Mitchell's Kidney Plasters, Aches and pains in the kidneys, restores them to a healthy condition. They are sold every where. They are not sold until they are used. MITCHELL'S KIDNEY PLASTERS.

TWEEN THE LAKES.

MICHIGAN NEWS BRIEFLY TOLD FOR MICHIGANDERS.

Gov. Pingree Wins His Suit to Compel Railroads to Sell Family Mileage Books at 2 Cents per Mile - Triple Railroad Fatality at Saginaw.

Pingree Wins a Notable Victory. Gov. Pingree has won the first round of his fight with the Michigan Central Railroad Co. on the question of \$20 mileage books, good for the family of the purchaser. In the governor's suit to compel the company to sell such books, Judge Donovan, of the Wayne circuit court, confirms the position taken by Gov. Pingree and grants a mandamus to compel the railroads to comply with the mileage law of the legislature.

In his decision Judge Donovan discusses the case at length. In answer to the plea of the railroad company that the right to fix charges was given to the company by the charter, he indorses the contention of the complainant that the charter only gave the right to fix rates by bylaws, and that such bylaws must come under the police power, as with hackmen, millers, liquor dealers and others doing public business.

By the word of the highest court in like cases in Iowa, Wisconsin, Illinois and Michigan, the conclusion is irresistible that only such charges can be collected as are allowed by the laws of the state.

A Similar Case Against the Railroad. Grove Wolcott, a prominent lawyer of Jackson sought to purchase a 1,000-mile ticket at the Jackson ticket office, for good for himself and wife, he tendering \$20 in payment. He was informed that no such tickets were for sale. Mr. Wolcott then bought and paid full price for a regular ticket to Roscommon, and on his return brought suit against the Michigan Central railroad to test the state law. The case was tried before Justice Woods and has resulted in a verdict for Wolcott, who was awarded \$2.25, the difference in the cost of the ticket he purchased and the rate at 2 cents a mile. The Michigan Central will appeal.

Three Killed by a Train at Saginaw. Three persons met a sudden and violent death and a fourth was seriously injured while crossing the Michigan Central railroad tracks in a sleigh at Sheridan-avenue, Saginaw. The dead are: Thomas M. Stewart, a groceryman; Mrs. Elizabeth Mossner, aged 70, of Frankenthuth; Barbara Mossner, aged 25, of Frankenthuth. The fourth occupant of the sleigh, Mrs. Elizabeth Mahoney, also a daughter of Mrs. Mossner, had her right leg broken in three places, and probably received internal injuries.

A passenger train from the east, running at a rapid speed, struck the sleigh as it was fairly on the track, cutting it loose from the horse, leaving the animal to run down the street unattended. The sleigh was broken into kindling wood. Stewart was on his way to his store from delivering goods, and the three women had seated themselves in the sleigh for a ride towards home, not over 50 feet from the scene of the accident. Two boys stood near by and saw the rig slowly approaching the tracks and the rapidly moving train bearing down upon it. They shouted several times but the driver did not catch the warnings. The four were laughing as the sleigh and its occupants were sent whirling through the air.

Gov. Pingree Jolts the Dairyman. Gov. Pingree addressed the annual convention of the Michigan Dairyman's association at the Michigan Hotel. The clergy students were present in force and listened to the speech when they were not yelling, and the governor gave them several good points to yell about. He bore down in his characteristic style upon railroads and monopolies and seemed to take particular occasion to get in a number of roasts on Senator Campbell, the state senator of the Ypsilanti district, who was sitting directly in front of the governor taking it all in.

The dairyman discussed matters of interest and importance to themselves and elected officers. President, E. A. Haven, of Bloomington; secretary and treasurer, S. J. Wilson, of Flint.

Sugar Beets a Success in Michigan. A bulletin giving the results of experiments in the raising of sugar beets in Michigan has been prepared by Prof. Kizzie and Smith of the Michigan Agricultural college. Seed was distributed in 68 counties and samples of beets have been received from 64. The average per cent of sugar in beets, with proper soil and seed, is 16.40. The range of yields per acre last year was from 12 to 18 tons. The professors say that the results show that the climatic and soil conditions in Michigan are full of promise. The labor cost of growing an acre of sugar beets on the college farm, under adverse conditions was \$29.40. The average yield per acre at the college farm was 10 tons and 328 pounds.

