

THE EDITOR OF THE ENTERPRISE
Dear Sir: I have the honor to acknowledge the receipt of your letter of the 17th inst. in relation to the matter of the...
Yours truly,
MAY D. BLOSSER

THURSDAY MARCH 11, 1875

The Ypsilanti Reform Club numbers 800 members.
And now a lot of Towns-which youths have got the Black Hills fever.
Michigan has 12,000 Odd Fellows and about 20,000 Free Masons.

Mr. Stephen Suggs, of Cambridge, signed 150 lbs. of maple sugar this Spring.
They said Vanderbilt had a string with it, but his horse seems content to break it.

The Legislature is after the prize package man. They propose to stop his "refrains" traffic.
If they found the Detroit river, what will become of those ferry moonlight trips across that crooked strait?

It is said that Michigan makes more barrels and exports more staves and barrel material than any other State in the Union.
James A. Jones, a grocer of Saline, made an assignment, recently, to Peter Cook, of Ann Arbor and Henry Coe, of Saline.

The bill making a new judicial circuit of the counties of Washtenaw and Monroe has passed the Senate. It will also probably pass the House.
Don J. Mozart, the inventor of the Mozart watch, died on Thursday last in the insane department of the county poorhouse, at the age of 58 years.

Mrs. Ann Eliza Young, nineteenth wife of Brigham, the great Mormon Prophet, is now lecturing in this State on the subject of "My Life in Bondage."
William Phillips, of Ypsilanti, was seized with convulsions, Sunday morning, and shortly afterwards died. He was an old and well-known resident of that city.

That was a smart Michigan farmer who planted 200 apple trees with a mixture of tar, kerosene, sink, alum, arsenic and rabbit manure to keep the worms and rabbits away. He now reports over 100 bushels of apples.

Henry Ward Beecher's converts are said to be 100,000 in all, and in the average part in Plymouth church worth more than a whole town of Bullman's. Yes, and Theodore Tilton, too.

At the Telegraph's reception in Chicago, Ill., the donors walked to music in Milwaukee, Wis., eighty-five miles away. A mile and a half was transmitted by means of the wonderful telephone, the wires playing a dainty and perfectly human melody.

Lauding Republicans. The balance of cash in the State treasury, March 10, 1875, was \$585,219.17, receipts during the week ending March 10, were \$16,547.31, payments during same time were \$7,150.00, balance in the treasury, March 17, 1875, was \$594,606.47, increase for the week \$9,387.30.

A wealthy farmer residing in Monroe county, has built a church in the village of Ida, in that county, in which the following rules occupy a conspicuous place above the pulpit: "This is to certify that no minister belonging to an association having his name on the following list, shall be allowed to preach while praying, shall preach in this church of God. The Lord is his judge. This tablet is of stone, and the stone is a certain piece of the restriction inscribed thereon. Do not till it in the dark ages."

St. Patrick's Day was joyfully celebrated by the people of the Emerald Isle in the larger towns and cities, and with great interest in the smaller ones. The only thing we can say is that St. Patrick's Day was a grand success.

"DAYS OF ABSENCE."
Lost, strayed or stolen—the editor of this paper, who left Manchester for Lansing on the 17th inst., since which time he has not been heard from, by the country, and it is supposed to be taking a sweet sabbath in some snook bar between here and the Legislature, but knowing his ENTERPRISE, we don't feel the least alarm that he will "dig out" for some at first opportunity. Subscriptions received as usual, and money accounted for as usual. If any one should see him, please let him know, or let the editor know, for which they may desire to kill the editor, they are politely requested to go to the EDITORIAL OFFICE OF THIS PAPER.

Any work, no matter how humble, that a man honors by efficient labor will be found important enough to secure respect for himself and credit for his name. George claims to have the smallest compositor in the country. He is eight years old, fifty inches high, and can set a newspaper column of solid matter in one day. Nat.

Some newspaper editors have only just detected the proper "feel" of one thousand dollar bills. Such ignorance seems hardly possible in a country that handles so many of them. An Indiana man caught another man kissing his wife and upon being asked if he punished the offenders replied: "No, exactly; but they must have seen him first. I cannot tell the day that I was not so blind."

Rice powder, which is much used by ladies upon their faces, is said to often contain lead, which renders it very injurious. If a little bit of potash is dropped upon the powder, the presence of lead will be revealed by its turning yellow.

How to Heavy.—What's broke loose, Charley? Where are you going in such a hurry? "I'm going to the State." "That must be a mistake with you." "It's not the State that has called me out. It's not a woman is it?" "No, of course not. But I'll explain the thing to you to keep down your infernal suspicions. There are three partners in our store, and we have only two chairs. The last man that comes in the morning has to stand up all day. It is very important for me to get to the store early this morning—good day."

One grave error that many well-meaning reformers fall into is that men can be led from the error of their ways by vituperation and a spirit of vindictive hatred towards them. The anti-slavery and temperance reforms have both originated in the north, and are being carried to the south in the name of the Lord. It is a pity that the reformers of the north should be so much more than talk.
