**Homer and Manchester Railroad.**

In conversation a few days since, with some of the directors of this line, it was learned that Chief Engineer Homer had decided to make a survey to Brooklyn, leaving the line already run to Manchester, a little east of Baldwin's Mills.

The Brooklyn people are very confident that a better, and cheaper line can be got to that place, making the connection with the D. L. & I. R. R., there instead of Manchester.

They have raised money for the purpose of making this survey, and will it is said, contribute liberally to the building of the road. Inasmuch as some twelve miles of new road would be saved, and the distance not materially increased, by making that the point of connection; and as Manchester has never manifested any special interest, or anxiety in regard to this project, it may well be worth while to consider whether (if the line is as good as the other) it is not for the interest of the Company to adopt the one to Brooklyn.

It is also understood that the gentlemen connected with this project, are confident in regard to the building of the road.—[HOMER INDEX.

**Zell's Popular Encyclopedia and Dictionary.**

This invaluable work has indeed supplied a vacuum which has existed in the literary sphere for many years. As regards the editor, Dr. Colange, we can only say what he has shown himself entirely equal to the task." As a dictionary, it is excelled by none, but equal to any in the land, embracing every word in the English language, with its etymology and definition that is contained in other large dictionaries. It is also a complete Gazetteer. There are over 2,000 engravings, which serve to illustrate more fully than words can do, all articles by which a cut can be used advantageously. In order that all may possess this work, the manner of publication is such, that even those of the most moderate means can obtain it. It is furnished to subscribers in fifty-cent parts, of forty pages each, payable on delivery, and is delivered at such periods as may prove most convenient to the subscriber. Fifty nine parts complete the work, which will form two large volumes. The Encyclopedia is sold only on subscription. Specimen number will be sent on receipt of ten cents. "HOW TO GO WEST."
Forty years ago, Illinois was as far West as most people wished to go, and journeys were made in the legendary "Prairie Schooner," but in these days of Western Advancement, Invention and Art, what has one to mean Iowa, Nebraska, Kansas, Colorado, California, the Territories, and the traveler reaches almost any point thereby in a palatial Car of Railroad.
This Line of Railroad is the Barrington Route, which starts from Chicago by the Chicago, Barlington & Quincy Railroad, and, running through Illinois, Missouri, Iowa, Nebraska, Kansas City, St. Joseph, Atchison, Leavenworth and Kansas City, connecting with the Union Pacific, and other connections from those cities.
People going to Iowa, Nebraska, Kansas, California, or any point in the Territories, will study their own interests by going "By way of Burlington," for the rates of that Line are always as low as any other, and it is the best Route in the West, therefore you are more sure of your safety and comfort.
The Barlington Route has admirably answered the question, "How to go West?" by the publication of an excellent Pamphlet, containing a large fruitful map of the Great West, and much later, authentic and valuable information which can be obtained, free of charge, by addressing General Passenger Agent B. & M. R. R., Barlington, Iowa.

