has Washington: The state depar in Turkey has received a cablegram from Mr. sing next Denby, U. S. minister to China, stating that the island of Formosa has declared her independence, that the ussacre is powers have been so notified, and that re of the assacre is assacre is a government, republican in form, has been established in Formosa. This adea new complication to the situation in the east. Before this government can recognize the Formosan independence it must be shown that a provisional government which can stand has been organized. There are great numbers of Japanese in Formosa, and it remains to be seen what consected the road of the states recognizes formosa as belonging to Japan, and no matter what may be the form of government which the organized, a recognition of independence it of the island would be distinctly an unfriendly act toward Japan. The idea of a republican form of government being formed in Formosa is treated with some derision at the department. The population of Formosa is composed of savages, reclaimed savages and Chinese immigrants of the lowest classes, and would not know what a republican form of government.

Mr. Taylor contracted chronic diarrhoea from, which he has suffered now over 50 years, with absolutely no help from physicians. By nature he was a wonderfully vigorous man. Had he not been his disease and the experiments of the doctors had killed him long ago. Laudanum was the only thing which afforded him relief. He had terrible headaches, his nerves were shattered, he could not sleep an hour a day on an average, and he was reduced to a skeleton. A year ago, he and his wife sought relief in a change of climate and removed to Geneva, Ohio; but the change in health came not. Finally on change in health came not. Finally on the recommendation of F. J. Hoffner, the leading druggist of Geneva; who was cognizant of similar cases which Pink Pilis had cured, Mr. Taylor was persuaded to try a box. "As a drowning man grasps a straw-so I took the pills," says Mr. Taylor, "but with no more hope of rescue. But after thirty years of suffering and fruitless search for relief I at last found it in Dr. Williams' Pink Pills. The day after I took the first pills I commenced to feel better and when I had taken the first box I was in fact a new main." That was two months ago. Mr. Taylor has since taken more of the pills and his progress is steady and he has the utmost confidence in them: He had regained full control of his nerves and sleeps as well as in his youth. Color is coming back to his parched veins and he is gaining fiesh and strength rapidly. He is now able to do considerable outdoor-work.

While the subject of good roads is be se most interested in the subject ar doing their best to make bad roads worse by using narrow tires on over our mud roads on these narrov tired wagons and deep ruts cut into them, that in wet weather make them almost, and sometimes entirely, impassable. I have a sortiof a pity for a man who urges his team along a muddy road, all the time grumbling about the badness of it, when he might reduce the labor of his team from oneand to the great saying of team and temper. It is to be hoped that the first legislation looking to the improvement of the roads of the country will be in the way of encouraging the use of wide tires, for one narrow-tired wagon will do more damage than a dozen with wide tires if the roads are at all soft. No one disputes the philosophy of wide tires, and no one seems to have any good reason to offer why they should not be used. Our farmers simply fol low precedent and go on using narrow Lumbermen and freighters wide tires almost universally and save money by doing so, but it seems that ners do not care to economize in direction. The condition of our roads costs us more than any other single item of waste in this country, and the common use of wide tires would reduce this waste of energy to a large extent.—American Farmer and

Do you know what it is to have a back that is never free from aches and donastant pain, a lame back, a so note back, an aching back, in fact, a back that makes your life a burden? What have you done for it? And does it still keep you from the happiness that perfect health brings to all? We know full well if such is your condition a cure for it will be a blessing you no doubt desire. Plasters won't do it, but may assist in bringing strength. Limiment won't do it; for, while it may give temporary relief, it does not reach the cause. The cause, there's the point; there's where to make the attack. Most backaches come to make the attack of the first fattal fascination. Chess is a kind of mental alcohol. It inebrates the man who plays it constantly. KLEPTOMANIACS IN SOCIETY.

of Thioring in High Life that Are Interesting if True "I don't suppose you have any kleptomaniacs in society in Washington." said a New York dowager at the capital the other night at dinner, "but we have them in New York. The last great hall went to with my daughter we wore very handsome seal akin wraps. Arfor them were handed out and my daughter put them between her teeth for a moment while she was adjusting a portion of her dress. She had occasion to speak to me and so dropped the checks on the floor, and we were about to hurry off to the ball room. I was de-termined, however, not to lose our wraps and so sent for a friend who was one of the reception committee, and we went into the cloak-room, where I identified the sealskin wraps and got fresh checks for them. At the close of the ball, when we went for them, the man in charge told me that Mrs. Blank, one of the ultra-fashionable women of the four Hundred, had presented the lost checks and insisted upon my sealskin wraps being delivered to her. When she was informed of what had the reception committee to the cloak room, she worked herself into a fine frenzy and walked off indignantly.
Upon another occasion, at one of the great weddings, quite a dramatic scene occurred. The bridal presents were all ostentationaly displayed to excite the envy and gratify the curiosity of the guests. A detective in plain clothes was in the room. He saw a well-known beautifully dressed woman go up to the table and begin admiring and com

The late Governor Throckmorton The late Governor Infocumorton, of Texas, was quite as famous at the bar as in politics. One of his most notable cases was the defense of a man named Bomar, who was accused of murde Mr. Throckmorton soon discovered that the evidence against his client was too strong to be overcome by any plea ex-cept that of self-defense, but almost any other lawyer would have been non-plussed by the discovery that the man whom Bomar killed, was in his shirt sleeves at the time, and that no one had seen him with a weapon exposed. Mr. seen him with a weapon exposed. Mr. Throckmorton gave no sign of discouragement when these facts were brought out, but at the proper juncture of affairs he suddenly pulled off his coat and waistcoat, and, turning around so that the jury could see every side of him, inquired, whether, in their judgment, he was armed or not. The answer in the negative was unanimous. With a knowing smile, Mr. Throckmor-With a knowing smile, Mr. Throckmor-ton proceeded to draw from under his left arm one pistol, another from under his right arm, one from each of his boots, and finally a huge bowie-knife from under his shirt at the back of the neck. As he laid the weapons in a row on the table, he said, "You see, gentle-men, although in my shirt sleeves, it was not safe to consider me unarmed.
