-- PREFACE --

No cook book, however complete, can, of itself, make a good cook. Success in cooking depends largely upon experience and careful attention to detail. We make no pretention to offering a complete cook book, for the subject of cooking is an inexhaustible one, but we do venture to assert that, in it will be found such a variety of tested recipes, that, with ordinary care, any housewife may be able to prepare a most delicious breakfast, luncheon, dinner or tea.

Among the Romans, it is said, that the inventor of a new sauce was liberally rewarded but if it proved to be unpleasant, he was restricted to the dish until he devised another.

If, in our book you find something new and palatable, we ask you to kindly mention it to a friend. If, however, some recipe proves unsatisfactory, the inventor's name is usually attached and we leave you to administer justice.

Trusting that our cook book may prove helpful to many who are perplexed in planning meals, we modestly submit it to the housekeepers wherever it may go.

We desire to acknowledge the favors shown us by the business men of Salem, South Lyell, Northville, Plymouth, Ann Arbor and distant cities, who have so cheerfully responded to those soliciting advertisements for our cook book and suggest that the ladies of the church and society patronize those who have helped to make this undertaking a success.

When ordering from our advertisers, kindly let them know where you saw their advertisement.

The regular price of the book is 75 cents. When sent by mail add sufficient postage to cover amount of parcel post at one pound rate.

All funds secured by the sale of this book are to be used in our church work.

Address all orders to Salem Cook Book, Salem, Michigan, in care of Second Congregational Church.

"Good friends, who would these pages test,
A whisper in your ear:
These dishes are the very best
Your husbands' hearts to cheer!
Let none escape, but try them all—

As mother used to make!"

Let it lay in a mixture of one cupful vinegar and scant one-half cupful olive oil for twenty-four hours. When about done season with salt and pepper. When tender remove cover, bring to front of stove and brown down. When done place on platter and pour the gravy over it.—MRS. FRED WHEELER.

FRIZZLED BEEF.—Have dried beef shaved into thin slices; put in the frying pan, a little more than cover with cold water, let come to a boil, thicken with Aristos flour smoothed in a little water, season with butter, pepper and salt if needed.—A. S. C.

Remove from kettle, take out cloth, fill with dressing, dust with flour and salt, put in a covered baker and bake until tender (about two hours), skewer a couple of thin slices of salt pork on the heart when placed in oven; serve with a rich brown gravy.—T. T.

JAMES H. MURRAY.

BAKED HAM.—Soak ham an hour in clear water, then wipe dry, next spread it all over with a thin butter, put in a deep dish with sticks under to keep it out of the gravy and bake. When fully done remove the skin, and butter crusted on flesh side and set away to cool. It should bake six to eight hours. After removing skin sprinkle over with two tablespoonsfuls sugar, some black pepper and cracker crumbs; put in oven and brown, then stick cloves in fat and sprinkle with cinnamon.—MRS. G. S. HARTMAN.

BOILED HAM.—Scrub a mild-cured ham and remove all blemishes; cover with cold water; place over the fire and heat to the boiling point, then skin carefully and cook slowly until thoroughly done. Let cool in liquid, remove skin, cut in very thin slices, garnish and serve. If ham is very salt freshen by placing in cold water about one hour before cooking. Never use tepid or hot water as it toughens the meat.—A. G. W.

MEAT PATTIES.—One cupful of finely-chopped roast beef, veal or other left over meat, one-half cupful of fine bread crumbs, one tablespoonful of butter, salt and pepper, moisten with hot water or milk and cook a few minutes. Break one egg carefully on top of each, sprinkle with salt and pepper and put in a quick oven until the whites of the eggs are set; serve at once.—MRS. FRED C. WHEELER.

PORK PIE.—Line a deep dish with paste as for chicken pie, put in a layer of sliced sour apples, season with sugar and spice; add a layer of fresh lean pork cut in small pieces (if pork is very lean season with a little butter, salt and pepper), alternate with layers of pork until dish is nearly full, put in a little water, cover with paste, bake slowly until thoroughly done.—M. C. H.

Bake about one-half hour or until crust is done. Leave an opening on top for steam to escape.—MRS. ROY WATERMAN.

Calf’s liver is much better than that of beef. Few people know that lamb’s liver is as tender and well flavored as calf’s liver; it is much less expensive.—MRS. ROY WATERMAN.

