Michigan State Fair.

The twentieth Annual Fair of the Michigan State Agricultural Society is to be held on the Hamtramck grounds at Detroit, Sept. 15, 16, 17 and 18. Very liberal premiums are offered in all classes and as the issue of the Fair is arranged with reference to the Ohio State Fair at Toledo, and the Ontario Provincial Fair at Hamilton, both of which are to be held the succeeding week, at points very accessible from Detroit, a large display is to be expected. A corps of the Professional Lecturers will be present, to entertain, etc., and in fact, to quote from the Secretary, E. F. Johnson, 100 Jefferson avenue, Detroit, at whose office entries may be made up to the first day of the Fair. During that day entry may be made at the office on the grounds.—Half fare on the Michigan Southern Railroad.

Union School.—The fall term of the Manchester Union School will open on Monday Sept. 7th, at 9 A. M., under the direction of Prof. Eugene C. Oliver as Principal and a competent corps of assistants. We shall endeavor to accomplish, in this several departments, as full a course of study as the Public and Foreign Pupils, who may desire to attend, by furnishing as far as practicable instruction in such branches as they may wish to pursue. Tuition is fixed at $5. for the High School and Grammar Departments, and $4 in the other Departments, for the fall term, and at corresponding rates for the other terms. Said tuition to be paid to the Principal invariably in advance. Let all pupils who propose attending be present at the opening. D. Corey, Director.

A Paper Mill.—Mr. Pusey of Dundee, paid our village a flying visit Monday last, in search of a mill site. He is a practical paper maker and machinist and desires to erect a $20,000 mill. He will dispose of his interest east and take $10,000 stock in the mill he proposes to build on this village. Will our citizens take the remaining $10,000? The demand for news, tea and wrapping papers exceeds the supply, and always will. This branch is not yet grown a mate of this kind in our growing village, are not fully appreciated by citizens at large, however. Mr. Pusey received liberal encouragement while here, and requested us to say that he would meet those interested, at the Enterprise Office, Tuesday Evening next. Tannahill, Clifton and Norvell each offer inducements for the location of this mill. We must have the mill at Manchester. Turn out Tuesday evening.

We understand a gentleman from Adrian has purchased ground and will establish a carriage factory upon it.—A German from Monroe has purchased a site and will establish a Lager Brewery.

☞ The fellow who Doctors Artemus Ward is the most absorbing prodigy of worms we know of in the west. He delights in prescribing by newspaper and pamphlet, and really considers himself a genuine physician. Guess he is at least his style of conducting a printing office is enough to physic "the devil" Friend (?) if you wish to "resort to Manchester for amusement" just consider yourself a Mayor and a Tanner, purchase a temperance lodge, secure a medicine tract in your bosom, and sell over auction. We will endeavor to show you how people "resort" on the Raisin, or, in other words, how worms "suspenders" over a beautiful bar. Brother should you squirm, as you oft have, don't forget that you are generally considered the grand steam-bound printed-physician. Use to worm-fudge most any time. Should your whole editorial corps take notice to squirm at the same time, try a "Butler Cocktail," viz: Stir sweet water with a spoon, squint one eye, gulp it down, and put the spoon in your pocket.

☞ The examination of teachers in this county will be held during the month of October. Superintendent Pierce will be at the Union School house Friday Oct. 23d.

☞ The Philadelphia Bulletin, which is printed upon paper made of wood "some two in the boat town upon the Schuylkill, some of the sixths used were built of paper. Fifty years ago the man who would have ventured to foretell the use of paper row-boats and newspapers made of wood, would have been deemed a fit subject for an insane asylum.

☞ It will be remembered that Dr. Gunsolus, Health Officer of this district, has been appointed by the Governor, Surgeon General of the Michigan Militia, with the rank of Colonel. The appointment is one that will be highly appreciated by the profession throughout the State, and we congratulate the Governor upon the selection he has made.

