Light Vote Polled.

The Republicans of Michigan elected their state ticket in the spring election

—Judge Joseph B. Moore, of Lapeer,
being chosen as justice of the state supreme court by a plurality of over 58,000. The vote throughout the state was very light more so than usual in spring elections, in many sections less than half the normal vote being east The general apathy did not appear in any one vicinity or party, but was quite universal. The Republican can-didates for regents of Michigan University-Messrs. Butterfield and Hackley—were elected by about the same pluralities as Judge Moore.

amendment show that it has been defeated by a decisive majority, in many sections of the state aggregating fully two-thirds of the total vote cast.

There were a number of special local contests in various cities and counties.

In Wayne county the proposition to bond the county for \$1.500,000 for the erection of a new county building met with evident favor with the voters. In Detroit over 16,000 electors out of the 23,000 voting took enough interest in the project to vote upon it, and the proposition carried by a big majority, although the county vote was prin-

Milnes Defeated Todd in the Third.
Probably the contest in the Third congressional district—to choose a successor to the chair in congress made vacant by sending Hon. J. C.