SAUSAGE TURNOVERS.—One quart of flour, a pinch of salt, scant half cupful of shortening, two heaping tablespoonfuls of baking powder, enough sweet milk to form a dough as for biscuit, roll out thin, cut into squares; place in each a pork sausage of the link variety, pinch the edges together over the top as a turnover; put in a shallow tin and bake in a slow oven one hour.—CONTRIBUTED.

ROAST LAMB.—Wipe the meat with a damp towel, place in a baking pan, dredge with pepper, salt and flour, add a cupful boiling water and a teaspoonful salt to the pan, baste every ten minutes, and bake fifteen minutes to the pound in a hot oven. CREAMED CHICKEN.—Steam a plump fowl until tender, then chop light and dark meat together. Make a sauce with four level tablespoonfuls Aristos flour cooked in four tablespoonfuls butter, two cupfuls hot milk, salt and pepper to season with a dash of celery salt to give flavor. Heat chopped chicken thoroughly in sauce and serve in paper cases or on small slices of toast.—MRS. W. W. THAYER.

CREAM CHICKEN.—One large chicken, one can mushrooms, one quart of cream, five tablespoonfuls of flour, a little grated onion, grated nutmeg and pepper to taste. Put cream in double boiler to heat; add the butter and flour; stir into a little cold milk, then add the onion and nutmeg, put the picked up chicken and mushrooms in a baking dish, pour the cream over and bake one-half hour.—CONTRIBUTED.

ROAST FOWL.—Clean, wash, and wipe fowl dry. Rub salt inside. Fill with dressing made as follows: Take some bread crumbs and turn on just enough hot water to soften them, put in a piece of butter (not melted), the size of an egg, and sage to taste, salt and pepper. Chopped onions may be added if desired; mix well together and stuff the fowl; bake until tender; baste often.—G. H. K.

DUMPLINGS.—Two cupfuls Aristos flour, a little salt, two teaspoonfuls baking powder, mix to a stiff dough with sweet milk. Keep covered while cooking. This amount makes enough for two persons. Never drown dumplings.—MRS. CLAYTON DEAKE.

CHICKEN OR VEAL CROQUETTES.—One-half pound cooked chicken chopped very fine and seasoned with one-half teaspoonful of salt, celery salt, a little cayenne pepper and white pepper, a few drops of onion juice, one teaspoonful of chopped parsley; one teaspoonful of lemon juice, mix enough cream sauce (see rule for cream sauce in meat sauces), with the chicken to make it as soft as can be handled, spread on a shallow plate to cool, then shape into rolls about two and one-half inches long, roll in fine bread crumbs, then dip in beaten egg, then in the crumbs again; fry one minute in smoking hot deep fat, drain and serve with horse radish sauce.—MRS. FRED WHEELER.

ROY WATERMAN.

H. L.

DELMONICO POTATOES.—In a baking dish place alternate layers of cold boiled sliced potatoes, one half pound Vermont cheese, three pimentos, cover with white sauce and bake one hour.—MRS. NATHAN BROKAW.

FRENCH FRIED POTATOES.—Wash and pare potatoes, cut them into lengthwise strips, and soak an hour in ice water. Drain and dry, then fry in hot fat. When taken from the kettle, shake them on a sheet of brown paper to absorb the fat, and dust with salt. Be careful not to cook too many potatoes at a time, as the fat is apt to become chilled and the potatoes grease-soaked.—MRS. RUTH MUNN NOEL.

SARATOGA CHIPS.—Pare potatoes, slice into thin shavings on a vegetable cutter, and allow to soak in ice water for an hour. Lift from the water, dry in a towel, fry in deep fat or oil until they curl and are delicately brown. Shake as free from fat as possible before lifting frying basket from the kettle, and put to drain on absorbent paper. Dust with salt. Be careful that the fat is not too hot, as the potatoes must cook before they brown, also allow the fat to reheat each time before frying another portion of potatoes.—MRS. RUTH MUNN NOEL.

**FRIED MUSHROOMS.**—Peel mushrooms and put them in a buttered sauce pan, setting them cup side up. Sprinkle them with salt and pepper and dots of butter and fry until tender. —CONTRIBUTED.

