THE LAST DAYS OF SAIL.

LESSON 30. THIRD QUARTER. INTER-

ATIONAL SERIES. OCT. 29.

Title of the Lesson: Some Facts and Figures of the most interesting of all nations. The primary object is to increase the knowledge of the students about the world. The secondary object is to increase the knowledge of the students about the world. The tertiary object is to increase the knowledge of the students about the world. The quaternary object is to increase the knowledge of the students about the world. The quinary object is to increase the knowledge of the students about the world. The sesquinary object is to increase the knowledge of the students about the world. The quinquenary object is to increase the knowledge of the students about the world. The sexennial object is to increase the knowledge of the students about the world. The septennial object is to increase the knowledge of the students about the world. The octennial object is to increase the knowledge of the students about the world. The novennial object is to increase the knowledge of the students about the world. The decennial object is to increase the knowledge of the students about the world. The undecennial object is to increase the knowledge of the students about the world. The dodecennial object is to increase the knowledge of the students about the world. The tredecennial object is to increase the knowledge of the students about the world. The quattuordecennial object is to increase the knowledge of the students about the world. The quindecennial object is to increase the knowledge of the students about the world. The sexdecennial object is to increase the knowledge of the students about the world. The septuagennial object is to increase the knowledge of the students about the world. The octogesimal object is to increase the knowledge of the students about the world. The novemdecennial object is to increase the knowledge of the students about the world. The centennial object is to increase the knowledge of the students about the world. The uncentennial object is to increase the knowledge of the students about the world. The bicentennial object is to increase the knowledge of the students about the world. The tercentennial object is to increase the knowledge of the students about the world. The quinquaginal object is to increase the knowledge of the students about the world. The sexagesimal object is to increase the knowledge of the students about the world. The septuagesimal object is to increase the knowledge of the students about the world. The octogesimal object is to increase the knowledge of the students about the world. The novemdecennial object is to increase the knowledge of the students about the world. The centennial object is to increase the knowledge of the students about the world. The uncentennial object is to increase the knowledge of the students about the world. The bicentennial object is to increase the knowledge of the students about the world. The tercentennial object is to increase the knowledge of the students about the world. The quinquaginal object is to increase the knowledge of the students about the world. The sexagesimal object is to increase the knowledge of the students about the world. The septuagesimal object is to increase the knowledge of the students about the world. The octogesimal object is to increase the knowledge of the students about the world. The novemdecennial object is to increase the knowledge of the students about the world. The centennial object is to increase the knowledge of the students about the world. The uncentennial object is to increase the knowledge of the students about the world. The bicentennial object is to increase the knowledge of the students about the world. The tercentennial object is to increase the knowledge of the students about the world. The quinquaginal object is to increase the knowledge of the students about the world. The sexagesimal object is to increase the knowledge of the students about the world. The septuagesimal object is to increase the knowledge of the students about the world. The octogesimal object is to increase the knowledge of the students about the world. The novemdecennial object is to increase the knowledge of the students about the world. The centennial object is to increase the knowledge of the students about the world. The uncentennial object is to increase the knowledge of the students about the world. The bicentennial object is to increase the knowledge of the students about the world. The tercentennial object is to increase the knowledge of the students about the world.

This is the end of the lesson. Thank you for your attention.
