HOME ENTERPRISE.

Foundry and Machine Works.

Among the first in importance of our many home enterprises, the establishment of A. Dieterman should be ranked. The business is one which brings a name to the community in which it is carried on, and we gladly chronicle the establishment and the prosperity of its proprietor in a notice that is fast increasing.

A few days since we visited these works which are situated in the eastern part of the village, on the east bank of the river Raisin, commanding one of the finest water privileges on the river, and with a small out-lay could be made very much better. We were shown about the works by the gentlemanly proprietor and found the workmen of each department busily engaged in their respective duties.

At this establishment are manufactured the celebrated "Champion" and "Cattle" Plows, (of different sizes,) which are acknowledged to be the best in use. The proprietor has sold a large number of these plows this season, and expects to sell many more. They manufacture a number of styles of Cultivators, which are really a good farming implement, and the proprietor informs us that the superiority of these cultivators are giving them immense sale, not only at home but abroad. they have sold over 500 this season, and we saw stacked up large numbers of them ready for shipment. We noticed a three wheeled Roller which is certainly the most "pliable" implement of the kind we ever saw, and we see no reason why they should not have a large sale.

We would mention here that there is a shingle machine in this establishment where 35000 oak shingles have been sawed this summer, which are receiving a ready sale. At the moulding room are a sufficient force to carry on that branch of trade, and the quality of articles are proof of the materials used, and the capability of the workmen. There is also a Blacksmith shop in connection with this establishment where the ironing of these machines are brought up to date and may be fully relied upon as correct.

These abstract books have been prepared by Tracy W. Root Esq. of Ann Arbor, at great expense, to meet an urgent demand for such information as should be sought by every person negotiating for real property in the county. It would startle hundreds within the county of Washtenaw, were they to know the complicated condition of much of the titles to land in the County. No man should receive a deed or mortgage without first knowing something about the chain of title to the property. By means of these books it can be told at a glance. Complete abstracts can be furnished at very reasonable rates by applying to Mr. Palmer. He has rented these books and they are under his entire controll. All parties who apply to him to draw deeds, mortgages or contracts will be furnished with a carefull-pared statement of the title to the property in question without extra charge.

The Musical Guest.—This ever welcome Guest for August appears promptly and with even a brighter face than usual. It contains the following choice new songs:

Wee Wee Wee Rooster, by Frank Howard; I Will Show you where we Grow, by Vicky; by the same composer. The fairies' wedding waltz song" and fully adapted to the piano forte. It has a very lively, pretty melody. It also contains a beautiful instrumental piece, La Cinderet (Belle) Shottisch, by R. Coote.

The music in this number is worth more than the price of the Guest per year. It is certainly a very cheap and valuable monthly, and in no way can a dollar be spent to better pleasure or advantage for one year. Large premiums are offered to those obtaining clubs. Specimen copies sent free. Send ten cents for sample copy. Address, W. W. WHITNEY, Toledo, Ohio.

Teach your boys to look upward and forward, never down or backward.

COUNCIL PROCEEDINGS.

VILLAGE OF MANCHESTER, }
Council Rooms, August 2nd, 1869. }

Meeting called to order by appointing George W. Doty, President, pro tem.

Present—Messrs. Merithew, Kirchgessner, Doty, Kelly and Clarkson.

Minutes of last meeting read and approved.

The following bills were presented and allowed:

Charles Sandford,	4,00

Moved by Merithew that the Council proceed to build a bridge across the river Raisin near the Brewery, and that it be completed this fall.—carried.

Moved by Merithew that the Council receive sealed proposals at the next regular meeting, being on September 6th, for the building of the bridge aforesaid.—carried.

Moved and supported that all persons for non attendance to the meetings, be handed in in writing.—carried.

Moved by Kelly that the Council instruct the Marshal to prosecute the boys who took the cows from the pound, unless they settle by paying damages and fees of the pound.—carried.

The Council then adjourned.

HEADACHE.—Dr. Curtis of Tecumseh has, with many years of constant study, discovered a cure for Nervous Headache, Sick Headache, Dyspepsia, Costiveness, Liver Complaints, Sour Stomach, Flatulency, Fits, Epilepsy and St. Vitus Dance.

For sale by VanDuyn, Lynch & Co. Manchester, and druggists everywhere. Price, 50 cents per box. Every box warranted to give satisfaction, or money refunded.

