**Father and Son Sentenced to Life Im-
prisonment and Another Man Gets
Two Years for a Murder at Gladwin**
—Ionia Man Sent Up for Life.

Three to Expunge a Dastardly Murder.
The murderers of Curtis Wright, who
was shot down at his own home near
Gladwin, have finally been brought to
justice. Roy Nunn, aged 17, and his
father, Benjamin Nunn, were sentenced
to life imprisonment at Jackson. George
Martell, accessory after the fact, received two years. When
sentenced was pronounced, Benjamin
Nunn broke down and wept, but Roy
maintained his usual indifference.

The murder was committed on the
night of July 10. But feeling had ex-
isted between the Nunn and Wright
families for some time, and Roy, who
made two different confessions, charged
that his father concocted the crime,
but he fired the fatal shot. After-
ward he alleged that his father did the
firing. The old man strenuously de-
nied his guilt and there are many who
think he has received a severe dose.
Martell confessed that he tried to
shield the boy after the crime, but de-
nied being directly concerned in it.

Murder in the First Degree.
The trial of Wesley Bennett for the
murder of Moses Walker, near Ionia,
resulted in a verdict of murder in the
first degree. There was a murmur
over the court room, but neither Ben-
nett nor his two sisters flinched in the
least. The convicted murderer was
then ordered into the custody of the
sheriff. He coolly kissed his sisters
and was led to jail to await sentence.
The row which resulted in Walker's
death was caused by Lydia Vivian,
Walker's niece, who was engaged to
marry Bennett. A sort of feud existed
between Walker and Bennett and on
the day of the tragedy Bennett drove
up to Walker's to see the Lydia Vivian,
but the uncle came out and hurled a
stone at Bennett, who pulled a revolver
and fired two bullets into him. Ben-
nett had boasted many times that he
had just as soon "butcher Walker as a
hog."
Later—Bennett has been sentenced
to life imprisonment.

An Important Decision.
The last legislature changed the
time for selling lands delinquent for
taxes, from the first Monday in May to
the first Tuesday in December, and re-
enacted the old law providing that the
sale shall continue from day to day
until so much of each parcel shall be
sold as shall be sufficient to pay the
amount due. In engraving the bill
the clerk inserted the word "not,"
making it read that the sale
shall continue "from day to day,"
in this shape the bill was ap-
proved. Atty-Gen. Maynard has filed
an opinion in which he holds that the
word "not" is to be disregarded, as re-
sulting to the clear and unmistakable
intent of the legislature.

Deer Hunters in Plenty.
There are fewer deer hunters than
usual in Marquette county. License
fees have been increased, and it is said
deputies away from the county seat
have been charging exorbitant fees for
making affidavits. In other northern
counties there are more hunters than
ever. Secretary of State Gardner has
received orders from five northern
counties asking for additional license
blanks. The Dickinson county clerk
has already sold 25 non-resident li-
censes at \$25 each and wired for 25
more blanks. This year the state will
receive a part of the license fees in-
stead of it all being "pocketed by the
county clerks."

Kalamazoo County Negro in Great Luck
Abraham Johnson, a colored man of
Charleston, Kalamazoo county, who
couched up a valuable pear-shaped
pearl as large as a bean recently, has
received word that he is heir to prop-
erty on the east coast of Maryland,
composed entirely of oyster beds worth
\$60,000. Before Johnson came to Mich-
igan, 20 years ago, he was employed
by a man named Harris, who owned
these oyster beds. Johnson was a
great favorite with Harris, who had
no blood relatives living. Johnson has
gone to Maryland to prove his claim.

Wants His Rights.
James Pendill, of Marquette, a son-
in-law of Justice Grant, of the supreme
court, has asked Atty-Gen. Maynard
to file an information against the Lake
Superior & Ishpeming Railway Co.,
with the view of having its franchise
forfeited for non-compliance with the
statute in not running passenger
trains. Pendill says he contributed
considerable property with the under-
standing that they would run passen-
ger trains.

A Fatal Fall—End Collision.
The Houghton passenger train ran
into an eastbound freight on the
South Shore line at Browniding,
one mile west of Champion. Wm. H.
Greene, the oldest engineer on the
line, was fatally injured, his fireman
escaping by jumping. No passengers
were injured.

The office of deputy collector of cus-
toms at Saginaw will probably be con-
solidated with that at Bay City.

his home at Dowagiac at 9 p. m., and
\$65 in cash and valuables were taken.

