A Kansas man has patented a rain-making machine. He will proceed next to organize a company and turn a lot of watered stock on the market.

Columbus showed the Spaniards' trick with an egg, but if he were alive today they would pick it up and throw it away like discarded America.

In Kentucky a dinner-broar was mistaken for Gabriel's feast. The result was that one hour down there, however, nobody ever makes a mistake about.

A great bill will be introduced in the General Assembly. The bill will prohibit the farming out of convicts and will provide that their work shall be done in the prisons.

Evidence in relation to the Venezuelan boundary dispute is beginning to appear upon the commission. The original documents, maps and records collected by the commission appointed by President Cleveland are being forwarded to Washington, where they are expected to arrive in a week or so.

This statement is not true. The price paid for skim-milk by the milk-creamers has been as high as 15 or 16, while nobody ever makes a mistake about.

EDITOR, ENTERPRISE:—I am glad to read the note of "Home" of Friday, from Manchester. He appears to call the rock bass the small mouth and the caught a "pile" of weight of rock bass, but no small mouths and we caught no pile but one pickered but one heavier than 12 pounds. He must have taken the Sharon mill-pond but I think not.

THE CLINTON ELECTION.

The Clinton election called between trustees has been settled. David Woodard, the corporation candidate, filed his resignation on the 24th and deposited necessary \$10, but when John E. Bird, candidate for James Fitzerald, the law and order candidate, raised the question that the statute under which the notice was given was unconstitutional, the election was postponed.

TALMAGEN'S SERMON.

DIVINE ILLUSTRATION OF THE NEWS-PAPER, HIS SUBJECT.
A Fair Statement of the Conditions That Surround Newspaper—The Average Daily or Weekly Paper is an Instrument for Great Good.

AS A SHINGTON, March 22, 1896.
"Newspaper Row," as it is called here in Washington, the long row of offices on a street with prominent, gables throughout the land, pays so much attention to Dr. Talmage's words that they are glad to hear a subject of this kind.

What is a preacher to do when he finds two texts equally good and suggestive? In that perplexity I take the "Wheel" of the newspaper printing press. Other wheels are blind. They roll on and pull up or crush down the people.

The course of procedure is about this: The lawyer can afford to be scientific or political or religious. He has no money of his own—literary men seldom have. But he talks of his ideas among confidential friends and they start one, he has stock in one he must know what does.

THE SUNDAY SCHOOL.

LESSON XIII, MARCH 29—A REVIEW OF EVENTS.
Golden Text: "Whoever shall confess Me before Men, I will confess him before My Father who is in Heaven."—Matt. 10:32.

HERE should be a review, definite, but brief review of the third year of the work of the Sunday school. The scholars should be reviewed thoroughly in the past year, and the results should be given on the chart printed here.

IOWA WOMEN.

A new kind of reciprocity is about to be put into effect by seventy-five Iowa women, representing about a dozen towns in different parts of the state.

A bureau has been established for the interchange of thought on all topics, the headquarters of which are at Cedar Rapids, the organization being an offshoot from the Iowa Federation of Women's Clubs.

The reciprocity element consists in the interchange of lectures, talks, readings and manuscripts, and judging from the circular issued by the bureau, the Iowa women are not destined to remain in ignorance of any conceivable subject.

Seventy-five women have prepared a total of 100 lectures, talks, readings and manuscripts, which they are prepared to lend to women's clubs thirsting for information.

These various documents range over every branch of thought, embracing such subjects as "Arabian Caravan Routes," "Women in Politics," "The Benefactors of Arryan Civilization," and "What We Teach Our Daughters."

The seventy-five women are divided into half a dozen groups. Three of them, who have probably been more abundantly blessed with this worldly goods than the others, will visit clubs and read their respective papers, free of expense. The other three will probably have a busy season.

Next to these three free lecturers come a group of twelve, who will read their manuscripts on demand. Several members of this group are from "Cotton Rapids," and they will read their "Women in Politics" (15 minutes), "The Kindergarten for Mothers" (15 minutes), and "The Ideal Home" (15 minutes).

It will be noticed that in Cedar Rapids it takes fifteen minutes to do justice to woman in politics, while the Ideal home is polished off in exactly six minutes. The next group includes a goodly number of women who will lend their manuscripts or it suitably urged, will go in person to read their productions.

Payment of expenses is considered to be sufficient urging. The next group, consisting of smaller, will not lend their manuscripts, but will read them, expenses paid. Next comes a small group of women who will read any one of a dozen papers, anywhere in the state of Iowa, for the sum of \$25.