**BEETS.**—Cut off tops, but do not cut the beets in any part, not even the rootlets, should any be attached, for it would cause them to bleed, thus injuring the color and flavor. Wash well in several waters, then put over to cook in plenty of boiling water. Boil steadily until done (young beets require about an hour and a half.) When nearly done add sufficient salt to season. When done, remove to a pan of cold water, and with the hands remove the skins, cutting a slice from the top and the rootlets off. Cut crosswise in very thin slices and place in a hot dish; set in oven a few minutes, then pour over them a few tablespoonsfuls of vinegar and a piece of butter heated together. Sprinkle with pepper and serve. —I. G. S.

**PORK AND BEANS.**—Look over, wash and put to soak over night one quart of dry beans. In the morning drain, cover with fresh water, heat slowly and simmer until they burst slightly on removing a few of them in a spoon and blowing on them, those tested to be thrown away; one-fourth teaspoonful of soda should be put in the water when beans are parboiled. Drain; add enough boiling salted water to more than cover the beans; put one-half pound of fat salt pork which has been washed into kettle with beans and cook until thoroughly done, adding water from time to time if necessary. Remove to baking dish; put pork in center of dish with skin side up, score rind one inch deep in one-half inch strips; sprinkle brown sugar and pepper over top and bake about three-fourths of an hour. —MISS Z. B.

**CREAMED ONIONS.**—Peel the onions and proceed the same as with creamed carrots. —V. W.

**WHITE SAUCE FOR VEGETABLES.**—Two tablespoonfuls butter, two tablespoonfuls Aristos flour, one cup milk, one-fourth teaspoonful salt, one-eighth teaspoonful pepper. Melt butter in sauce pan, add flour and season. Blend thoroughly. When it bubbles well add the milk a little at a time, stir until smooth and cook until thick. —MISS Z. B.

**CREAMED MUSHROOMS.**—Treat the same as fried mushrooms only, instead of frying, add two-thirds of a cupful of cream and bake ten minutes; serve with slices of toast. —CONTRIBUTED.

**STEWED MUSHROOMS.**—Peel mushrooms and cut off a portion of the stalk. To one pint of mushrooms, put two tablespoonsfuls of butter in a pan, season with salt and pepper and let them cook slightly, then turn in a very little hot soup stock on boiling water and milk, half and half and let them stew gently about fifteen minutes. Rub together a little flour and butter to make the liquor about as thick as cream. Let boil five minutes. When ready to serve, stir in two tablespoonfuls of cream or the beaten yolk of an egg. Mushrooms can be cooked in almost any way that oysters are served.

If a silver spoon used to stir mushrooms turns black, throw them away, they are probably toadstools. —CONTRIBUTED.

**CHILI CON CARNE.**—(Mexican Recipe.)—Chop either roast beef or raw beef into small squares and add two onions, cover with water and cook until tender, then add one pint of tomatoes and boil five minutes. Blend one level tablespoonful of ground chili pepper and one tablespoonful of flour in a little water, pour this into the meat and let it boil about five minutes. Add butter and salt to taste. Some cooks treat canned red kidney beans or lima beans in the same manner, leaving out the tomatoes. —CONTRIBUTED.

WHITE BREAD.—Blend two tablespoonfuls sugar; two tablespoonfuls salt; two tablespoonfuls Aristos flour, add three medium sized potatoes mashed fine, over this mixture pour one quart of boiling potato water; when cool add one-half yeast cake dissolved in a little warm water and set in a warm place to rise. When yeast is light add enough sifted Aristos flour to make a thin batter, let rise, then knead into loaf not too stiff, put back to rise again, then shape into loaves, let rise and bake. Add one-half cupful of lard to the sponge. —CONTRIBUTED.

SALT RISING BREAD.—The forenoon before baking, put two tablespoonfuls of corn meal, to which has been added a pinch of soda, salt and sugar into a cup or bowl. Pour on boiling water or milk enough to scald thoroughly, let stand in a warm place covered until light, which ought to be by night if kept warm enough. If not light, put it in a basin of warm water until light, then keep in a cool place until ready to use, at which time take a bowl half full of lukewarm water, add flour enough for batter like cake, then add a tablespoonful of the emptyings, set in a warm place until light, usually an hour or more. Sift a two-quart basin of flour, make a well in the flour and scald flour with one pint of boiling water, add sufficient cold water to make batter lukewarm, then put in the bowlful of sponge, add one large tablespoonful of salt or more. Stir into a stiff sponge, let this get light and knead into loaves (just as soft as can be handled). Let rise and bake in a moderate oven about one-half hour. —MRS. FRED RIDER.

