Alpheus Felch passed quietly tway at his home at Ann Arbor after a engthy illness at the age of 92 years Alpheus Felch was born born in 1804 n Limerick, Me., and came to Michiga in 1833, settling at Monroe. He at once took an active part in the public affairs of the territory. He was chosen a member of the first tegislature in 1835, and was re-elected in 1836 and 1837. As a legislator he rendered signal service in laying the foundation for Michigan's statehood. In 1838, he Michigan's statehood. In 1838 he served as one of the state bank com-missioners. A brief service as auditor-general in 1842 was followed by his ap-pointment, as judge of the state su-preme court. In 1885 he was elected preme court. In 1885 he was elected governor and served in that position until he resigned to enter the U. S. senate March 4, 1847. His term closed March 3, 1853. He was soon after called upon by the President of the United States to discharge the duties of a most important and delicate position in adjusting Spanish and Mexican land claims in California. His duties completed he exturned

ican land claims in California. His duties completed he returned to Michigan in 1856 and made his bome at Ann Arder. Being a Democrat in politics the accerdancy of the Republican party in Michigan relegated Mr. Felch to private life; he was nominated for governor for U.S. senator and twise for judge of the supreme court, but was defeated each fine. In 1873 he resind from the of the supreme court, but was defeated each time. In 1873 he refired from the active practice of law. In 1877 the honorary degree of LL. D. was conferred upon him by the University of Michigan, and in 1879 he was appointed Tappan professor of law, which chair he held for six years. His last speech in public was at the banquet given him at Ann arbor by the Washtenaw barin, september, 1894, in honor of his 90th birthday. Prominent lawyers were present from all over this state and from either states, and the speech of the occasion was that by Gov. Felch.

Nagging Profuse Bosses. "The way some men are managed is queer sometimes." the manager of a big concern remarked to an acquaintance who had dropped into the office, according to the New York Herald. "I have never had any difficulty in managing men and getting the proper amount of work out of them, and I think I have some executive ability, but I doubt whether I could manage a of workmen on the river front and I think that if I were a workman I would not be managed as I have seen men managed. I happened to be near one of the dry docks during the shifting of an old propeller from the dock to the shore. It wasn't what any one ould call an expert job, but if you had seen and heard the foreman of the gang of workmen you would have thought he was moving a battleship. The propeller had been removed from the hull in the dock and a new one was to be put in its place. Planks had placed over the space between the dock and the shore and all that the men had to do besides pulling was to be careful that the propeller shouldn't roll off into the water. They had strong tackle and long rollers, and after they had stretched and fastened the tackle it was an easy job. The foreman directed every movement and the way he bossed the men was amazing, but they didn't seem to mind it. Swear? Well, you ought to have heard him or perhaps you ought not to have heard him. If anything slipped a little bit he swore and if something didn't move just right he swore. He would tell one man to do something and an instant afterward he would undo it swearing all the while. Finally, they moved the mass of iron o the ends of the planks and began to oull it up the incline. The foreman acted as if he were in hot water all the time, and it was a wonder that he didn't fall overboard. Some of the men went ashore and hauled on the tackle, and two of them attended to the rollers. The thing was heavy and it had to be moved slowly. 'Pull there! 'ell you doing? Going to sleep? Hold on! Now! Pull! Once more! Hold on! What's the matter with yer? Hold fast, I say! Here, you, shift that roller! Not that way Gimme that! Now! Easy! Once more! TRUE SOURCE OF VITALITY. Reporter's Interesting Interview With a Lady of Seventy-two Years, Who Tells

a Marvelous Story.

From the Union, Port Jervis, N. Y. But a short time ago, in a distant part of the country, we heard of a cure by the use of Dr. Williams' Pink Pills, which seemed almost marvelous and more recently another substantial evidence of their value reached our ears. Being of an inquiring turn of mind, and wishing to know just how much there was in the story, a reporter was sent to interview the person said to be thus benefited. If the marrative as it had reached our ears was true, it was only simple justice to let it be known—if it proved untrue, it would be well to know it.