A NEW DISH.—Potatoe Bog soup is all the go. all the industrious men about town are out before "sun up" every morning with a tin pan and a long stick gathering the bugs, and after they are in the pan the hottest kind of boiling water is the only thing that will cook them, after about eight minutes, and a little exercise with a potatoe masher, you will have a dish of soup that for richness and delicacy of flavor cannot be excelled. As a poison, it will beat the best "40 rod" in this country, and that is saying a good deal.

Don't leave to memory, what should be written; it makes lawsuits.

Don't give the merchants a chance to down you. Prompt payment makes independent men.

Keep good fences, especially line fences; they promote good feelings between neighbors.

A decent, substantial clothing for your children, makes them think better of themselves and keeps the doctors way.

Dont starve your land; if you do, you will grow lean.

Don't become security for him who waits for the sheriff.

If you have a yoke of oxen, don't be ashamed of them, and give your note for a span of horses.

When the labors of the day are past, let good books and newspapers invite the youngsters to the sitting-room.

Duty.—It is the duty of every man, no matter what his financial condition may be, who has property liable to be buried, to protect Himself with good substantial insurance against the loss arising from such a contingency; pay it is not only a duty, but it is a moral obligation resting upon all; he who neglects it, does violence to himself, damages his credit abroad, impairs his influence at home, and not unfrequently brings ruin and poverty to the former abodes of opulence and luxury. In matters of insurance, delays are dangerous, for we know not the conflagrations a day may bring forth. The times we live in and are passing through, demand strong and substantial underwriters.—Companies of brains as well as capital, Companies that are uniform in their rules, firm in their rates, and prompt in their payment of losses. Such are the well known Protection Fire and Marine Insurance company Hartford, and the Security of New York. The latter company insures farm property against damage from fire or lightning, including live stock in the field." Losses occurring at this agency under policies issued by me for either of the above named companies will be adjusted and paid here in bankable funds. The frequent change made in the ownership and occupancy of property, and many other things requiring the endorsement of the company readily suggest the importance of insuring with local agents. G. R. Palmer, Agent.

ACKNOWLEDGEMENT.—Mrs. H. G. Bolster will please accept our thanks for luxuries in the shape of a Whortle-berry "pie."

HAPPY.—We speak for the community when we say that this is the "gayest spot on earth" Manchester has done her duty; she has raised $80,000 for the Detroit & Hillsdale railroad, and we are to have the road. We, and our neighboring village, Brooklyn, will have occasion for a general rejoicing. "We will be bound together like a pair of cats tied by the tails." Let us have a grand Pic-Nic in honor of the occasion.

HOME ENTERPRISE.

Manchester Marble Works.

We have from time to time spoken of the above establishment through the columns of the ENTERPRISE, but have had no occasion to speak of them so favorably as at the present time. A few days since we visited the establishment and were very much interested in looking over the stock.

Messrs. Pierce & Worthey came from Ypsilanti in April last, and commenced operations at their location on Railroad street. Many obstacles opposed their immediate success, especially as they were strangers. Steadily from the first they have striven to merit the patronage of all, and they have received much encouragement. They are now doing all that they can in their line. Raised quarters, and have orders yet to fill. They expect to occupy a larger building soon, affording them more room to properly display their stock. A reputation once established will enable them to add to their stock, and to build up their trade in every direction.

Mr. Pierce, the senior proprietor, is the designer for these works; his designs show rare taste and skill. With this young man of superior artistic ability, and his own hand to execute, they cannot fail to attract attention and draw custom. We observed a few of his fine specimens, and speak of them as deserving special mention:

The "Crown of Glory," (of which we have before spoken), lately set up in the cemetery at Clinton, is one of the finest works we have ever seen. A gothic stone for the cemetery at Ypsilanti, and others for Brooklyn, Napoleon and Salem should receive their proper amount of praise. Calls have come from all of these places for more work, and thus gradually these young men are working their way up. They have sent out over $1500 worth of work already, and have orders for several hundred dollars worth in the shop. Specimens of their work can be seen in the cemetery of our village, among which is a beautiful slab at the grave of Lawson W. Leap. They obtain their American marble from the celebrated quarries of Vermont, and in many instances the American Italian, (so called from its close resemblance to the Italian) admits to as high a polish as the Italian itself, and not every eye can distinguish one from the other when placed side by side. We advise those who want anything in the line of monuments or tomb stones to call and see them before purchasing elsewhere.
