### Henry Chapman, of Marquette, held a hog by the ears while his brother was going to shoot it.

The bullet entered the wrong being, as Henry got it into his shoulder. It took nine shots to kill the hog.

### A PIPE AND POWDER.

Two Men Blown to Pieces by Their Own Careless Smoking.

August Darnel and Alexander Bosh, miners employed at No. 2 shaft of the East Norrie mine at Ironwood, were killed by an explosion of giant powder. The body of one of the men was torn to pieces. It is impossible to tell what caused the explosion, as the powder was in a box in a room in which the men were working. The supposition is that they were sitting on the box smoking and that a spark from a pipe fell into the box igniting the powder. The bodies of the 10 men buried in the cave-in at No. 1 shaft at this mine Sept. 29 have all been taken out, with the exception of sandquist, a timberman, the search for which continues night and day.

## A DEMOCRAT VICTORY

### FAMOUS MINER LAW UPHOLD BY THE SUPREME COURT.

Of the United States, and Now the Presidential Electors Will be Selected by Districts—The Finding of the Michigan Supreme Court Confirmed.

The United States supreme court, by Chief Justice Fuller, affirmed the so judicially the Michigan supreme court, upholding the constitutionality of the famous Miner law, providing for the election of electors by congressional districts instead of by the state as a whole. The court holds that the fourteenth amendment did not limit the right of a state to fix a mode of choosing electors.

## AROUND THE STATE.

The fall duck shooting is exceptionally fine in Monroe county.

An Indian basket factory, employing 200 hands is to be moved to Pentwater.

It is very probable that a cotton and woolen mill will be built at Fort Gratiot in the near future.

### Warren Boree, a "trusty" from Hillsdale county, who had but 55 days to serve, escaped from the Jackson prison farm. He was partly demented.

Parson Arney has gone to Minnesota on a prospecting tour, having received offers of \$1,000 per year from churches in the vicinity of Duluth and Minneapolis.

### The Toronto World, whose editor and proprietor is W. F. MacLean, M. P., one of the Dominion government's strongest supporters, in an editorial published on the annexation movement says:

"Annexation can never be without strife. The great majority of Canadians are built that way. They will sooner fight than be a part of the United States. Not that they hate the United States, but they much prefer to be Canadians and of the British empire or at least not hostile to that mother country, and hostile to the mother country, they would have to become if they passed under the Yankee flag.

### Richard Johnson owned one of the best plantations in Monroe county and has always been looked upon by both black and white as an honorable, kindhearted man whose treatment of his black tenants and hired help since the war has caused him to be pointed out as an example by those who knew him. Not very long ago his daughter Johetta finished her course of study at an academy in Richmond, Va., and returned home a charming young lady of 18 to take her place as the head of her father's household, left vacant by the death of her mother. She was admired by all who knew her. The Negroes almost worshipped her. On the night of the murder the Negro farm hands, who live in the old slave quarters, were aroused by cries of help and a bright light shining through their windows. They rushed out half dressed to find their employer's home on fire. The neighbors were also attracted by the fire and hurried to the scene, but too late to be of service. They were horrified to see the body of Mr. Johnson lying in the door with his blood and brains oozing from a gash in the neck. The heat was so intense that the fire had burned itself out a search of the ruins revealed the horribly mutilated, charred remains of his daughter also. Murder was evident and a search was at once instituted for the criminal. Bloody clothes belonging to Moses Jones and Moses Johnson were found in their cabins and they were arrested as were James Packard and Sam Jones. Packard and Johnson confessed.

### The Chicago Millionaire Presents Chicago University with an Enormous Telescope.

Chicago is to have the largest and powerful telescope in the world. It is the gift of Charles T. Yerkes, the street railway magnate, to the Chicago University. The telescope is being made by Prof. S. W. Barnham, recently of Lick observatory, California, the present greatest astronomical establishment in existence, were the first to agitate the matter. Mr. Yerkes became interested and the information has been made public that he authorized them to build on earth, equipped with everything to make it the best. They were explicitly told not to mind the question of cost. Alvin G. Clark, the famous telescope maker, was telegraphed to and has already undertaken to cast the glass, which will be 44 inches in diameter, just 11 inches greater than the glass of Lick. If all goes well the glass will be turned on the lathe for the first time from the Chicago university in the autumn of 1893. The outlay which Mr. Yerkes will meet is estimated at a round half million dollars.

### Eleven Victims of a Mine Explosion.

An explosion of gas occurred in the Sterling Run colliery at Shamokin, Pa., on Monday, Nov. 11. The explosion, which killed 11 men, was caused by Samuel Collins, James Doney, John Bacavidge, were taken out of the mine dead. The remaining six are so badly mutilated and burned that they are all likely to die.