The person alluded to above as having been thus greatly benefited by the use of Pink Pills is Mrs. Jane Hotalen, of Hainesville, N. J., a pleasant hamlet in Sussex County, about fifteen miles from this office. The reporter had no difficulty in finding Mrs. Hotalen. She is a pleasant-faced old lady, looking to be sixty-five, but is in reality seventy-two years of age. After a few preliminary remarks in explanation of the call she was asked if she had any objection to giving us the details of the case and how she came to try this now famous remedy.

"Not at all," said she. "If my experiments."

now she came to try this now famous remedy.

Not at all," said she. "If my experience can be of any good to others, I am sure they are welcome to it—it can do me no harm."

"When were you taken sick and what was the nature of the malady?"

"It was about two years ago. The trouble was rheumatic in character—sciatics, they called it—and it was very painful indeed. The difficulty began in my hip and extended the whole length painful indeed. The difficulty began in my hip and extended the whole length of the limb, crippling me completely. I suffered intensely from it, and the ordinary treatment gave me not the slightest alleviation. I was under treatment about a month as stated, but grew worse instead of better, and was fast becoming discouraged."

"What brought Pink Pills to your notice?"

"My son called my attention to an article in a paper, in which it was stated that a Mr. Struble, of Branchville, a village in this county, had been greatly benefited by their use, and suggested that it would be a good plan to try. them. But I was skeptical in regard to their value—in fact, I had no confidence in their efficacy, and rather laughed at the suggestion. But, the trouble increased and I was badly crippled. A few days later my son was about to visit a neighboring town and suggested again that it might be well to try this much-talked-of remedy, and I then consented. He bought-me a box of them, and I began taking them at once. At the end of a week I noted a marked improvement, and by the time I had taken the first box I was able to walk without a cane. I continued their use, taking several boxes, and am, as you see, in a very comfortable state of health."

"Have you had any return of the trouble?"

health."
"Have you had any return of the trouble?"
"Not as yet, though at my time of life, seventy-two, it would not be surprising if I should have. If it comes I should at once begin the use of the pills. I suppose I inherit a tendency to troubles of this kind—my mother died from them."
"Did you ever note any ill effects from the use of Pink Pills?"
"None whatever. They never disturbed my stomach in any way or caused me any annoyance. I am able, as you see, to attend to my own work. The reporter thanked Mrs. Hotalen for her courtesy and bade her goodday. It is not often that one can witness such a complete recovery from such a perinacious trouble at such an advanced age, and such instances cannot fail to produce a profound impression. Readers of the Union may rely on the absolute accuracy of all the statements here given — nothing has been exaggerated, nothing withheld.

(Trom the Grand Ravids Press.) The following incident would be hard to believe if it had not occurred right here in Grand Rapids, and investigation by our representative has placed it beyond the reach of doubt. These are the facts in detail: Mr. J. H. White of No. 25 Haifley Place, has been an instructor in pennan-ship in different business colleges for the ship in different business colleges for the nast fourteen years. He says: "Last October I was suddenly taken ill. I consulted a physician, who said the pain was from 'gravel' stones; gradually grew worre; the pain was in my back and side. My back swelled up in a great ridge, and I finally grew so bad that I was taken to bed, as helpless as a child. I passed olood, and when the pain was at its worst I was like one crazy. The doctor injected morphine to give me relief, but further than that he said he was powerless, and aothing would do me any good burs surgical operation. I believe my flesh was gical operation. I believe my flesh was iterally cooked in the attempts to relieve my agony, everything was used, mustard blasters, turpentine, hot cloths and all olasters, turpentine, hot cloths and all such things. I was in this condition, given up by the doctor, and almost out of my mind with suffering. I commenced taking Doan's Kidney Pills, and really I felt easier in 20 minutes. After about two hours I had a passage of urine, and passed blood and some 'gravel' stones which greatly relieved me. I rapidly improved. I took in all six boxes, and I feel to day entirely well. Mine has been a wonderful case.