Mrs. David Roysden, living near
Three Oaks, was fatally injured in a
runaway accident. An infant child
was seriously injured and two other
children were frightfully bruised.

The Lansing Typographical union
has changed its scale, so as to provide
for a nine-hour work day for job and
book printers, after July 1, 1898. No
change is made in the wage scale.

Albert E. Cowles, ex-judge of prob-
ate, has formed a law partnership at
Lansing with Lewis M. Miller, chief
clerk of the house of representatives,
and compiler of the Michigan statutes.

The survey of the main line of the
new electric railroad from Kalamazoo
to Battle Creek is nearly completed,
and the survey of the loop from
Augusta to Gull lake has been started.

A rejected lover of Miss Christina
Martinussen, of Battle Creek, threw a
stone at young man who was walking
with her. The stone struck the girl
on the head and she is seriously in-
jured.

James O'Neill and son was awakened
at Owosso, by part of the roof of the
house falling in. Then they discovered
that the building was on fire. A few

The biggest logging contract yet
closed for the season is that of cutting
17,000,000 feet of pine on Ford river by
Capt. Martin Golden and his nephew,
William Golden, of Menominee, for
Utley & Douglass, the big lumber and
saw firm of Manistee.

The Exchange bank at Grayling has
closed its doors, with liabilities of \$30,-
000 and practically no assets. Cashier
Staley has disappeared, evidently tak-
ing about \$25,000 with him. The loss
falls heavily upon working people who
were the principal depositors.

The balance in the state treasury
Nov. 1 was \$872,489. Of this total,
\$678,432 was in the primary school in-
terest fund, and \$630,000 of this amount
will be distributed among the various
counties of the state on the basis of 90
cents for every child of school age.

The troubles of the Benton Harbor
& Eastern electric railway, which has
been tied up in the courts since July
17, were settled by the court setting
aside all injunctions and previous or-
ders and placing the affairs in the
hands of the officers of the company.

Jas. Burgess, of Paw Paw, pleaded
guilty to having violated the law and
was fined \$65, or 40 days in jail. Mart
Strong, of South Haven, pleaded guilty
in two similar cases pending against him.
In the first case he was fined
\$110 or 60 days in jail. Both paid their
fines.

Ex-Congressman Stephenson, of Me-
nominee, has purchased from the D.
S. N. & A. railway, 2,000 acres of pine
land on the line of the C. M. & St. P.
road near Amasa and tributary to Nott
river. It is estimated that the tract
contains between 3,000,000 and 5,000,-
000 feet of excellent pine.

John Niedling, a shoemaker, aged 53,
who has a shop and lives at 622 An-
toine street, Detroit, was fatally shot
while he lay in bed asleep. The ball
entered his breast some distance below
the right shoulder and penetrated the
right lung. The motive for the affair
is a mystery, as no robbery was at-
tempted.

On Halloween marauders tore boards
from a fence on the east side of Lincoln
avenue, near Eighth street, Bay City,
and Frank Ziegelmeyer, president of
the Monitor Coal Company, who lives
near, accidentally stepped on a nail in a

**Gen. Weyler Threatened With Court-
martial—Spain Tells Uncle Sam that
She'll do as She Pleases with Cuba**
—President of Brazil Shot At.

Spain Will Courtmartial Weyler.
Madrid: At a meeting of the Spanish
cabinet it was decided to demand an
explanation from Gen. Weyler of the
remarks he made in his farewell ad-
dress on leaving Havana, and if he con-
firms the press reports he will be court-
martialled. The words attributed to
Gen. Weyler are, in part, as follows:

"My release from my post and respon-
sibilities did not surprise me. I had ex-
pected it from the death of Senor Can-
ovas, not believing that any political
leader would be strong enough to sus-
tain me when the United States and
the rebels were together constantly
demanding that Spain should come to
a settlement."

Havana: The steamer Monserrat, on
which Gen. Weyler sailed for Spain,
reached Gibara on the northwest coast
of Cuba with her engines disabled, and
may be compelled to return to Havana,
in which case it is likely that there
will be interesting developments.

England and France Having Trouble.
The situation between Great Britain
and France, as viewed in England, is
decidedly serious, and a conflict be-
tween the troops of the two countries
in West Africa is daily expected. Lord
Salisbury has taken a decided stand,
ordering the British troops to hold the
territory belonging to the United
Kingdom at all hazards, and has ad-
dressed a decidedly tart note to the
French government on the subject.