### Sam and Hunter Jones, colored, of Jackson, engaged in a quarrel over a horse. Hunter flashed a razor and carved his brother in a horrible manner, his face is cut open in several places. The father separated them or they would have fought until one of the other died.

An extensive car famine caused by the immense grain crop exists on Iowa railroads.

Forty thousand dollars' worth of fine horses were killed in a freight wreck near Dallas, Tex.

### A Blow Against Fusion.

In the district court at St. Paul, Minn., Judge Brill dismissed the mandamus proceedings brought by the Democrat state committee to compel Secretary of State Brown to group the fusion electors in a district away from the court had no jurisdiction. This decision is a blow to the fusion of the Democrats and Populists, as a man voting the straight Democrat ticket will vote for five electors, the four candidates not being placed in the Democrat column.

### Consul General Domingo Ruiz, of Ecuador, is in jail in New York on a charge of forging two notes for \$1,000 each. A woman is said to be responsible for his downfall.

The will of the late Geo. Fowler, a very wealthy provision packer and merchant of Liverpool, England, and Kansas, contains bequests of \$63,000 to the Salvation Army and \$43,000 to other charities.

### Large herds of cattle near Council Bluffs, Ia., are afflicted with some strange unknown disease, which is taking them off quite rapidly. The cattle appear to be mad, froth at the mouth, paw the earth, and dash at each other and at persons who come near them.

## CIVIL WAR COMING.

The Toronto World, whose editor and proprietor is W. F. MacLean, M. P., one of the Dominion government's strongest supporters, in an editorial published on the annexation movement says: "Annexation can never be without strife. The great majority of Canadians are built that way. They will sooner fight than be a part of the United States. ### At a meeting of the business committee of the state fair at Lansing it was decided to at once pay 30 per cent of the premium awards this year. This will exhaust the funds on hand, but it is hoped that the necessary balance will be forthcoming within a short time. The committee is in favor of giving an exhibition next year notwithstanding the World's Fair.

## A JUST LYNCHING.

### FOUR NEGROES KILLED FOR THEIR AWFUL CRIMES.

Kill Their Aged Employer, Outrage and Murder His Beautiful Young Daughter and Burn the House The Perpetrator's Feat of a Venturesome Athlete.

Moses Johnson, aged 17, James Paucker, aged 19, Samuel Jones, aged 23, and Moses Jones, aged 18, were taken from the jail at Montgomery, Ala., by a band of masked men and lynched for the murder of Richard T. Johnson and his daughter Johetta, who were found hacked to pieces and badly burned at Davis Ferry, in Monroe county.

## ENGLAND AND SILVER.

Hon. Robt. Lincoln's Ideas on the British View of the Monetary Question. Hon. Robt. T. Lincoln, United States minister to the court of St. James, London, is home until after election. When seen in New York City by a correspondent he was questioned regarding the feeling in England as to the forthcoming monetary question. Mr. Lincoln was rather disinclined to talk for publication, but at length said: "It is impossible for me to answer any questions or express any opinion regarding English political matters. My position deprives me of any freedom which other persons may have to do so. There is a very important question in England as to the matter of exchange, but I can properly speak about, except the forthcoming international monetary congress, in the arranging for which I had some share."

"The question whether England should favor an increased use of silver in the currency of the world is not a party question in England, I feel that there is a reasonable prospect of a sufficient departure by England from its hitherto strict monometallic basis to give great hope of practical success being taken by the congress for the inadequate use of silver and for their adoption by a sufficient number of the important powers. Personally I am a believer in bi-metallicism on some basis to be approved by the concurrence of those most able to consider the subject, because I think that with gold alone as the standard international currency is inadequate and likely to become more so in consequence of the action of the Austro-Hungarian Empire. But I should personally deplore any attempt of the United States alone to adopt free coinage of silver without the assistance of those European nations whose aid is essential."

### 60,000 Acres More to be Opened.

A special dispatch from Washington gives the following piece of good news for those who desire houses on state lands in the upper peninsula: Acting Commissioner Stone, of the United States land office has rejected the application of the Bruce River Railroad Co. to select 60,000 acres of land in the upper peninsula of Michigan and directs the register and receiver at Marquette to receive entries thereto. This action will be good news to settlers, as it relieves from suspension a large number of homestead and other entries and applications which have been pending before the land office for selections by the company are in process of adjustment.

### "The Strike is Lost."

The Local News, a Homestead, Pa., paper, created a sensation by coming out with a lengthy editorial, that the strike is lost. This same paper was, during the inception of the wage struggle, an organ for the locked-out men, and the premium awards published statements in its columns. This issue was, therefore, unexpected, and caused much comment. Many strikers are angry and are stopping their subscriptions, but that Editor Schooley's article was submitted to several prominent locked-out men, and was admitted correct, before publication, is a fact.