Bay City's New Industries. Hundreds of men are applying to the United Alkali Co. at Bay City for work. Every applicant has to furnish recommendations from prominent men, when, if satisfactory he is placed on the waiting roll. Married men are given preference, and no boys will be hired. The survey for the main building shows that it is to be 850 by 125 feet, two stories high. There will be several other large buildings erected later. Contracts have been let for the best sugar factory at Bay City. It is to be 274 feet long, 118 feet wide and three stories high.

County Supervisors Want Some Reforms.

Delegates from 16 counties gathered at Lansing in response to a call by the Ingham county supervisors for a convention to consider the advisability of taking concerted action toward securing the revision or repeal of certain laws, the provisions of which are the cause of needless expense to taxpayers. A large range of subjects was discussed. Ex-Mayor Lawton T. Hemans, of Mason, who has made a study of county expenses, addressed the delegates, calling attention to the alarming manner in which expenses have increased during recent years, this increase being out of all proportion to that of wealth or population. He attributed it all to the fee system and urged its abolition.

The legislative committee was instructed to endeavor to secure the following reforms from the next legislature: Taxation of property of railroads and other corporations the same as other property; repeal of law for collection of farm statistics; that supervisors pay expert witnesses in indigent cases in lieu of statutory witness fees; that mileage of officials be reduced from 10 to 6 cents a mile; reduction of number of justice and constables in cities and townships; that instead of fees; salaries for county officers, all fees to go into county treasury; that three-fourths of a jury constitute a verdict in civil cases; making road commissioners subject to direction of supervisors as to the expenditure of money, the roads to be repaired and the material used; also that the property adjacent to roads improved be required to pay a portion of the expenses on the basis of benefits received; repeal of sparrow bounty law; that circuit court jurors be summoned by registered letters to their places of residence; that the law allowing extra pay to prosecuting attorneys in drain cases, that the law be amended so as to make it compulsory for assessors to swear each property owner as to his possessions. In case of failure to induce the next legislature to abolish the fee system in justice courts, it was decided that an endeavor be made to have the laws amended so that the prosecution of drunks and disorders in cities and villages be made under the respective charters.

A permanent organization was effected to be known as the State Association of Supervisors. The principal objects are the discussion of matters relating to charges and expenses, and securing a uniform practice of assessment. Each county board may send two or more delegates to the annual meetings. The following officers were elected for the ensuing year: President, John W. Ewing, Grand Lodge; vice-presidents, Emmett L. Beach, of Saginaw, and W. H. Smith, of Grass Lake; secretary, Frank L. Dodge, Lansing; treasurer, Asa I. Barber, Mason.

Ex-Gov. Rich for Collector at Detroit. Ex-Gov. John T. Rich has been tendered the collectorship of the port of Detroit, and has accepted the place. There are many politics behind this simple statement. State Senator Wm. T. Thompson, of Detroit, was for two months the leading candidate for the position, but the fight of the Pingree element against the re-election of Senator Burrows necessitated a different arrangement. Ex-State Senator McLaughlin was talked of for the office, but the plan really hung between Mr. Rich and George L. Maltz. It happened that ex-Gov. Rich and Albert Pack were the most promising men to be placed against Senator Burrows when he comes up for re-election, and it is also true that Mr. Maltz is the father-in-law of Mr. Pack. It does not require an extra shrewd politician to see that if Senators McMillan and Burrows secured the appointment of Mr. Rich that it would completely sidetrack his ambition to the senatorship and he could not then well oppose Senator Burrows. It is also surmised that Senator McMillan saw that if Senator Burrows was turned down by the next legislature that his (McMillan's) chances for a similar dose might be multiplied by the precedent established. It is believed Senator McMillan thought that Rich would be the more dangerous senatorial candidate of the party, and consequently a more powerful ally after his appointment, and so the odds were in his favor.

MICHIGAN NEWS-ITEMS. Test shafts have revealed deposits of anthracite coal about Saginaw. O'Brien & Coleman, of Marshall, have shipped 24 cars of baled hay to England. The Big Four railroad will erect a large new roundhouse at Benton Harbor. The G. R. & I. railroad earned \$17,426 more last month than in January last year. Charles White, temporarily insane, committed suicide at Sterling by taking carbolic acid. Mrs. Katherine Murphy, the oldest resident of Berrien county, died at St. Joseph, aged 102 years. The Owosso-Corunna electric railway and Caledonia electric lighting plant have been consolidated, with \$150,000 capital.

