FRICK SHOT DOWN.

MANAGER OF THE CARNEGIE STEEL COMPANY

Sent Near Death's Door by Revolver and Knife in the Hands of a Determined Assassin—Frick May Recover—The Would-Be Murderer an Anarchist.

H. C. Frick, chairman of the Carnegie Steel Company, limited, was seated in his office in Pittsburgh, working over a bundle of papers when a young man was ushered in.

A three-cornered struggle now took place and Mr. Frick was bleeding profusely from his many wounds, but with iron nerve kept in the fray only to receive another savage cut, and had not the dagger's point struck a rib and glanced downward it would have drawn forth his heart's blood.

Two other blows were received by Mr. Frick, but were not severe. Officers and clerks who had heard the shooting and the struggle now rushed in and overpowered the villain, and was on the point of shooting the fellow when Mr. Frick interposed and saved his life.

A half dozen surgeons were at once summoned and Frick's wounds dressed, he all the while appearing to be calm and self-possessed person in the office.

The news was carried to Mrs. Frick, who but 10 days before became the mother of a boy, and she was completely overcome. Mr. Frick completely expressed his feelings to the wife, and was on the point of conducting the business from his residence, still managing affairs at Homestead.

The man who attempted to assassinate Mr. Frick was taken to the central station where he was examined by a deputy sheriff and the villain, Alexander Berkman, age 28, New York City, Russian Jew, printer. He is a rather thin young man of medium height and his examination and information from New York show that he is a well-known anarchist.

Addie Roberts, while in the hay loft of her father's home in Franklin, fell to the ground below upon a pitchfork and was instantly killed. One of the times passed directly through her heart another passed through her breast and still another through her breast.

The Michigan Condensed Milk company has purchased a four-acre factory site at Howell and will commence at once the erection of their big plant. The main building will be 144 by 63 feet, two stories and basement, with boiler rooms 44 by 44 feet. It will cost \$25,000.

Everett Emerson, a young married man working in Fulmum & Roberts' mill at Traverse City was standing by a rapidly revolving wheel with a piece of gas pipe in his hand, which accidentally became caught in the spokes of the wheel and was driven into his head through the right eye. He lived but a few hours.

William Ribble, a boarding house keeper at Saginaw, has a fascinating young man staying at his house named John Roach. Entertaining the suspicion that Roach was too intimate with Mrs. Ribble, the husband opened fire with a revolver. As a result Ribble is under arrest, and the boarder is unhurt but badly frightened.

BAY CITY BADLY BURNED.

Over \$1,500,000 Worth of Residence and Business Property Destroyed.

At least 200 families—600 people—were made homeless and \$1,500,000 worth of property was destroyed by the biggest conflagration in the history of the city.

The entire disaster commenced from a small spark in Miller & Turner's saw mill yard. A heavy wind was blowing and the flames rapidly spread from one pile of lumber to another and in two minutes the entire dock and yard was ablaze.

The wind carried a cyclone of order and burning debris across the street among a row of frame dwellings. In 15 minutes four blocks were a vast furnace.

The entire fire department had been called out but it was unable to cope with the terrible combination of wind and fire. Assistance was called from West Bay City, Saginaw and Flint.

The ladies would no sooner lay a hose line than they would be surrounded by fire and flames. The fire continued to work back from the river crossing first one street and then another until 30 blocks of mills, stores and dwellings were a mass of charred, smoking ruins.

Over 200 dwellings were burned, two churches, four hotels, 40 stores, but it was unable to cope with the terrible combination of wind and fire. Assistance was called from West Bay City, Saginaw and Flint.

15 KILLED IN A MINE.

Terrible Explosion in a Pennsylvania Colliery.

The York Farm colliery at Pottsville, Pa., has been the scene of a terrible catastrophe. Two men had just fired a battery in the second lift of shaft No. 1 when there was a strong rush of gas and a run of coal.

One of the men immediately left to inform the fire boss in compliance with the strict rules. This act saved his life, as a minute later the gas, which had penetrated the entire breast, was ignited by a defective safety lamp and a terrific roar followed which shook the earth for half a mile. Men 600 yards away were thrown from their feet and workers in distant parts of the mine were stunned.

By May D. Blosser.  
A Grand Trip.  
Arrangements have been completed whereby Ann Arbor, Jackson, Charlotte and other communities of knights travel will journey to the triennial convocation at Denver, Aug. 9 to 13, together.

There seems to be a great scarcity of water in many of the cities and consumers have to be careful how they use it.  
Calhoun county grange has adopted the following resolution: "Resolved, That we consider the practice of merchants in advertising on our fences and shade trees an unmitigated nuisance and we believe that dealers who practice the same are pecuniarily to merit our support."

