IN OUR GREAT STATE.

THE HAPPENINGS IN MICHIGAN BRIEFLY RELATED.

The Thirty-fifth Regiment of Michigan Volunteers Organized at Camp Eaton and Getting Down to Soldier Life—More Recruits Needed.

Organizing the 35th Michigan Regiment. The newly organized 35th Michigan regiment now at Camp Eaton is made up as follows: A—Capt. Sands—Pentwater and Oceana, Mason and Muskegon counties. B—Capt. Buckingham—Sons of Veterans.

C—Capt. McCabe—Petoskey, Gaylord, Charlevoix and Harbor Springs. D—Capt. Haynes—Dundee. E—Capt. Prince—Alpena, Presque Isle and Montmorency.

F—Capt. Atkinson—Wyandotte and Port Huron. G—Capt. Simpson—Cass and Van Buren counties. H—Capt. Thorburn—Grand, Midland, St. Clair and Isabella counties.

I—Capt. Seranton—Manistique and the upper peninsula. K—Capt. Lockton—Calhoun, Eaton and Barry counties. L—Capt. Fleischauer—Reed City, Everett and Kalkaska.

M—Capt. Kimball—Livingston and Oakland counties. The drilling is more constant than in the preceding regiments, and the entire officers are showing the effects of it. These men who never shouldered a musket before are doing well. One of the noticeable characteristics of these recruits is that they are eager to learn. No matter how warm the day they never shirk the hard drill, and trouble is being experienced in keeping men back who are not accustomed to work under a scorching sun.

Col. Irish has become extremely popular with the men. Large Summer Resort Hotel Burned. The Hotel St. Joseph, at St. Joseph, owned by A. Crawford and J. Graham burned entailing a loss of \$130,000, with \$17,000 insurance. There were 40 guests in the house and all escaped, although many of them had very close calls, and were forced to leave the burning building clad in their night robes. Most of them lost their personal effects. J. B. Baker of Logansport, Ind., an employe of the hotel, was burned to death while assisting another man out. The fire originated in the bakery and within an hour the building was in ruins. It will not be rebuilt.

MICHIGAN NEWS ITEMS. The factory of R. Lamb burned at Clare. Loss \$2,000. Sarah Wright was struck by lightning near Carsonville, and she may die. Stewart Cummer, aged 16, was drowned while bathing in the lake at Cadillac.

Oriando C. Whittaker, of Co. M, has been appointed sergeant-major of the 35th Michigan regiment. Ira Muir's big barn near Birch Run was struck by lightning and burned. Loss \$1,000; no insurance.

Allen Walker, an old Atlas township, Genesee county, resident, fell from a wagon and was fatally injured. Twelve-year-old Mabel Young was shot in the knee by a gun set for burglars at Standish. She will lose her leg.

The big convention of the Young People's Society of Christian Endeavor at Nashville voted to come to Detroit in 1899.

O. C. Whitaker, of Detroit, a graduate of Orchard Lake academy, has been appointed sergeant-major of the 35th Michigan.

Several Ohio coal operators are prospecting for more coal lands about Saginaw and are leasing all the land they can.

Col. Frank J. Hecker, of Detroit, has been appointed and confirmed as quartermaster of volunteers with rank of colonel.

The war department has ordered Lieut. Seranton of the Michigan home, at Santiago, from Cuba to take the command of Co. L, 35th Michigan.

Lawrence Hammond, of Pawmaw, aged 17, visiting friends at Grand Rapids, was drowned in Ball Lake, seven miles northeast of the city, while bathing.

Prof. Mortimer E. Conley, of the U. of M. who was appointed engineer of the Yosemite, as past assistant engineer at the beginning of the war has been promoted to the grade of chief engineer.

Frost in July is an unusual occurrence in the lower peninsula of Michigan, but it can be recorded that our friend Jack "got in his work" in good shape in July in 1898. Many sections report damage to corn and vegetables in the lowlands.

While washing Mrs. Harry Lockwood of Battle Creek, put kerosene oil in boiling hot water on a gasoline stove. Gas was quickly generated and an explosion followed which covered Mrs. Lockwood with burning oil and she was fatally burned.

John Henry Franklin, the first Michigan volunteer to fall in the war in Cuba, was from Dimondale. He was 26 years of age and was one of the first to respond for the Sons of Veterans company, which was assigned to Co. L, 35th Michigan regiment. He leaves a daughter aged 17 years.

Co. A, 35th Michigan, received a surprise when Lieut. Dan Kinney, of Pentwater, was rejected because of his age. Alphonse Bahcke, of Detroit, was mustered in as second lieutenant. Jos. Kraemer, also of Detroit, a well-known newspaper man, has been appointed first lieutenant of Co. A.

MUST SURRENDER.

SHAFTER DEMANDS IT OF THE SPANISH AT SANTIAGO.

Gen. Toral Wanted to Leave Santiago Fully Armed and With Colors Flying but Gen. Shafter Would Not Listen to Any Such Terms.

Fighting Resumed at Santiago. Maj. Gen. Shafter's demand for the surrender of Santiago was finally replied to by Gen. Jose Toral who succeeded Gen. Linare in command of the Spanish forces in Santiago when the latter was wounded. Upon representations of the foreign consul Gen. Shafter extended the truce three days to allow the non-combatants—women, old men, children and foreigners—to get out of the city. Then the Spanish desired to communicate with Madrid and Havana before giving their final answer to the demand for surrender, but said they had no competent telegraph operators. Gen. Shafter replied this was not to be considered.

There was a general observance throughout the state of President McKinley's suggestion that the nation give thanks to God for the glorious victories of American arms, and many prayers were offered for future successes.