Sewing Machine Sales for 1870.
The magnitude to which the manufacture of sewing machines has attained is shown by the returns of the manufacturers for the year 1870 to the Commissioner of Internal Revenue, which have been promptly made. According to these returns the number of machines made by each manufacturer is as follows:
The Singer Manufacturing Company..... 127,858
Wheeler & Wilson manufacturing company 82,208
Howe machine company, Bridgeport, Conn.... 73,546
Grover & Baker sewing machine company.... 67,007
Wilcox & Gibbs sewing machine company.... 30,000
Wheeler & Wilson sewing machine company.... 20,000
American Britchford & Universal combination company..... 14,223
Florence sewing machine company..... 11,000
Gold Medal sewing machine company..... 9,222
Rhea sewing machine company..... 6,864
Empire sewing machine company..... 5,000
Finkle & Lyon, manufacturing company..... 2,420
Turner sewing machine company..... 1,000
Wilson sewing machine company..... 500
Detroit Reversible..... 300
Barnes & Fenton manufacturing company 420
Bartholomew manufacturing company..... 150
McKay sewing machine association..... 100
C. F. Thompson..... 100
It will be seen by this table that the popularity of the Singer machines for several years of the past has been unprecedented, and that even of the famous "Wheeler & Wilson" machine. This is owing to the fact that the Singer company have lately commenced making, besides their old and well-established manufacturing machine, what is known as their "New Family Machine," which is selling at the rate of nine to one better than their old style. Their total sales for 1870 (70,793 machines) against that for 1869 (47,-870, showing an increase of one-half in the latter year. For 1872.
From the worst reverse made to the owners of the valuable Singer sewing machine patents, that of 1863 and 1864, when the infringements became very large, the company have gradually increased in excess of those of 1863, with over 60,000, and they claim the sale during 1870 of over forty-four thousand more machines than that of any other company. Their "New Family Machine" would seem to be especially popular, and the increase in their manufacturing machine has taken place for manufacturing purposes.—New York Evening Post.
The Singer manufacturing company report sales of 127,858 machines in 1870 against 96,761 in 1869, showing a gain of 31,097, mainly in the sale of what is known as the "New Family Machine."—New York Tribune

Cook's Hotel at Ann Arbor, has been leased to John G. Avery of Buffalo, N. Y. We think there is a prospect of a good hotel being kept.

The ladies of the Episcopal society of this village, spent the afternoon at the residence of P. F. Bloser, on Washington street to-day. Rev. S. W. Friable of Brooklyn was also present.

Last week we gave to each subscriber of the ENTERPRISE a supplement containing the doings of the Legislature at the recent extra session. We hope that they will be appreciated.

Some people say that they would take the ENTERPRISE if they could afford it, but they are so hard up that they cannot. Show us a man that cannot afford to take their local paper?

The proprietors of the Jackson Republican have changed the name of their paper to the News, as they do not wish to be classed as a political paper. The News is a large and ably edited paper.

Arkansas journalism is peculiar. The Fort Smith Patriot hails its colors to the mast in this way: "For President of the United States, U. S Grant. For Governor of Arkansas, not Jo. Brooks by a sight."

THANKS.—To Henry Waldron, M. C. for copy of Census Report of 1870.

To Barrett Aldrich of Chetopa, for copies of Kansas papers.

MAY PARTY.—The German Working Men's Aid Society of this village, will give a May Party at Goodyear's Hall, Monday evening, May 20th. All are invited to attend.

HAIL.—We understand that the township of Sharon was visited by a hail storm on Tuesday last. We do not hear of its doing any very great damage, except breaking a few lights of glass in the residence of W. B. Dean.

WOODMAN SPARE THE TREE.—Another old land mark has gone. The button wood tree that stood in front of John VanDuyn's residence was cut down on Monday last, as it would interfere with the building of his new residence. We were sorry to see it fall, but "onward is the watchward."

CONSOLIDATED.—The Knight Templar and Independent Bands of this village have consolidated and secured Mr. Skutt to lead them. There are seventeen members and they will be in trim for the fall campaign. We opine that they will make one of the largest and best bands in the State.

NEW HARNESS SHOP.—Messrs. Hall, Nash & Co., have opened a Harness-shop in the building formerly occupied by Hiram Hodge, where they are prepared to manufacture double and single harness both substantial and fancy. They also keep a good stock of Horse Millinery, Trunks, Etc. See advertisement.

AUCTION.—W. B. Dean, Special Administrator of Wm. Green's estate, will offer the personal property for sale at public auction, on Wednesday, May 8th, at 10 o'clock, A. M., one mile east of Sharon Holler. Farm stock, tools and implements, carriages, harness, grain and other articles. Terms, fourteen months. See posters.

PERSONAL.—A. H. Miller of Clarkston, on the D. & M. R. R., and formerly of this village, is in town on business. He says the hardware trade has opened up good with him.

Mr. and Mrs. Carr have returned from their Western trip, and are glad to be at home again.

