, and are more economical. If using them take pork, chopped fine instead of butter. Shad, pickerel and trout are good the same way.
CREAMED CODFISH.

To a cup of fish add double the quantity of milk one tablespoon butter, let it come to a boil, then add one teaspoon corn starch and one egg beaten well.

BAKED WHITE FISH.

Thoroughly clean the fish, cut off the head or not as preferred; cut the backbone from the head to within two inches of the tail and stuff with the following: Soak stale bread in water, squeeze dry, cut in pieces a large onion, fry in butter, chop fine, add the bread, two ounces of butter, salt, pepper and a little parsley or sage; heat through and when taken off the fire add the yolks of two well-beaten eggs. Stuff the fish rather full, sew up with fine twine and wrap with several coils of white tape; rub the fish over slightly with butter; cover the bottom of a baking pan with hot water and place the fish in, standing back upward and bent in the form of "S." Serve with the following dressing: Reduce the yolks of two hard-boiled eggs to a smooth paste with two tablespoons good salad oil; stir in a half teaspoon mustard. Add pepper and vinegar to taste.

SALMON LOAF.

Take one can salmon, add to it 3 beaten eggs, a lump butter, some crackers. Make into a loaf and steam an hour. Cook peas with cream and pour over loaf to serve.

BOILED BASS.

Take a large bass and wrap in clean white cloth. Put on the fire in cold water, enough to cover well, boil half hour; take from fire and remove all bones; place in pan; pour over fish browned butter (good), with salt and pepper. Place in oven to brown.
TO FRY EELS.

Skin them, wash well, season with pepper and salt, roll each piece in fine Indian meal, fry boiling in lard, or egg them, and roll in cracker crumbs and fry. For sauce, use melted butter sharpened with lemon juice.

SALMON PUFFS.

Remove skin and bones from 1 pound can salmon and chop meat fine. Add 1 tablespoon melted butter, 3/4 cup fine bread crumbs, 1 tablespoon lemon juice, 3 well beaten eggs, dash of salt and pepper, mix thoroughly in and pack in 6 or 8 cups, put in jar of hot water and bake 1/2 hour in oven.

DRESSING FOR SAME. Pour slowly over the nice beaten yolks of 2 eggs, 1 cup hot sweet cream and let cool, add salt, pepper and a little lemon juice.

PICKLED OYSTERS.

Put 100 large oysters in their liquor over the fire, salt and just let them come to a boil; then draw to back of the stove; skim off the top, take out the oysters with a skimmer and set them aside in an earthen dish to cool; to the liquor in the kettle add a pint of vinegar, a red pepper broken into pieces, rejecting the seed; whole cinnamon, cloves and pepper to the liking, boil and pour hot over the cold oysters; cover and set in a cool place. If they are to be kept longer than two or three days put them in cans and keep cool.

ESCALLOPED OYSTERS.

Butter a baking dish, sprinkle a layer of finely rolled cracker crumbs, then arrange a layer of oysters over the crumbs, moisten this well with liquor from oysters. This will suffice to moisten the crackers unless the latter is used too liberally; season with pepper, salt, a generous allowance of butter, cut into
bits. Put on another layer of crackers, then more oysters and seasoning, alternating layers until dish is full. Make the top layer of crumbs, add a little milk or cream. Moisten well and bake in rather quick oven. A slow oven and too long cooking will ruin them. Use green corn instead of oysters for a change.

OYSTER OMELET.

Twelve large oysters, 6 eggs, 1 cup milk, 1 teaspoon butter, salt and pepper and parsley if agreeable. Heat 3 tablespoons butter, pour the milk, yolk of 2 eggs, oysters and seasoning in a dish and mix; add the whites of eggs and 1 spoon of melted butter, with as little stirring as possible, then cook to an appetizing brown, turning the omelet carefully.

OYSTER PIE.

Four whites of eggs beaten light, 2 cups sweet milk, 1 quart bread crumbs or crackers grated, 1 quart oysters, 1 tablespoon melted butter, salt and pepper to taste. Make into paste and bake until light brown, put in earthen or granite dish. Low Sparks.

OYSTER ROAST.

Put 1 quart oysters in a basin with their own liquor and let them boil three or four minutes; season with a little salt, pepper and a heaping spoon of butter. Serve on buttered toast.

CREAMED OYSTERS.