The large town hall at Saginaw, owned by S. R. Hoebler, was burned to the ground together with a feed mill and a large amount of grain. Paw Paw people are talking of aiding the railroad company to the extent of \$10,000 in widening the road to Hartford and in building an elevator and stockyards at Paw Paw. While workmen were engaged in harvesting ice on Clear lake, north of Niles, a valuable team of horses broke through and were drowned, and Lewis Emmons had a narrow escape.

Willie Herman, aged 14, was run over and killed on the Ann Arbor track at West Okemos. He attempted to catch an incoming freight train, was thrown under the wheels and his body horribly mangled.

A boiler explosion destroyed Ed Gilliam's saw, elder and feed mill at Melville, and Melvin Seigfried and Richard Stevens were badly injured.

New Michigan postmasters: Prestel, Clare county, William McWath; Sagola, Dickinson county, John O'Callaghan; Sears, Osceola county, Wm. J. Manley; Imlay City, Geo. W. Jones; Hancock, George W. Emery.

A head-on collision occurred between two F. & P. M. freight trains at Wings, a small station near Ewart. Both engines were derailed, as well as two freight cars, but no one was injured, as the trains were moving slowly.

William Carr started from a camp to see his sick wife at Seney. His father-in-law, going to meet him found his frozen body only a mile from town. He had lost his way in a storm. His wife gave birth to twins only a few days ago.

According to a new law, every township board must soon publish an itemized statement of the amount of money in the township fund, the amount raised during the year and how raised, together with a minute statement as to how each cent was spent.

Michigan's output of lumber in 1897 was 2,333,674,349 feet and shingles, 1,284,372,250. Michigan, Wisconsin and Minnesota produced 6,233,454,000 feet of lumber and 2,360,771,000 feet of shingles. Michigan produced 168,685,000 feet of hardwood lumber in 1897.

The Wheeler & Co. shipyard at Bay City has started up again. A few non-union men were put to work riveting. The next day the striking strikers placed a cordon of pickets about the yards and induced the non-union men to stay away. This closed the yards again, and a long strike is now probable.

A company has been organized at Port Huron for the purpose of operating a trading and mining company in the Klondike district, Alaska. The company is capitalized at \$100,000, and will conduct a general store, operate a sawmill and do prospecting. A force of men will be sent out the last of this month.

Mrs. Ida L. Johnston, 495 Hastings street, Detroit, accidentally shot and killed herself. She was dusting a table upon which lay a revolver, when the duster caught the trigger, and in pulling it away the weapon was discharged. The bullet entered just below the breast bone and passed through the heart, causing instant death.

A 10-year-old daughter of John Bowkles was shot at a German wedding which was being celebrated at the Bowkles home near Benton Harbor. The ball entered the breast near the heart and a warrant was issued charging the doctor with using insulting language in the presence of ladies.

The doctor was taken to Owosso under arrest and was fined \$24.50. Railroad Commissioner Wesselius figures that, under Judge Donovan's decision that the Michigan Central is amenable to the legislature of the state, the taxes of the Michigan Central main line, the only one effected thereby, will be \$35,000 greater for 1897 than if computed under the old system, the decision bringing the main line under the operation of the Merriman law.

Francis Elizabeth Bagley, widow of the late Gov. John J. Bagley, of Michigan, died at Colorado Springs, Col., of appendicitis. The news of Mrs. Bagley's death came with startling suddenness to her numerous friends in Detroit and Michigan. Few of whom knew she was ill. A little over a year ago Mrs. Bagley went to Colorado with her daughter Helen, whose health was failing.

Miss Belle Weaver, an almost blind deaf mute, was burned to death in a fire which destroyed the home of her uncle, Elias Worden, near Clio. The girl's mother and uncle, the only other occupants, escaped. The fire started very mysteriously. Joseph Lewis, an aged farmer, is in jail for refusing to support Miss Weaver's illegitimate child, of which she alleges, he is the father.

The Upper Peninsula Teachers' Association convention was held at Marquette and a program was carried out with papers by J. T. Edwards, of Marquette, Wis.; E. E. Ferguson, of Marquette, Wis.; R. Hardy, of Ishpeming; L. L. Wright, of Ironwood, was elected president, and Miss Anna M. Chandler, of Marquette, vice-president. The meeting was a great success, nearly the whole membership of the association attending.