☞ If Jesse is "positively like Byron" we should like to know if he Byron is just about as radical as Ben. Butler, except the latter is perhaps a little more conservative. The comparison puts us in mind of John or Byron in a tight spot. Which is the stronger? and which owes you most? Answer.

John or Byron like Ben! What a comparison! He is not natural—they both say so. Either have you gone into the campaign? If so, "fling open the doors and allow those two gentlemen to shake hands with every man, woman and child in the county. A caucus may now convene one. When shall we three meet again?

Campaign Dance.—Circle of Invitations have been issued for a campaign dance, irrespective of party, at Goodyear's Hall, Friday Evening. Both the Music by Grant & Kingsley band of Chelsea. Dr. Gunsolus will have charge of the Slow and Measure. Hewitt & Woodruff are general managers of the party. The campaign is fairly open; both parties are assembling political munitions with fearless expressing their genuine opinions, "Shall and why not dance? Hewitt & Woodruff represent the interests of both parties and propose to dance it out on Henry's platform. Bill, $2.00.

Personal.—G. R. Palmer, Esq., is settled on the hill," and may now be found during the business hours of the day, and until 9 o'clock P. M., at his office to attend to the wants of the clients. We notice our friend, A. M. Swarthout with Mr. P., who will attend to the business of the office during his absence.

Some Smoke.—Two gentlemen met in a beautiful pipe indorsed in a small little box. A bag of dudon tobacco accompanied the pipe. Friends if you wish to enjoy a genuine smoke, call at our sanctum. Come before Congress meets, in all probability they will send another federal stamp on the word. If they do, we are smoked out. Messrs. Conc & Morey still continue to sell something usually found at a grocery store, and at the same time, they propose to buy everything, and keep pipe and to boot. They are in business and you can't smoke them out. Try tea at $1.00.

S. D. JOHNSTON, Esq., Secretary Michigan State Agricultural Society:

DEAR SIR—Having a large indirect interest in the cereal products of the State, and having for a long time believed that by proper attention to the preparation of the land and selection of the seed, the staple product of State wheat could be largely increased in quantity and improved in quality, we beg leave to place at the disposal of your Society the sum of $400, to be awarded in three premiums for the best White Winter Wheat in quality and quantity raised upon any five acres of land in the State, for the year 1869, in the following order: $200 first premium; $100 second premium; $50 third premium. PRIZE WHEAT.

The time-honored of the white bearded corn-pol Michigan is deserving to be pointed out each year, commanding, as it does, the highest price paid for this grain not only in New York, but in the foreign markets. Our merchants are also invited by long experience that when the wheat crop is grown up to a high standard it is a good for them as the grower. Impressed with this idea, and realizing fully how beneficial would to the results of any experience which would tend to increase not only the quantity grown per acre, but which would also have the effect of keeping up and raising its quality to the highest standard, Messrs. Moore Foote & Co., of Detroit, and a place at the disposal of the Michigan State Agricultural Society for the sum of $250 00, divided into three grand prizes, for the best five acres of white wheat sown in 1868 and harvested in 1869. The prizes are: 1st. For the best five acres of wheat harvested in 1869—if the crop of which not less than 25, bushels will be shown at the State Fair of that year—$250 00. For the second best five acres of white wheat, of which not less than five bushels shall be shown at the State Fair of that year, $150.

These premiums are offered at the early date that all competitors may have time and opportunity to prepare themselves thoroughly, and to select the varieties of seed which they may deem best adapted to it. Messrs. Moore, Foote & Co., in making this liberal donation to the agricultural interests, have chosen to restrict around these premiums few conditions to be complied with. They desired that the President and Secretary of the State Agricultural Society should make such examinations as would call out as much general information as possible in relation to the various soils, methods of tillage and varieties of seed in producing white wheat of the highest standard. The rules laid down by the State Society, to guide all who may enter to compete for the premiums, have been made as simple as possible, but at the same time are intended to bring out all the practice and experience of the best skilled growers, so that this class of citizens in Michigan and other States may reap some general benefit from the awards of these large and liberal premiums.