One pint oysters, \( \frac{1}{8} \) teaspoonful celery salt, \( 1 \frac{1}{2} \) cups thick white sauce. Clean and cook oysters until plump and edges begin to curl; drain, and add to white sauce, seasoned with celery salt. Serve on toast, or in patty shells.
FRIED OYSTERS.

Place oysters in cullender to drain for a few minutes; with a fork remove them separately to a dry towel; place another towel over them, allowing them to remain until all moisture is absorbed. Have ready the beaten yolks of three eggs and a quantity of rolled crackers, salted and peppered. Dip each oyster separately, first into egg, then into crackers. When all have been thus dipped, have ready a hot spider, into which drop four heaping tablespoons of butter. When butter is melted place in the oysters, one by one; fry a light brown then turn. Serve very hot.

SCALLOPED SALMON.

Take one can of salmon picked up finely, butter a pudding dish and put a layer of cracker crumbs on the bottom; then a layer of salmon with bits of butter, salt, pepper, a trifle of tomato, fresh or canned, and a little milk. Proceed in this manner until the dish is full, having the buttered crumbs on the top. Add milk to make quite moist, and bake one-half hour in a quick oven. This makes a simple and tasty dish for supper.
EGGS

PICKLED EGGS.

One pint strong vinegar, \( \frac{1}{2} \) pint cold water, teaspoon each, of cinnamon, allspice and mace. Boil the eggs till very hard, remove the shell, put spices tied in a muslin bag, in cold water, boil a few minutes, add the vinegar and pour over eggs. These pickles will keep until spring without washing off.
PRESERVES AND JELLIES

"Never attempt to make jelly in damp or cloudy weather if firmness or clearness is desired."

GENERAL RULES FOR MAKING JELLY.

Always make in porcelain kettle. Use refined or granulated sugar. Do not have fruit, especially grapes or currants, over-ripe. Make not over two or three prints of jelly at a time. As a general rule allow equal measure of juice and sugar. Boil juice rapidly ten minutes, skim and add sugar, boil ten minutes longer. To test jelly, drop a little in a glass of very cold water and if it immediately falls to the bottom, it is done.

TRANSCENDENT CRAB APPLE JELLY.

Transcendent or any variety of crab apples, may be prepared as cultivated wild plums, adding flavoring of almond, lemon, peach, pineapple or vanilla to the jelly in proportion to one teaspoon to two pints of juice before it is done.

GRAPE JELLY.

Put on the stoves grapes just beginning to turn, boil, place in a jelly bag and let drain. To 1 pint of juice add 1 pint sugar and boil twenty minutes.

RASPBERRY JELLY.

Stir into 1 quart of red raspberries a cup of granulated sugar. At the end of one hour run the berries through a vegetable press and strain the juice. Have
ready 1/2 box a gelatine soaked in a cup of cold water for 2 hours. Pour over this 1 pint boiling water; strain and stir in the berry juice; wet in a jelly mould, line with ripe berries and pour the liquid, when cold, into it; set aside to form. Eat with cream.

QUINCE HONEY.

Pare and grate 5 nice quinces, 5 pounds sugar to 1 pint boiling water. Stir over fire until dissolved, add the grated quinces. Cook fifteen minutes; pour into glasses. Cover when cold.

HOW TO PRESERVE A HUSBAND.

Be careful in your selection; do not choose too young, and take only such as have been reared in a good moral atmosphere. Some insist on keeping them in a pickle, while others keep them in hot water. This only makes them sour, hard and sometimes bitter. Even poor varieties may be made sweet, tender and good by garnishing them with patience, well sweetened with smiles and flavored with kisses to taste; then wrap them in a mantel of charity, keep warm with a steady fire of domestic devotion and serve with peaches and cream. When thus prepared they will keep for years.

STRAWBERRY SUN PRESERVES.

One pint fruit, 1 pint sugar. Boil ten minutes, spread on plates and set in sun one day.

ORANGE JAM.

Take sweet oranges, peel and put the pulp through a sieve. Add a pound of white sugar to each pound of pulp and juice. Boil twenty minutes and seal.
LEMON JELLY.

Stir together 2 large cups sugar, the juice of 6 lemons and the grated peel of 2 lemons, 1 package of gelatine, well soaked in warm water, cover for 1 hour, pour 3 pints boiling water over this, stir until gelatine is thoroughly melted and strain through a cloth.

CUCURANT JAM.