BROWN BREAD.—One egg, salt, one tablespoonful of melted butter, one tablespoonful brown sugar, stir thoroughly; one-half cupful of molasses, one and one-half cupfuls sour milk, one and one-half teaspoonfuls soda, three tablespoonfuls of Aristos flour, enough graham flour to make about as stiff as loaf cake, usually one and one-half cups is sufficient; bake forty minutes.—MRS. FRED WHEELER.

WHOLE WHEAT BREAD.—Pour one pint of boiling water into one pint of milk; when lukewarm add one compressed yeast cake (one-half ounce), dissolved in two tablespoonfuls warm water, and one tablespoonful salt; mix and stir in sufficient flour, three cups, to make a batter that will drop from a spoon; beat well; cover and stand in a warm place (75 Fahr.) for three hours until very light, then stir in more flour (one and one-half cups), enough to make a soft dough; knead lightly until the greater part of the stickiness is lost. This whole wheat bread cannot be made dry like the ordinary white bread so must be handled quickly and lightly on the board. Now mould it into four or six loaves, according to size of pans; place in greased pans; cover and stand aside again in a warm place for one hour, bake in a moderately quick oven thirty-five or forty minutes.—MRS. FRED WHEELER.

BROWN BREAD.—One pint sour milk, two-thirds cupful sugar, one teaspoonful salt, one teaspoonful soda, two tablespoonfuls melted lard, two cupfuls graham flour, one cupful white flour.—MRS. DON NORTON.

BROWN BREAD.—Three cupfuls corn meal, one cupful flour, two cupfuls sweet milk, one cupful sour milk, one-half cupful molasses, one teaspoonful soda, pinch of salt; steam two and one-half hours, then bake one-half hour.—MRS. JOHN ASPLIN.

BROWN BREAD.—One-third cupful molasses, one-third cupful sugar, one egg, one cupful sour milk, one teaspoonful soda, one cupful Aristos flour, graham flour to thicken.—MRS. ROY TERRILL.

BOSTON BROWN BREAD.—Two cupfuls of graham flour, two cupfuls of corn meal, scant two-thirds cupful of molasses, one teaspoonful of soda dissolved in a little hot water. This makes two loaves. Put in a common coffee can, put cover on tight, place in a kettle of boiling water and steam four hours.—MRS. HARMON GALE.

Pour over this two cupfuls boiling water and stir until the butter is dissolved. Let it stand for one hour, then add five cupfuls of sifted Aristos flour and the prepared yeast and beat well. Set it to rise over night. In the morning take up with spoon and put in greased pans; let it rise until it has doubled in bulk, this takes about fifty minutes, and bake in a moderate oven. When it rises roll out and cut into biscuit, let rise again and bake twenty minutes.—MRS. RUTH MUNNO NOEL.

CAKES

ARISTOS RULES.—Always measure Aristos flour after it is sifted. Never jar the cup to smooth off the top, but run it off with a knife. In general, to make the different kinds of dough. Use one cup Aristos flour to one cup liquid for thin batter (griddle cakes). Use two cups Aristos flour to one cup liquid for drop batter (muffins). Use three cups Aristos flour to one cup liquid for soft dough (cooks). Use four cups Aristos flour to one cup liquid for stiff dough (pie crust).

ANGEL FOOD.—Put into good sized mixing bowl the whites of ten eggs and a generous pinch of salt; now take one and one fourth cups of granulated sugar, sift five times; measure one cupful of pastry flour (less of Aristos flour), sift five times. Have ready a scant level teaspoonful of cream of tartar. Now beat whites of eggs about one-half (using a flat wire beater), sift in cream of tartar and beat to a very stiff froth, put in the sugar and one teaspoonful of vanilla on the sugar so the extract does not come in contact with the whites of eggs. Beat sugar in until the batter is smooth and glossy, then very carefully fold in the flour. Pour into an ungreased pan; bake thirty-five or forty minutes in a moderate oven. When baked invert pan on cups or a funnel spout until cake is cold.—MRS. FRED WHEELER.