We are pained to learn that Mr. Chas. Weir is very sick.

A JOKE.—Most everybody enjoys a good joke, especially our friend G. W. Doty, and strange as it may appear he sells them at 10 cents each. Try one. George offers a fine lot each for $7.00, and will give perfect satisfaction to the purchaser. He has now a splendid line of Papers and Window Shades. In fact, his whole stock looks fresh and neat, still it would not be complete without a joke.

CORRIGO.—We are happy to inform our readers that Hugo Munch has bought the Union Hall Clothing Store of Unterkircher & Mahrle, and is putting in a large stock of New Styles of Cloths, Clothing, Hats, Caps, Boots, Shoes, and Gent's Furnishing Goods, for the Spring of 1872. He has secured the services of Mr. Mahrle, who is an experienced cutter, and will warrant good fits or no charge. He will defy competition in prices or goods and hopes to receive your early orders. See advertisement on 4th page.

## THE TICHBORNE CASE.

### A True Bill Found Against the Defendant.

The London *Times* of April 19th says:

Shortly before 2 o'clock yesterday, the Grand Jury assembled in the Court House to find a true bill which they had found against Arthur Orton, alias Thomas Castro, alias Sir Roger Doughty Tichborne, Baronet, otherwise Arthur Orton, for perjury. They also presented a true bill against the same defendant for forgery. The arraignment of prisoner, contained in the indictment found by the Grand Jury ascertained, upon first, upon the affidavits made by the prisoner in the Chancery suit, that he did wilfully and corruptly make oath of his evidence on the trial in the Queen's Bench, and that he did thereby commit wilful perjury. The second category ascribes to his affidavits, which he made in the Court of Chancery, on the 22d of May, 1872, and on the 24th of January, 1873, in support of his petition for the writ of error, and which, as the identity of the claimant was then in question, further upon the indictment, stating that those affidavits contained the following false statements, namely, that he was born on the 20th of May, 1829, at Wagga Wagga, in New South Wales; that he was educated at the Jesuit College at Stonyhurst; that he was appointed Cornet or Lieutenant in the Sixth Dragoon Guards (Carabineers); that he resigned his commission in October, 1849; that in Dublin, on the 12th of April, 1850, he was married to Miss Anne Doughty; that he was divorced in the Ecclesiastical Court in Dublin in 1852; that he left Dublin in 1853, and proceeded to the Continent; that he had resided in Paris from his birth until 1861, that he had known Charles Chatillon (assuming Adrian Chatillon) from his childhood; that he had visited Tichborne in 1853; that he came away from Tenerife in the Rio Lodi in 1854; that he had been a student at the Jesuits' College, Beaumont, from 1854 to 1856; that he had been in the Mauritius from 1856 to 1858; that he had been in July or August, 1862, he had seen Lady Doughty and her daughter Miss Doughty at the Tichborne House; that in July or August, 1862, he had seen Sir Edward Doughty; that he had seen Miss Hales in the presence of her mother at Paris in 1862 or January; that he had been at the house of Count Bosanquet in 1862; that he had stated that he had never been to Wapping before 1865; that he had never been to Alfred Place, Arthur Orton; that he did not leave England in a vessel called the Queen in April, 1852, and did not arrive at Hobart Town in August, 1852, and that the fact of that year; that he had not at any time between the 1st of May, 1852, and the 1st of April, 1854, and that he did not, in 1851, 1852, or 1853, visit Australia; that he had never written letters to Mr. Gibbes, the solicitor, or to Mr. Bernard, the solicitor, or to Mr. Hopkins, the solicitor, or to Mr. Hopkins, the solicitor, or to Mr. Hopkins

A number of gentlemen of Jackson have formed themselves into an organization called the "Jackson Street and Greenwood Avenue Omnibus Line Company," and will run coaches, drawn by four horses, at stated times during the day, from Main along Jackson street and Greenwood Avenue, for the public conveyance of passengers desiring to pass that way. They expect to have them ready within 30 days.