Weigh an equal quantity of sifted white sugar and currants, picked carefully from the stems. Boil together ten minutes, stirring gently and skim; add the juice of 1 lemon to 4 pounds of fruit. Seal while hot. This is excellent.

ORANGE MARMALADE.

Twelve large oranges sliced very thin across the orange. Take out the seeds carefully. To each pint of orange, add 3 pints of water. Let stand 24 hours, then boil until soft. Let it get cold, then add 1 pint of sugar for each pint of fruit. Boil until it drops thick. When cold it will jelly.

TOMATO JELLY.

Dissolve ½ box of plymouth rock gelatine in ½ pint cold water and add 1 quart of stewed tomatoes, season with sugar, salt, pepper, celery salt and a little onion. Cook. Strain through a sieve while hot. Pour into cups or individual molds and put into a cold place to harden. Turn each form on a lettuce leaf and serve with mayonnaise dressing.

CHERRY PRESERVES.

Pound for pound of cherries and sugar. Put cherries and sugar on stove and boil eight minutes; skim cherries and spread thin on plates, cover lightly with syrup and let stand in sun; if sun is very hot ½ day
will cook; if not, leave in sun all day. Put remainder of syrup in dishes and set in sun same as fruit; leave all in dishes until morning.

To Can. Put 2 spoons fruit and 1 of syrup until can is filled. Do not heat fruit or cans next morning.

**LEMON JELLY.**

Moisten 2 tablespoons corn starch, stir it into 1 pint boiling water and add juice of 2 lemons and 1-3 cup sugar, grate in little of the lemon rind. Put in moulds to cool.

**PRESERVED PEARS.**

Peel fruit, take almost half and half pears and sugar, let stand over night; in the morning drain syrup off and boil, pour over pears, let stand again one night. Cook now until tender, skim the fruit out and boil syrup until thick. Will last a long time.

**FROST JELLY.**

One-half box gelatine dissolved in ½ pint cold water, ½ pint boiling water, 1½ cups sugar, juice of 2 lemons. When cool and beginning to form, add beaten whites of 2 eggs and beat together until well mixed. Set in a cool place.

**CRANBERRY JELLY.**

Two quarts cranberries, 1½ pints cold water, cover, boil ten minutes, strain, add 1 1-3 pints granulated sugar, stir, let boil one minute. Rinse mould in cold water before pouring in jelly. For 3 quarts berries use 1 quart cold water, 1 quart sugar.

**PRESERVED WATERMELON OR CITRON.**

Peel the melon and boil until soft, try with fork. To 1 pound allow 1½ pounds sugar, simmer slowly
for 2 hours in this syrup, flavor with lemon. Lift the melon and boil syrup until thick and pour it over, add juice of 1 lemon to each quart of syrup.

TOMATO PRESERVES.
Scald tomatoes, a few at a time, remove skins and cores, then cut through the middle from side to side so you can remove the seeds, which is easiest done with the thumb. Have a bucket of cold water to dip the tomatoes in, which will rinse the remaining seeds from it, squeeze it in your hand and it is ready for the preserving kettle. Have your sugar melted and boiled to a syrup, put the tomatoes in and boil until they are transparent. Use equal amount of sugar and tomatoes. These are far superior to those you don’t remove the seeds, for seeds make them bitter and watery.

STRAWBERRY AND RHUBARB JAM.
Take half berries and half rhubarb. Scald rhubarb with boiling water and add sugar.

PINEAPPLE PRESERVES.
Have your pineapples as ripe as can be procured. Pare and cut in thin slices, cut each slice in quarters, be very careful to remove every particle of the skin for if it is not all removed it will cause the preserves to look specky. Weigh the fruit and allow a pound of sugar to a pound of fruit. Put a layer of pineapple and a layer of sugar and so on, until the fruit is all in the dish (use a large earthen dish). Put a layer of sugar on top and let stand over night. In the morning drain off the juice and put it in a preserving kettle. Stir in the white of an egg and skim as it comes to a boil; let it boil for ten minutes, then pour boiling hot over the pineapple and let it stand and grow cold with covering, when thoroughly cold, put in glass jars and seal. Serve cold with sliced bananas.

BREAKFAST AND TEA DISHES.

CROQUETTES OF ODDS AND ENDS.