Darius Eddy, aged 79, slipped while shoveling snow off a roof at Saginaw. He broke two ribs and suffered other injuries, which may prove fatal. John Dykema, a well-to-do farmer three miles north of Sangautuck, lost his house, barn and all outbuildings by fire, saving only his stock, two wagons and a few pieces of furniture. It is supposed the fire was started by a tramp. The heat of the barn, first on fire, broke the windows of the house and the dense smoke from the hay filled the place so that it was impossible to save any furniture. Loss, \$5,000; insurance, \$750.

St. John's Catholic church at Carrollton, valued at \$15,000, was destroyed by fire. The people are poor, and say they can never get another church.

AFFAIRS IN GENERAL.

BRIEF MENTION OF EVENTS OF INTEREST.

Lawless Characters Causing a Reign of Terror at Skaguay and Dyea - Canadian Authorities Refuse to Allow U. S. Troops to Take Relief to Dawson.

Serious Rioting Feared at Skaguay. Senator Wilson, of Washington, called at the war department and urged that action be taken by the military arm of the government to preserve order at Dyea and Skaguay, Alaska, especially at the latter place, where fears are entertained that trouble will ensue with the arrival of more gold seekers.

Senator Wilson has letters and telegrams giving the conditions, and saying that unless there is something done looking to a government of those places there will be serious difficulties. It is claimed that the Alaskan ports are now thronged with the worst elements of this country and Canada, as well as of Europe, and that there is no way of governing the lawless element except by the military. Lawlessness and crime are breaking out even now, there being practically no method of enforcing the laws. When the rush of the thousands is on in full the situation will be far worse. It is estimated that 250,000 people will pass through the two towns this year, a large number criminals and adventurers.

Double Murder at Skaguay. A double murder occurred at Skaguay, Alaska. Deputy U. S. Marshal Mount Vernon, Wash., and Andrew McGrath, of Concord, Ont., were shot and killed in a Jake Rice's variety theater by Ed Fay, a bartender. Fay will be tried by a committee of 12 persons and there is no doubt that if found guilty Fay will be hanged. The theater has been closed by the citizens. The murder had a sad sequel in the death of Rowen's wife and child, which was born a short time previous to the murder of his father. Rowen was on his way to obtain medical assistance for his wife when the shooting occurred.

Narrow Escape of Five Men. Five men started to return over the ice from their work on the Cleveland waterworks crib, which is five miles out in the lake. When about a mile from land they discovered that they were on a detached iceflow which was being blown out into the lake. Their cries and frantic waving of coats attracted the attention of skaters near the shore who telephoned for the fire-boat Cleveland. The latter crushed her way through the heavy ice and rescued the men.

China Will Not Take a Loan. A Pekin correspondent says that it is now understood that China has given up the idea of securing a loan from either Great Britain or Russia owing to their jealousy of each other. China will endeavor to obtain an extension of time for the payment of the Japanese war indemnity, and in the meantime will authorize an issue of treasury bonds at 5 per cent to the extent of 700,000,000 taels (\$73,000,000). Chinese bonds have not the very best reputation, however.

Reindeer and Drivers for Alaska. A cablegram received at the war department from Dr. Jackson, at Alton, Norway, announced that the steamship Manitoban, chartered by Lieut. Devore for the government, had just sailed from that port for New York with 530 reindeer and 87 Lapp men and women to care for the animals, and drive them on the government relief expedition when they arrive in Alaska.

U. S. A. Relief Party Can't go to Klondike. The Canadian government has advised the Washington authorities that the proposed expedition to be sent to Dawson City by the United States war department for the relief of miners cannot be accompanied by any armed body. The Canadian government will escort the expedition over Canadian territory with an escort of 50 mounted police, and United States officials can remain in charge of the expedition.

The Lake Shore Swallowed Up. The deal by which the Lake Shore railroad is absorbed by the New York Central railroad has been completed. The directors of the Central were unanimous for the purchase of the Lake Shore. The Central directors authorized an issue of \$100,000,000 of 100-year 3 1/2 per cent collateral gold bonds of which stock the Lake Shore has \$49,466,600.

