It is stated that some kinds of woods, although of great durability in themselves, act upon each other to their mutual destruction. Experiments with cypress and walnut and cypress and cedar prove that they will rot each other when joined together, but on separation the decay will cease, and the timber remain perfectly sound for a long period.

The Adrian Times warns folks against a young fraud who is described as being a dead-beat, about 27 years old, sandy hair and moustache, and stoutly built. His little game being to claim to be of the same name as the person he approaches, and then he tells a story of his home in Kent county, that he left there two years ago for Colorado, had hard luck there, and now he had got this far back, was dead broke, and he thought he would call upon a person of the same name to help him.

On Tuesday, Miss Florine Woodward who has been a teacher in our school for over seven years, started for Mackinaw, Bay City Detroit for a few weeks rest. Mrs. Hattie Woodward supplies her place during her absence.

About 4 o'clock Monday morning a good portion of the village were awakened from their sleep by a terrific explosion which on investigation proved to be the work of burglars in the drug store of J. H. Dresser.

The safe was torn into fragments and almost the entire glass front of the store blown out. The work was undoubtedly that of skilled professionals as they first attempted to drill through and break the combination but failed only by about a quarter of an inch. Then their drill not being long enough to get into the inside they went to Campbell's blacksmith shop built a fire, spliced the drill, returned and then drilling through the top succeeded with dynamite in getting into it. It was not a very paying job for them as in their haste to get away they only took a steel box inside that contained only from twenty to forty dollars which belonged to the village. Mr. Fred Klein who lives just back of the store saw them go in some time before the explosion but supposed it to be the drug clerk after medicine.

An exchange states that a Jackson dealer has imported onions from Egypt. They are the same savory vegetables that helped to make up the pottage of the chosen people in the days of old. These Egyptian onions are wonderful in their development. Several weighed one pound and one pound three ounces each.

Two young men named Carter came over to this country and settled in Jackson a few years ago, and by dint of hard work and economy saved enough money to send for their parents who arrived a short time ago. Soon after their arrival one son sickened and died, and the other son lies in a critical condition with the same disease. A Bad Indian. Consumed by Sours. "An Apache, in full war paint, stalked into an Indian school at Albuquerque, N. M., one day. The children were immediately terrified, and frantically told us he was a 'bad Indian.' They said an uncle of one of our boys had killed his brother and they feared he had come for revenge. As it was dinner time I saw nothing better to do than have the children march into the dining room, as usual. We kept open house to Indians at all times and treat them as distinguished guests, so I motioned to our Apache to take a seat at the table. He sat down, terrible in his war paint, and laid two loaded revolvers on the table before him. The children began to tremble. I summoned all my courage and said: 'Put those revolvers on the window.' The Apache never moved. The cook placed before him a cup of coffee and a bowl of soup. 'Take away that coffee and soup,' I commanded, with my heart in my mouth, adding to the Indian: 'You shall not have them until you put those revolvers on the window.' Trembling for her life, the cook obeyed. When the Apache saw his dinner removed he deliberately arose, picked up his revolvers and—shall I ever forget that terrible moment—quietly laid them on the window. His dinner was restored to him, he ate it in silence and then picked up his property and walked out without a word.

"I did not see him again for years. But the last time on my way home, I was waiting in the train at Santa Fe, my peroxide Apache, in all his feathers and war-paint, got into the car and walked his whole length, as if looking for some one. My blood ran cold. He stopped beside me, gave a grunt of satisfaction, and broke into smiles. 'Then nothing would do but I must vigorously shake hands. He then left the car and returned with a dozen other braves, as horrible as himself. He introduced them all, and all must shake hands.'—Harriet Phillips, in Philadelphia Times.

Know His Place. Only two days ago our barber solemnly assured us that he thought a great deal of the Rev. Joseph Cook and longed to converse with him, as he could understand him. Then we got out of the car and said: 'This thing is all wrong. If you can understand Joseph Cook it's not for us to try to shave him.' We got up in the chair and we will shave you.—Boston Post.

There will be no lack of beefsteak and trout for this year. The reports from the west regarding the cattle drive represent it as being larger this season than ever before.

The Lansing Republican in speaking of the special watchfulness which should be exercised in regard to the water we drink, owing to the fact that many contagious diseases are communicated by impure water, says that a good test of the purity of water is the following: "Fill a perfectly clean quart bottle two-thirds full with water; dissolve in this a teaspoonful of the purest white sugar; cork the bottle and set away in a warm place two days. If it remains clear and bright you need fear no evil; but if it turns milky white and gives off any offensive gases, beware how you drink the dirty stuff."

It has been generally noticed and commented upon of late, that a certain lot of young boys are making themselves regular nuisances by tapping on store windows, knocking at doors, etc. Last Friday evening they made themselves exceedingly funny by breaking a window light from the presbyterian church basement, where the musical union was holding a meeting, and throwing in pebbles, leaves, etc. A number of these young rowdies were recognized and some measures will be taken to stop the trouble if it is repeated.