MOCK ANGEL FOOD.—Set one cupful milk in pan of boiling water and heat to boiling point. Into a sifter put one cupful Aristos flour, one cupful sugar, three teaspoonfuls baking powder, a pinch of salt; sift together four times. Into this pour the cupful of hot milk; then add the whites of two eggs, beaten well. Do not stir or beat eggs into the mixture, but fold in carefully. Do not grease the pan or flavor the cake. Bake in a moderate oven.—MRS. RAY SAVERY.

SUNSHINE CAKE.—Whites of seven small eggs and the yolks of five. One cupful granulated sugar, one cupful Aristos flour, one teaspoonful cream tartar and a pinch of salt. Sift, measure and set aside flour and sugar as for Angel cake. Beat yolks of eggs thoroughly then after washing beater, beat whites about half, add cream tartar and beat until very stiff. Stir in sugar lightly, then beaten yolks thoroughly, add the flour, put in tube pan and in the oven at once. Will bake in thirty-five to fifty minutes.—MRS. MARY SEELEY HAMILTON.

CANNING, PICKLING AND PRESERVING

GENERAL DIRECTIONS FOR COOKING FRUIT IN JARS.—Pack the prepared fruit in sterilized jars and cover with boiling syrup made from water, sugar and Karo. Place jars on a rack in boiler and fill boiler to the neck of the jars with tepid water. Cook until fruit is soft and settles in jar. Refill the jars, using the contents of one jar. Seal and cool without placing in a draught. This method does not kill the spores in the fruit, and, to insure keeping, the jars should be reheated for one-half hour on the third day.

TO CAN BERRIES.—Wash fruit and remove imperfections. Five pounds berries, one and one-half pounds sugar, one-half pound Karo (crystal white), one cup water; cook slowly fifteen minutes. Make a syrup of the boiling water, Karo and sugar. Drop in the fruit and cook slowly until soft enough to pierce with a knitting needle. Drop fruit into sterilized cans, strain the boiling syrup over the fruit. Insert the handle of a silver spoon between fruit and jar to allow air to escape. Fill jar to overflowing, wipe off rubber ring, fit cap onto jar and seal quickly. Invert jar to be sure that it does not leak.

TO CAN CORN, BEANS, STRING BEANS AND PEA'S.—Nine cupfuls beans, one-half cupful sugar, scant one-half cupful salt, two-thirds cupful boiling water. Cook until tender. For corn cook about fifteen minutes. Do not scorch.—MRS. CLAYTON DEAKE.

TO CAN CORN OR BEANS.—Ten cupfuls corn or beans. Use enough water to cook them. When nearly done add one-half cupful sugar and one-half cupful salt; cook until tender. Fill cans as full as possible with vegetables, using just enough liquor to cover; seal while hot. When opening for use drain off the liquor, rinse, and cook same as fresh vegetables, omitting salt.

CANNED PEACHES.—Pare the peaches, cut in halves and lay in a dish of cold water until ready to put in the syrup. Make a syrup of one quart of hot water to one pound of sugar. Let this cool to a syrup then add the fruit. Cook about eight minutes. Put in glass jars and seal while hot.—M. R.

CANNED PEARS.—Prepare a syrup of one pint of water and one cupful sugar to one quart of fruit. Before doing this have the pears all pared and ready for the syrup when done. As each piece is pared drop it into a dish of cold water. This will prevent the fruit from turning dark. When the syrup has come to a fast boil put in the pears carefully and boil until they look clear and can be easily pierced with a fork, which will probably be about twenty minutes. When done place in glass jars.—M. R.

RECIPE FOR A HAPPY DAY

Take a little dash of cold water,
A little leaven of prayer,
A little bit of sunshine gold,
Dissolved in the morning air.
Add to your meal some merriment,
Add thought for kith and kin,
And then as a prime ingredient,
A plenty of work thrown in.
Flavor it all with essence of love,
Not forgetting a dash of play.
Let the dear old Book and a glance above
Complete the well spent day.

The cup used is the common measure holding one-half pint.
Peach Melba
(Serves 5 or 6 persons)
1 can yellow peaches 1 pint vanilla ice cream
(halves) ½ cup chopped nuts

Drain the sirup from the canned peaches and boil it down until about 1 cup remains. Add a drop or two of red coloring matter, just enough to tint the sirup an attractive pink, and chill. When ready to serve, place the peaches on plates, fill the centers with the ice cream, pour on a little of the sirup, and sprinkle the chopped nuts over the top.