Cubans Hang a Peace Messenger. Cuban insurgents entered the town of Artemisa, province of Pinar del Rio, and plundered several stores. The governor of Pinar del Rio, Sen. Jose Mendez Diaz, as an emissary to the insurgent leader, Perico Diaz, with proposals of peace and surrender. The insurgents hanged him near a railway opening, with the governor's letter on his body.

NEWSP CONDENSATIONS. The U. S. cruiser Montgomery is at Matanzas, Cuba. Spanish military operations in Cuba continue almost paralyzed, the season most favorable for movements against the insurgents thus being lost. A Montana cowboy named "Doc" Tanner was summarily hanged by a party on their way over the Chitwood pass, for the murder of two companions. The Tippecanoe club, the aristocratic political club of Cleveland, threatened to expel Mayor McKisson, Senator Burke, Speaker Mason, and Rep. Bragley for their opposition to Senator Hanna, but an injunction has been secured to prevent the action and the courts will get a chance at the trouble.

CUBAN MATTERS WARMING UP.

Another Note Sent to Spain and a Vigorous Reply Received.

Madrid: El Herald says that Gen. Steewart L. Woodford, the United States minister presented an official note to the Spanish government, to which Premier Sagasta responded in vigorous terms.

The Madrid correspondent of the London Standard says: "Senator Sagasta's response to the official note presented by Gen. Woodford, the United States minister, complains of filibustering expeditions and declares that Spain cannot entertain the suggestion for fixing a date for her completion of the pacification of Cuba. Pessimistic impressions are now current regarding the relations between Spain and the United States and have depressed the Madrid and Barcelona bourses. Public feeling among all classes is strong against America."

A Washington special says: Premier Sagasta has declined the third offer of friendly mediation on the part of the United States. This information was conveyed in a cipher message received from Minister Woodford by President McKinley. The message was a most unusual one. Instead of being addressed to the secretary of state, it was addressed to the President. This cablegram from Woodford was not long, but recited the fact that Premier Sagasta refused to admit that Spain had reached the end of her rope in Cuba; that she was unable to suppress the insurrection; that autonomy was a failure; or that she needed the assistance of the United States in bringing the Cuban struggle to an end.

De Lome Calls McKinley a Coward. The representatives of the Cuban Junta at New York have given out copies of a letter signed "Eugene Dupuy De Lome" who is minister of Spain at Washington and addressed to Jose Canalejas, who went to Cuba last September as Premier Sagasta's personal representative. In this letter the Spanish minister refers to President McKinley as a weak and "cowardly politician, who desires to stand well with the jingoes of his party." A Washington correspondent says that when a copy of the letter was shown to Minister De Lome he promptly pronounced it a forgery. On the other hand Horatio L. Rubens, counsel for the Cuban junta says: "We know absolutely that this letter is genuine. A man risked his life to obtain it. We do not hesitate to acknowledge that it is stolen from Canalejas. It is written on the paper of the legal signature is his. He may deny it until he is black in the face, but it is genuine and everybody who has seen it knows that it is."

Among congressmen and diplomats it was considered probable that should the letter be proven authentic it would result in a change of ministers.

Mob Threatened to Lynch Zola. The trial of M. Zola, the famous French novelist, for his denunciation of the government in the conduct of the Dreyfus case and the Estorhay case, resulted in serious rioting in which attempts were made to mob M. Zola. Count Esterhazy refused to appear in court, and the judges refused to force him to do so. They also declined to allow certain questions asked by the M. Zola's attorneys, M. Casimir-Perier, the former president of the republic, appeared as a witness, but before taking the oath said that he would not tell the truth. These points were all adverse to M. Zola who appealed that he be accorded at least a fair trial as an assassin would be given. At the close of the day Zola was surrounded by a howling mob who cried "Down with Zola," "Give him a bullet," and "Death to Zola." They attempted to seize him, but his friends, aided by the police, succeeded after half an hour's struggle in placing him in a carriage and getting him safely away.

MATTERS IN BRIEF. The big armored cruiser Brooklyn has started on her cruise of the West Indies. With very little ceremony the cornerstone was laid at Cleveland for a \$250,000 chamber of commerce. James Allison, aged 17, was hanged at Berlin, Ont., for the cold-blooded murder of Mrs. Anthony Orr, near Galt. A Tokio paper asserts that Russia has 60,000 troops at Vladivostok ready to take the field at a moment's notice. Capt. Lentze, in command of the Alert, has called the navy department that he has landed marines at San Juan del Sur, Nicaragua for the protection of the American consulate there, owing to the fact that a revolution has broken out.