These are made of any scraps or bits of good food that happens to be left from one or more meals, and in such small quantities that they cannot be warmed up separately. As for example, a couple of spoonfuls frizzled beef and cream, the lean meat of 1 mutton chop, 1 spoon of minced beef, 2 cold hard boiled eggs, little cold chopped potato, a little mashed potato, a chicken's leg, all the gristle and hard outside taken from the meat. These things well chopped and seasoned, mixed with one raw egg, a little flour and butter, and boiling water; then made into round cakes, thick like fish-balls, browned well with butter in a frying pan or on a griddle.

Scraps of hash, cold rice, boiled oatmeal left from breakfast, every kind of fresh meats, bits of salt tongue, bacon, pork or ham, bits of poultry, and crumbs of bread may be used. They should be used together with care, so as not to have them too dry to be palatable, or too moist to cook in shape. Most housekeepers would be surprised at the result, making an addition to the breakfast or lunch table. Serve on small squares of buttered toast, and with cold celery in season.

CREAM PUFFS.

One cup hot water, and ½ cup butter boiled together. While boiling stir in 1 cup sifted flour; remove from the fire and stir to a smooth paste. When cool add 3 unbeaten eggs, stirring 5 minutes. Drop in a greased pan with a small tablespoon and bake in quick oven twenty-five minutes.

Or the same ingredients and proportion may be used except adding 2 tablespoons molasses or sugar, and using 1 quart water instead of 1 pint each of milk and water.

LITTLE PIGS IN BLANKET.

Season large oysters with salt and pepper, cut fat bacon in very thin slices, wrap an oyster in each slice and fasten with a tooth pick. Heat a frying pan and put in the little pigs, cook just long enough to cook the bacon. Place on slices of toast that have been cut into small pieces and serve immediately; do not remove tooth picks. This is a nice relish for lunch or tea, garnished with parsley. The pan must be very hot before the pigs are put in and care must be taken not to burn them.

HOT TAMALES.

Cook 1 quart corn meal mush thoroughly; put in 1/2 cup butter the last thing. Chop fine 3 pounds of chicken or veal, 2 onions, 3 or 4 red peppers. Salt to taste. Add 1 cup chopped raisins and 1 of nuts. Cut corn husks square at the ends and as long as possible; must be boiled to fold well. Spread on a cake of mush, fill with chopped meat, fold up into a little roll, fold both ends over and tie with a bit if husk. Serve hot from steamer with coffee, olives, salted wafers and fruit.

FOR CROUP—Apply a cloth wrung out of cold water to the neck and chest, cover with dry cloth to exclude the air and put a bottle of hot water to the feet.

CURE FOR SPRAINS—Make a poultice of clay and vinegar and bind on.

POULTICE FOR A BOIL—Scrape castile soap into cream and steep them together till right for a salve. The best salve known for a boil at any stage.

TO PRESERVE EGGS—To each pail of water add one quart fresh slacked lime and one pint common salt, mix well; fill a barrel half full of this fluid; put your eggs in it any time after June and they will keep for months.

TO STOP HICCOUGHS—One tablespoonful quince juice.

TAR SMOKE FOR DIPHTHERIA—Pour equal parts turpentine and liquid tar into a pan or cup and set fire to the mixture. A dense resinous smoke arises. The patient breathes it and is relieved.

FOR TOOTHACHE OR PAIN IN THE FACE—Mix salt with yolk of an egg until about consistency of mustard; use same as mustard plaster.
TO KEEP FLIES FROM HORSES—Take two or three handfuls of green walnut leaves, pour over two or three quarts of soft cold water; let stand one night, pour in a kettle and boil fifteen minutes. When cold, wet a sponge and before the horse goes out of the stable, let those parts which are most irritated be washed over with the liquid.

TO REMOVE KEROSENE SPOTS—Kerosene when spilled on a carpet can be readily removed by putting on Indian meal, then brushing out when it has lain a few hours. It may need more than one application if much has been spilled, but it will all come out by repeated applications.

COLD SORES—Cold sores are quickly relieved by applying boracic acid occasionally.

RING WORM—Rub the spot with milk from milkweed, which grows wild. Continue this a few days and the spot will disappear.

CURE FOR TONSILITIS—Cut up lovage root and fry in lard. Apply as poultice.

EAR ACHE—Roast together onions and tobacco and squeeze the juice, drop in the ear.

TO CLEAN FURNITURE—A mixture of equal parts of linseed oil, vinegar and turpentine.

SURE CURE FOR AGUE—Five cents worth frankincense, crushed, one grated nutmeg put in thin muslin bag. To be worn over pit of stomach.