J. L. Hudson called at our office yesterday and showed us his line of Chromos, which he has just purchased in N. York City. They are certainly beauties, selling them like hot cakes. These Chromos are all first-class and we think Mr. H. is selling them at very reasonable prices

We cannot tell thee with us,
Of shadows, dark and drear,
That haunt our earthly pathway,
While we are pilgrims here.

Oh, no! through in fear morning,
We won't feel it, for there may
When Angels called thee early,
To a better land, away.

We trust thy bark is anchored,
Upon that shining shore,
Praising thy mighty Ruler,
Forever more and evermore.

And tho' at Monk's fountain,
With eyes bedimmed with tears,
We mourn thy early taking,
Of happy, happy years.

Great pangs must rend our bosom dear
We do not dare complain,
But humbly submit to our dear cross,

"HOW TO GO WEST"

Forty years ago, Horace was at the Western signal people's ridicule, and journeys were made in the legendary "Prairie schooner," but in these days of Progress and improvement, the word West has come to mean Iowa, Nebraska, Kansas, Colorado, California, and the Territories; and the traveler reaches almost any point there, by a splendid Line of Railroad.

This Line of Railroad is the Rock Island Route, which starts from Chicago by the Chicago, Rock Island & Quincy Railroad, and, running through Bureau, crosses Omaha, Council Bluffs, Nebraska City, connecting with the Union Pacific, and other railroads from there on to

People going to Iowa, Nebraska, Kansas, California, or any point in the Territory, will study their own interests by going "the way of Burlington," for besides that line are always as low as any oth r, and in the matter of safety and comfort, therefore you secure more of your safety and comfort.

Sewing Machine Sales for 1870.

The magnitude to which the manufacture of sewing machines attained is shown by the returns of the manufacturers to the assessors for the year ending the 1st of June last, on which to base a royalty. According to these returns the number of machines made by each manufacturer in 1870 is as follows:

| | |
|---|---|
| The Singer Manufacturing Company | 127,853 |
| Wheeler & Wilson manufacturing company | 83,200 |
| Grover & Baker sewing machine company | 27,000 |
| Grover & Baker sewing machine company | 27,807 |
| Wheeler & Wilson manufacturing company | 20,000 |
| Wilcox & Gibbs sewing machine company | 20,000 |
| Florence Britton hole & Overseaming company | 14,573 |
| Florence sewing machine company | 14,573 |
| Howe sewing machine company | 13,000 |
| Gold Medal sewing machine company | 8,912 |
| Rex sewing machine company | 8,000 |
| Empire sewing machine company | 2,500 |
| Bradley & Lyon, manufacturing company | 2,000 |
| Johnson's sewing machine company | 1,500 |
| Willcox & Gibbs machine company | 1,000 |
| Bartram & Fenton manufacturing company | 450 |
| Lamb's Knitting manufacturing company | 300 |
| M'Kay sewing machine association | 192 |
| C. F. Thompson | 100 |

It will be seen by this table that the popularity of the Singer machine far exceeds that of all others, their sale being one-half greater than that of the Wheeler & Wilson, and four times that of Grover & Baker sewing machine company. This is owing to the fact that the Singer company have lately commenced making, besides their old and well-established manufacturing machine, which is known as their "New Family" machine, which is selling at the rate of time to one hundred and fifty per day. There have been 1865 sewing machines patented since the year 1870, showing an increase of one half in the past year.—*New York Sun.*

From the sworn returns made to the Secretary of the valuable sewing machine patents, it appears that the sales of the Singer manufacturing company, for the year 1870, are over forty thousand in excess of those of 1869, were 86,761; and during the six months ending 1871 over their improvement more machines than that of any other company. Their "New Family" machine, which is said to seem to be as great a favorite for family sewing as their manufacturing purposes.—*New York Evening Telegram.* The Singer manufacturing company paid a tax of 127,853 on their sewing machines for 1870, showing a gain of 41,062, making in the sale of over 100,000.—*New York Evening Mail.*