The war rumors of the far east are being kept alive by the maneuvering of the Japanese fleet. It said that the Japanese refuse to evacuate Wei-Hai-Wei until the stipulated time even if the Chinese secure a loan and pay the indemnity due Japan.

Thomas J. Osborne, governor of Kansas, died at the commercial hotel, Meadville, Pa., his old home, while on a visit to Mrs. Margaret Richmond, whom he was to be married in April. Death came after a short illness from hemorrhage of the stomach.

A Madrid special says that the Sagasta cabinet has become disgusted with the autonomist Cuban ministry for not following a military policy and for not attempting to attack the insurgents. Great public anxiety exists in Madrid due to the evolutions of the American fleet and the presence of U. S. war vessels at Lisbon and in the vicinity of the Azores, in the route of Spanish steamers to Cuba, as well as at St. Thomas, near Porto Rico, at Matanzas and other Cuban ports. These movements are taken as clearly indicating to Spain that the American government is preparing for an emergency.

DOINGS OF CONGRESS.

A Paragraphic Chronicle of the Acts of the Nation's Lawmakers.

The fortifications bill as reported to the House provides for the extensive system of seacoast defenses now in course of completion. It carries \$4,144,912, as against estimates made by the war department of \$13,378,571. Congressman Wm. Alden Smith, of Michigan, says that Senator Hanna has agreed to help him secure a modification of the treaty of 1817, so that warships could be built on the lakes. He also says that he has received encouragement from the administration, Secretary of the Navy Long being particularly enthusiastic over the idea.

The Hawaiian annexation treaty was the subject of a four-hour speech by Senator Teller. He said he would be glad to have the debate in open rather than in executive session, and added that it was his opinion that the time had come when the question of annexation should be debated upon a bill looking to legislation by both houses of congress rather than upon the basis of the treaty. In speaking of the restoration of annexation Mr. Teller said that he did not believe that it would necessitate a big fight for the protection of Hawaii as the strong fortification of Pearl Harbor would be sufficient.

Senator Mason, of Illinois, has presented the following red-hot Cuban resolution to the Senate: "Resolved, That the President of the United States be, and he is hereby requested to notify Spain and the insurgents of Cuba that the war (so-called) must at once cease and be discontinued, and that the United States of America hereby declare and will maintain peace on the Island of Cuba." The resolution was preceded by a preamble which set forth the terrible condition of affairs in Cuba; the inhuman deeds of the Spaniards, the sufferings of the Cuban women and children, the ill-treatment of Americans at the hands of the Spaniards, and also quoted the Republican platform of the last campaign, which said in part, "we believe that the government of the United States should actively use its influence and good offices to restore peace and give independence to the Island of Cuba."

Six firemen, including a district chief, a captain and a lieutenant, were killed by falling walls during a fire at Boston.

Not content with barring American imports of fruits, meats and horses Prussia is now discriminating against American lumber.

Gen. Adams, of Minneapolis, has closed a deal for 25,000 acres of land in Texas on which it is proposed to colonize 1,000 families of G. A. R. men.

It is again announced that President McKinley is about to issue an order excusing from the provisions of the civil service law a large number of positions in the various departments, in order to gratify hungry office seekers.

Three men were burned to death and another received fatal injuries in a fire which burned the Victor, Colo., jail. Hundreds of persons witnessed the fire and heard the heart-piercing cries of the imprisoned wretches, but could not reach them in time.

It is now generally known at Havana that Capt. Gen. Blanco's peace mission to eastern Cuba has been a total failure as have also Gen. Pando's plans, military operations in the east being suspended during the dry season, the only time available for fighting the insurgents.

Later reports show that at least a score of persons were drowned and \$2,000,000 loss inflicted by the storm that swept over Eastern Massachusetts and Rhode Island. Wreckage is strewn up and down the coast from Cape Ann to Cape Cod. Thirty schooners were wrecked in Massachusetts bay. On land the loss by the storm seems to have been confined entirely to property. Twenty-four hours elapsed before direct telegraphic communication was restored between Boston and the rest of the world.

