The present membership in the state was reported as 8,397; value of buildings, \$346,000. The state committee is in debt \$271, and \$4,500 is wanted for the coming year's work. At the meeting over \$1,000 was raised.

Three Children Burned to Death. Theodore Rose, a farmer near Lam-bertville, left his home for his daily work. Shortly afterwards his wife berville, lett his nome for his daity work. Shortly afterwards his wife locked up the house to go and visit her mother who lived some 40 rods distant, leaving her three little children alone. While they were talking the mother looked out of the window and to her horsor discovered her home in flames. The poor woman ran as fast as she could to save her children but when she arrived the house was a mass of flame with the roof falling in. Neighbors and other were attracted to the scene but owing to the intense heat nothing could be done to save the little ones. The parents were distracted and had to be restrained from forcing their way into the burning building. The youngest child was only 9 months old and the eldest but 5 years.

What Uncle Sam Thinks of It.

Washington: Intense interest centered in the dispatches showing the demonstrative feelings existing in Spain against the Americaus regarding the Cuban question, and the statement that the government is increasing its naval force. No surprise was expressed at demonstrations which have occurred, in fact What Uncle Sam Thinks of It. is increasing its naval force. No surprise was expressed at demonstrations which have occurred, in fact such were expected. The whole matter is regarded simply as that of mob violence of which the Spanish government has not in any manner been responsible. As the case now stands nothing has happened that cannot be easily and readily adjusted by the aneans aiways at the disposal of diplomacy, and that too in a manuer that will leave no stain upon the Honor of either of the parties to this affair. Hon. Herbert Bowen, U. S. consulgeneral at Barcelona, is believed to be a very good official to have in this troublesome place at this time. He has the reputation of being a man of sound discretion and excellent judgment, cool and well prepared to face an emergency with great stability of character and plenty of nerve. Mr. Lodge, of Massachusetts, said:

The news from Span is grave. for it shows that the Spanish people and the Spanish editors utterly fail to comprhend the situation here. They forcet to comprhend the situation here. Fourteen of Dr. Jameson's closest followers had to answer the same charge. Dr. Jameson's entrance to the court was a signal for a remarkable scene. Evidently everyone in the court room was of one mind in sympathizing with him. All were his friends, and all rose and uncovered upon his appearance, giving him hearty cheers. It was in vain that the court officers sought to quell the demonstration. It was evident that, although he was on trial as a criminal, he is in the popular eye a hero and his raid into the Transvaal, far from being viewed as a piratical enterprise, is looked upon as a chivalrous and knightly adventure to succor hard-pressed friends and fellow-countrymen.

The excited crowd was not intimidated by this show of force from gathering before the consulate and shorting "Long live Spain," and "Down with the Yankees." These verbal missiles did not long satisfy the aroused passions of the mob and in a short time stones began flying from the crowd which broke a number of windows in the consulate. The force of police waited for no further manifestation but charged the crowd again and again before they succeeded in clearing the streets of the rioters. Being driven away from the U. S. consulate, the crowd marched to the prefecture of police and gathered at the newspaper offices. There they listened to more oratory and got themselves worked up to the highest pitch of enthusiasm and patriotic spirit. The military club in the city was also the center of excitement and there also glowing speeches were included in to the honor of the army, which were eagerly listened to and greeted with loud cheers.

The preparations of the government are not all of a peaceful character, however. It is significant that the minister of marine, Admiral Jose Maria Berlenger, has issued orders of the training squadron to be prepared to sail. It is regarded as probable that this squadron will proceed shortly to Cuba. It has also probable that this squadron will proceed shortly to Cuba. It has also been ordered that all other warships available be forthwith armed and equipped and put into condition for active service. In addition to this about 50 merchant isteamers, available to rehe government service, will be provided with naval armaments. For the military branch of the service a fresh expedition of 20,000 infantry and 5,000 cavalry will be equipped and put on a war footing, and will be kept in readiness to leave on the shortest notice. Some of the organs of public opinion declare that the bankruptcy of the Spanish government would not prevent the Spanish people from taking up the Spanish people from taking up the quarrel on their own account, and fitting out expeditions and maintaining themselves at their own expense while combating the insolence of the assertions of the description. of the assertions of the United States. There seems to have been a notable increase, of excitement and patriotic ardor among the people since the news of the senate's action was first made known. The Spanish authorities seem to have felt apprehensions of the form the people's wrath might take and provided special safeguards for the suppression of disorders, and especially for the protection of any official representative of the U.S. government.

FOR GOOD ROADS

Enthusiastic Convention Held at Lan-sing and was Well Attended. Barcelona. Spain: The action of the U. S. Senate in recognizing the provisional government of Cuba as beligerents and in calling upon President Cleveland to use his good offices with Spain to secure the independence of Cuba resulted in such an outbreak of indignation that mob violence resulted in street and the U. S. consulate was atomed by the maddened populace.

A public meeting attended by 15,000 people present was held to protest against interference by the United States and the speeches were of such character as to arouse the crowd to a high pitch of patriotic frenzy and at the close of meeting the spirit of the Cunited States consulate. The leaders of the meeting seemed to realize the serious consequences that might follow upon a demonstration that took this direction and they made every effort to dissuade the mob from its purpose. But their utmost efforts were of no avail. The authorities of the city had, by this time, taken alarm and a force of police was sent to the consulate. The excited crowd was not the expense of improving the roads. The state convention for the discussion of means to secure better country roads throughout Michigan was held at Lansing at the call of Gov. Rich, upon the recommendation of the as New York and Massachusetts is that the state should bear one-third of the expense of improving the roads, and he expressed the opinion that Michigan is far behind other states in

aroused passions of the mob and in a short time stones began flying from the crowd which broke a number of windows in the consulate. The force of police waited for no further manifestation but charged the crowd again and again before they succeeded in clearing the streets of the rioters. Being driven away from the U. S. consulate, the crowd marched to the prefecture of police and gathered at the newspaper offices. There they listened to more oratory and got themselves worked up to the highest pitch of enthusiasm and patriotic spirit. The military club in the city was also the center of excitement and there also glowing speeches were indulged in to the honor of the army, which were eagerly listened to and greeted with loud cheers.

The preparations of the government are not all of a peaceful character, however. It is significant that the minister of marine, Admiral Jose Marla Berlenger, has issued orders for the training squadron to be probable that this squadron will proceed shortly to Cuba. It has also been ordered that all other warships available be forthwith armed and equipped and put into condition, for active service. BEVIEW OF TRADE.

In some quarters business gains at the west rather than at the east, but there is no general change for the better, although hopefulness still predominates. The want of summent demand for the products of great industries at ill retards actual improvement. Strikes of some importance in garment making and kindred, lines air a trade in Chicago and Haitmore, but there are fewer into rdifficulties than usual, as existing conditions ware wage carners that controversies at this time are unwise.