Thursday afternoon a well known educator of Michigan was in the Michigan Central passenger station in this city by a friend, who, on seeing the collector exclaimed: "Why, how do you do professor?" Taking the proffered hand of his friend the instructor responded: "Please call me anything but professor; that title, nowadays, belongs to the trainers of monkeys and other animals, also by inmates who make balloon ascensions and there is no honor in the title; therefore, in addressing me please do not call me by that most abused name."

The Jackson Citizen of July 23, says: The Citizen takes great pleasure in announcing that the friends of Hon. Clarence H. Bennett, got only in Jackson but many parts of Michigan, have determined to put him forward as a candidate for governor on the democratic ticket. This news has come to the Citizen with unmistakable distinctness and as there is no other democratic nomination, it remains for the Citizen to herald this announcement to the public, it is greatly pleased to do so. It cannot be disputed that Col. Bennett is a high caliber campaigner in Michigan and he has earned it by hard, efficient campaign work in the past, to which of course must be added that grace of manner and confidence and courage for short trips wherever he is known. While it is true that would oppose the election of any nominee against John T. Rich, the Citizen is glad to see any friend of Jackson honored by attention for an important place. We believe in standing by Jackson every time.

Circuit court will open again next Monday.  
The annual catalogue of the Brooklyn public schools has been issued.  
The officers say that Jackson saloons must be closed on Sundays. They mean front doors, back doors and all.

Frank Jones complain of the driver of the fire department running his horses out on practicing. He has been told to love the love for the horses, but they object to the race raised in consequence.

E. B. Clark of Jackson watered the street car track last Friday evening when a car suddenly backed up, smearing the carriage but fortunately neither he nor his horse were injured.  
F. R. Gales of Grass Lake has a huge old apple tree which he was advised to cut down as it yielded but very little fruit and that of an indifferent quality. A little experimenting was tried on the orchard.

Washburn County.  
Abo Archer, a well known horse breeder and the first steamboat owner in Detroit. He came west in 1838. Four children survive him: F. Austin Scott, president of Burger's College; J. W. Scott, N. J. Erard, H. wife of Charles Carter, of Honolulu, Sandwich Islands.

The democratic county convention to elect delegates to the state convention will be held in the court house on Wednesday, Aug. 10. The state convention will be held in Grand Rapids Aug. 12. It is expected that much interest will be taken in the county convention.

"THE ROCKY MOUNTAIN LIMITED,"  
The Great Train Daily between  
The World's Fair City and the Rockies.

One Night Out of One Day Out. Take  
Two Days Out of One Day Out.  
and the People Must Have It.

The popularity of the "Great Rocky Mountain Limited" as a Colorado line—it has been given a long time since takes first place as the people's favorite between the lakes and the mountains—has compelled the management to increase its present schedule by the addition of a train that is one night on the road from Chicago to Denver, Colorado Springs and Pueblo. This train will be known as the "Rocky Mountain Limited," and will be put in service May 1st. Leaves Chicago daily at 10:45 a. m., arriving in above cities in the afternoon of next day, earlier than the other Colorado routes. The special equipment has been built for this train, with the travel, and best of all, there will be no extra charge. The route of this train is as follows: Chicago, Rock Island, Short Line, and a few of the large cities through which it passes are Des Moines, Des Moines, Omaha, Omaha, Lincoln, Beatrice, Fairbury, Belleville, Phillipsburg, South Center, Colby and Goodland. This makes it a very desirable city of interest, with the popularity of its dining car service on the increase, and no money spared to make this service what our patrons always say, "the best."

Our No. 11 will leave as heretofore at 6 p. m. for Kansas City as well as other places mentioned above. From personal experience, having visited all those places, we can assure our friends and all others who desire it, that the above route will be their very best. The expense of the trip taken. Although the weather is likely to be very hot here, in the mountains it is delightful.

At Wolf Lake.  
Upon the kind invitation of Mr. & Mrs. C. H. Miller, hostess of Midway, we were invited to attend a dancing party at Wolf Lake, giving several young people of this village drive to that pleasant resort on Friday and returned Saturday.

The drive was warm but enjoyed, and on arriving at Wolf Lake we were greeted by Mr. Miller, Sr., who after having taken care of our horses, we went on board and were soon upon the lake which for years has enjoyed the reputation of being a splendid fishing ground and one of the best in Michigan. The fishing was good, and the scenery was very beautiful. The boat was very comfortable and the crew was very attentive. We were very much pleased with the trip and will be glad to return again.

FOR SCIENCE.  
Although it was known George