The English press is wrathful at the
abandonment of the Nile expedition,
and denounce the ministry for not re-
capturing the Sudan and vindicating
Gordon. An explanation of the hesita-
tion of the government in carrying
forward its Egyptian campaign is given
in the statement that it has neither
money nor men for the undertaking.

The Donas are Real Sassy to Uncle Sam.
Madrid: The Spanish cabinet has de-
cided to reply to the United States mi-
nister's acknowledgment of receipt of
the Spanish note in reply to the repre-
sentations of the United States on the
subject of Cuba, declaring in guarded
terms that, in reference to granting
autonomy to Cuba, Spain will do what
she deems fit. It is also understood
that the Spanish government is deter-
mined in the case of the American
schooner Competitor, captured in
Cuban waters in April, 1896, to main-
tain that the Spanish officers acted
correctly in making the capture of the
Competitor and that the protocol of
1877, under the terms of which the
United States demanded the release of
the Competitor crew, solely referred to
American citizens residing in Cuba.

Canadians to Talk Seals With Uncle Sam.
Sir Wilfred Laurier, premier of Can-
ada, and Sir Louis Davies, Canadian
minister of marine and fisheries, will
go to Washington at once to take part
in the Bering Sea negotiations. They
will be prepared to discuss the ques-
tion from a much broader standpoint
than any thus far conceded in London.
The state department at Washington
is much pleased over the proposed
visit, as it is felt to offer the first
prospect of considering the sealing ques-
tion on broader lines than heretofore.

**Outlaw: Sir Louis Davies, said that
it is quite possible that Sir Wilfred
Laurier and himself may discuss the
question of reciprocity when they are
at Washington. The alien labor law
may also come up for consideration.**

An Aerial Battleship for Cuba.
Lieut. Kungel, an ex-officer of the
German army who lives in Hoboken,
N. Y., thinks he has invented a suc-
cessful air battleship. The affair is a
combination of balloon, flying ma-
chine, steam locomotive and bomb
thrower. It has the power to raise
itself from the ground, and is so con-
structed that after raising up it can be
lowered again by the action of the en-
gines without allowing the gas to es-
cape. Every part of the ship is dis-
posed of aluminum. Should the ship
drop into the sea it would float. The
inventor believes that the ship which
has been constructed would free Cuba in
the space of a week. He would use it
to drop bombs in the midst of Spanish
strongholds and on Spanish warships.

Attempt to Kill the President of Brazil.
Rio Janeiro: A soldier of the Tenth
battalion, which constitutes part of
the local garrison, attempted to shoot
President Moraes with a pistol. The
president was just landing at the ma-
rine arsenal after visiting the steamer
on which Gen. Barbosa, minister of
marine, had returned from Bahia. By-
standers frustrated the attempt, but
in disarming the soldier Gen. Betan-
court, minister of war, was fatally
stabbed, while Col. Moraes, the presi-
dent's nephew, was slightly wounded.

Miss Frances E. Willard was again
elected president of the National
W. C. T. U. at the Buffalo convention.

The yellow fever situation in New
Orleans has not improved after the
cold wave as was expected and the
board of health is much disappointed.
The daily average of new cases is 40
and of deaths, seven.

Senator Edward O. Wolcott, of Col-
orado, and Gen. Chas. J. Paine, two of
the monetary commissioners appointed
by President McKinley to confer with
European governments concerning the
feasibility of international bimetalism
have returned, but decline to discuss
the failure of their mission. Ex-Vice-
President Stevenson, the other com-
missioner, will return later.

IT'S A BIG SUCCESS.

The Sugar Beet Growing Experiments
in the United States.

The report of the secretary of agri-
culture is unusually important this
year because of the efforts Secretary
Wilson has been making to increase
the exports of agricultural products
and still further stimulate the cultiva-
tion of sugar beets. He has a firm con-
viction that the people of the United
States can provide their own sugar,
without being dependent upon Cuba or
any foreign country for their supplies.
The production of cane sugar must al-
ways be limited, but the capacity of
the United States for the production
of beet sugar is practically unlimited;
and with the object of ascertaining the
most favorable localities for its growth
Secretary Wilson distributed seven tons
of imported sugar-beet seeds among
22,000 farmers in 27 states. The re-
turns have been far beyond his most
sanguine expectations, and to his grati-
fication the most favorable results
have been obtained from those sections
of the United States where new indus-
tries were demanded for the farmer
and where the manufacture of beets
into sugar can be accomplished with
the greatest economy as to labor and
transportation.