THE MARKETS. - LIVE STOCK. New York - Cattle, Sheep, Hogs. Best grades, \$3.05 to \$3.25; 41 to 45; Lower grades, 3.00 to 4.85; 3.50 to 4.10. MAN OF THE PEOPLE

THURSDAY, FEBRUARY 10, 1909.

The best thing a champion prize-fighter ever said: "I have nothing to say."

If the tramp is to be eradicated he must be compelled to work and continue to work on his own...

In 1850 the south had one-fifth of the population of the country...

A telephone operator in New York City was at Christmas the recipient of \$200 for five...

Worry wrecks more lives than work. An outgrowth of one of the most psychological whims of the time is a claim of "DOTT-Worry" clubs...

A city economist in a western university has just been struggling with the problem of why you spend ten thousand dollars...

The Kentucky Court of Appeals held, in the case of Vaughn v. Vaughn, that where the parties to an agreement have made a mistake in reducing their contract to writing...

Lincoln's Birthplace. The site of Lincoln's birthplace is a watered-down version of the original. The site is a watered-down version of the original...

The sufferings of the worthy reprobate in the eleventh chapter of the Epistle to the Hebrews included woe, distress, tribulation, and persecution...

A Tennessee man reported that he had seen a ghost with horns and green eyes and the nose was twenty-four hours old before a government revenue officer was knocking around in that locality looking for a moonshine distiller.

ONE OF LINCOLN'S STORIES.

The following anecdote by Lincoln is recorded by General Horace Porter...

"While President Lincoln was here, he has great respect for the people...

The closing years of this present century in American politics seem in some respects to unlike that unhappy period in England...

Lincoln was no faster than the plain people could follow. He never gave one of his brilliant talks...

Lincoln could not move until his people were ready to move with him. What profound leadership was in this leaning back against the people...

Lincoln's Inn. The inn was a building of the sixteenth century. It was a building of the sixteenth century...

Lincoln's First Home in Illinois. The house was a small, one-story building. It was a small, one-story building...

Lincoln's Birthplace. The site of Lincoln's birthplace is a watered-down version of the original. The site is a watered-down version of the original...

The success of the war hung upon this judicious leadership of the people. Lincoln's leadership was the key to the success of the war...

Lincoln in 1861. (Brody, Wash.) The scene was described as a great object lesson which touched the heart of every citizen and every soldier...

The success of the war hung upon this judicious leadership of the people. Lincoln's leadership was the key to the success of the war...

ST. VALENTINE'S DAY.

DAY OF rites and festivities was the 14th of February in the days of our fathers...

The young man's fancy lightly turns to thoughts of love. It was the time of year when the birds are mating and with the feathered world...

It keeps the Feet Warm and Dry. And is the only cure for Chills and Colds. It is the only cure for Chills and Colds...

For a Healthy Existence. That's Why the Liberator's Advice is so Popular. Nature has provided a certain amount of work for every organ of the human body...

For a Healthy Existence. That's Why the Liberator's Advice is so Popular. Nature has provided a certain amount of work for every organ of the human body...

For a Healthy Existence. That's Why the Liberator's Advice is so Popular. Nature has provided a certain amount of work for every organ of the human body...

For a Healthy Existence. That's Why the Liberator's Advice is so Popular. Nature has provided a certain amount of work for every organ of the human body...

For a Healthy Existence. That's Why the Liberator's Advice is so Popular. Nature has provided a certain amount of work for every organ of the human body...

For a Healthy Existence. That's Why the Liberator's Advice is so Popular. Nature has provided a certain amount of work for every organ of the human body...

For a Healthy Existence. That's Why the Liberator's Advice is so Popular. Nature has provided a certain amount of work for every organ of the human body...

For a Healthy Existence. That's Why the Liberator's Advice is so Popular. Nature has provided a certain amount of work for every organ of the human body...

Eruptions On the Face.

I was troubled with eruptions on my face. I tried many remedies but nothing helped...

Head's Sarasapilla. A good hair restorer in the hair's mouth and a good fit all in the head's eye...

OH, WHAT SPLENDID COFFEE. It keeps the Feet Warm and Dry. And is the only cure for Chills and Colds...

For a Healthy Existence. That's Why the Liberator's Advice is so Popular. Nature has provided a certain amount of work for every organ of the human body...

For a Healthy Existence. That's Why the Liberator's Advice is so Popular. Nature has provided a certain amount of work for every organ of the human body...