WHEN PEELING ONIONS begin at the root end and peel upwards and the onions will scarcely affect your eyes at all.

RULE FOR STAINS—A good standing rule for stains should be tacked up on the wall of every kitchen. Use hot water and no soap for all fruit stains. Use cold water and soap for tea, coffee and cocoa.
stains. A little thought and knowledge along this line would save an immense lot of trouble and result in better looking table linen.

WHEN MASHING POTATOES use hot milk, and if you have been in the habit of using cold, you will be surprised at the difference in its lightness.

SURE CURE FOR SNAKE BITE—I have seen many people bitten, but have never known a case proving fatal where this remedy was used. Procure the yolk of an egg and mix with enough salt to make a good, thick poultice, put the poultice on the bite and bandage tightly. Watch the solution and when it is full of poison it will change color and should be renewed.

CURE FOR A FELON—A felon may be cured by tying the affected finger in a poultice of pulverized rock salt and turpentine, renewing as the poultice becomes dry. Usually twenty-four hours application of the above will cure the felon.

BURNS—Apply butter immediately. It will prevent blistering and remove the fire and soreness. A remedy always at hand and easily applied.

TO STOP HICCOUGHS—Put a few drops of good, cider vinegar on a lump of sugar. Let dissolve in mouth.

CHICKEN LICE—The best remedy for lice in poultry houses is to add one pound of concentrated lye to a boiler of soap suds, and apply hot on the walls, floors and roofs of the houses. All lice and nits will then be destroyed. If the roosts are suspended by rods from the rafters and not allowed to touch the sides of the house, there will be less trouble with lice.

RHEUMATISM CURE—Five cents worth nitre potassium, twenty cents worth iodide potassium, in one pint water. Take one tablespoonful three times a day before each meal. If followed as directed will cure without fail.
FOR SPRAINS—Apply a poultice made of equal parts of salt and lard. This will give instant relief and reduce the swelling. There is nothing better.

FOR INFLAMATION OF STOMACH AND BOWELS—One quart buckeye bark, boiled in one gallon water. Skim out bark and thicken water with bran. Put in sack for poultice.

TO REMOVE MILDEW AND FRUIT STAINS—Put one ounce chloride of lime in a bowl, pour over it one pint boiling water. Strain through a fine cloth. Add three pints cold water. Gather up the stained places and put into the water and let remain twelve hours. Rinse thoroughly and you will find the stains have disappeared. This is particularly successful in removing peach stains. If the solution is strained and the cloth well rinsed, there will be no harm done the fabric.

BOILS AND FELONS—Take equal parts of honey or molasses and the white of an egg, and enough flour to make a paste. Spread on cloth and apply.

SUGAR CURED MEATS—Four ounces saltpeter, 4 ounces pepper, 5 pounds salt, 200 pounds of meat. Make a thick syrup of brown sugar and rub all over the meat, then apply the dry salt. This will keep the year round.

CURING PORK OR OTHER MEAT—For 100 pounds, 1 quart New Orleans molasses, or 2 pounds brown sugar, 1 tablespoonful pulverized saltpeter, 1½ tablespoonfuls soda, dissolve in a little warm water, when all is dissolved pour in cold water enough to cover your meat, then put in salt till it bears up an egg; pour over your meat, let stand five weeks, then take out and smoke if so desired.

HOME MADE VINEGAR—Vinegar that will prove in every way satisfactory, may be easily and cheaply made at home. For a start get good New Orleans or sorghum molasses, or the darkest grade of
brown sugar. Do not use any sort of table syrup. To one gallon of molasses, or five pounds of sugar, add two gallons of warm, soft water, and stir until well dissolved. Put into a stone jar or small keg, tie a cloth over the top and set in a warm (not hot) place. It will require from six weeks to two months to "make." The sweeter the longer it will take to sour, but the sharper the vinegar will be. Afterward the supply may be kept up by adding the rinsings of the syrup jug; scraps of jam and jelly dissolved and strained; the drainings of the teapot, after meals, sweetened and added warm; soured fruit juice and the like.

**FURNITURE POLISH**—Six ounces linseed oil, 6 ounces turpentine, 6 ounces vinegar.

**FRENCH METHOD OF PRESERVING EGGS**—Anoint eggs with a mixture of dissolved beeswax and olive oil. If left undisturbed in a cool place, they will stay good for two years.