Frank G. Putnam, sergeant of Co. H, Twelfth U. S. Infantry, was killed at Santiago. He was a Saginaw boy, 23 years of age, and was on his second enlistment. He was visiting his home when the war began and was ordered to join his command.

Bert Pixley, aged 32, a deaf mute, was killed by a train on the Chicago & West Michigan at Hartford. He had been working and was returning home. The train was very late or he would not have been killed, as he always kept close watch at train time.

The Sands & Maxwell lumber yard at Pentwater was almost totally destroyed by fire, 5,000,000 feet of lumber being burned. The fire department from Ludington responded promptly but the flames were not subdued for several hours. The loss on the stock is placed at about \$80,000, with about \$50,000 insurance.

Peter Parish, aged 80, a pioneer resident of Saginaw township, Ingham county, was driving home from Mason when his horses became unmanageable and dragged him in front of an express train which totally demolished the wagon, throwing the old gentleman 30 feet and inflicting fatal injuries. The horses were uninjured.

Officer Wilson is just now the hero of the Bay City police force. He was appointed about a month ago, and has already distinguished himself by saving the lives of the three children of John Yankowski who were asleep in a burning building. The brave officer did not mention his act, and it was only by accident that the facts leaked out.

Frank H. Idema, of Grand Rapids, has been appointed adjutant of the 35th Michigan. He had been acting as sergeant-major and adjutant since the regiment went to Camp Eaton. He is a very popular young officer and is peculiarly fitted to the position. Mr. Idema served in the National Guard seven years, part of that time as lieutenant in the 1st, second regiment.

Gen. C. F. Roe, of New York, who held the rank of major-general in the National Guard, has been appointed a brigadier-general of volunteers and assigned to command the brigade the 31st Michigan is in at Chickamauga, and which had been under command of Col. Gardner of the 31st. Gen. Roe graduated from West Point in 1868 and served twenty years in the regular army.

Oscola and Lake county farmers are in despair. After struggling with a drought for six weeks, frosts have practically ruined the crops. Fight after field of potatoes, the principal product of these counties, and corn flattened and blackened by these frosts. Forest fires have been raging also, destroying quantities of store wood and many grain and pasture fields. Some farmers have lost their outbuildings.

J. B. Eastman, a farm hand employed by Fred Lawson, of Burnside, was arrested charged with burning Lawson's barn. Eastman, it is said, attempted to help his employer burn Lawson's barn. Eastman was arrested and charged with burning Lawson's barn. Eastman was arrested and charged with burning Lawson's barn.

The acreage of wheat grown in Michigan this year is, approximately, 1,710,000 acres. The average yield per acre in the state is estimated at 16.74 bushels. This estimate is based on nearly 1,150 reports covering all parts of the state. The estimate points to a crop of about 28,000,000 bushels. Harvest is still two weeks earlier than in 1897. The area planted to corn is about normal, and the crop is in excellent condition. The condition is 22 per cent higher than one year ago. The average condition of oats is 91; potatoes, 95; apples, 90; peaches, 74.

The chief engineer of the Gloucester, the vessel that sank both the Spanish torpedo boat destroyers off Santiago, and which took Admiral Cervera prisoner, is Captain Assistant Engineer George W. McElroy, of Adrian. He is a son of Dr. George McElroy, now and for many years past, a leading member of the faculty of Adrian college. Engineer McElroy is near the top of the list and would have reached the grave of chief engineer in the navy by the regular process very soon. The Gloucester's really wonderful feat will probably result in his immediate promotion.

WE ARE GROWING.

Hawaiian Annexation Resolution Adopted by the Senate.

The annexation of Hawaii is now accomplished so far as the legislative branch of the government is concerned. Quite unexpectedly the resolutions providing for the annexation of the islands were brought to a vote in the Senate, the opposition cutting their debate short, and they were passed by the decisive vote of 42 to 21.

The joint resolution which passed the Senate providing for the annexation of Hawaii was originally introduced in the House by Mr. Newlands, of Nevada, and passed that body June 15. Two days later it was reported favorably to the Senate.

The day following the passage by the Senate of the resolutions for the annexation of Hawaii to the United States the President affixed his signature to the resolutions and by that act the Hawaiian islands were made a part of Uncle Sam's domain. The annexation is said to be complete without any further action here or in Hawaii.

Secretary Long gave orders for the departure of the Philadelphia from the Mare Island navy yard at Vallejo, Cal. She will carry the flag of the United States to those islands, and Admiral Miller, commanding the Pacific station, will be charged with the function of formally hoisting the Stars and Stripes.

Watson Will Go After Camara. The new eastern squadron of Uncle Sam's Atlantic fleet, under Commodore Watson, which is to sail for Spanish waters will soon be on the chase after the Spanish squadron under Admiral Camara now on the way to the Philippines. Admiral Sampson has been ordered to detach from his own command immediately the vessels to compose Commodore Watson's command, as follows: Battleships Iowa and Oregon; protected cruiser Newark; auxiliary cruisers Dixie, Yankee and Yosemite; colliders Assorted, Cassin, Plymouth, Leonidas and Justin, and supply ship Democrito. The ships are to set sail as soon as they can coal and supply, and will start directly from the points where they are now located. The order provides that each ship shall make her way across the Atlantic to a marine rendezvous, which will be designated in sealed orders, and then start in full pursuit of Camara with his remnant of the Spanish navy. The number of colliders accompanying the expedition is evidence that a long cruise lies ahead.

Camara's fleet was divided at Port Said, the torpedo boats Osada, Proserpine and Andes returning to Cadiz and the others starting through the Suez canal for the Philippines. At Ismaelia, Egypt, the battleship Pelayo was compelled to stop because of broken machinery the remainder of the squadron stopped at Suez, but were ordered by the Egyptian government to leave within 24 hours.

The following day Admiral Camara received orders from Madrid to return with the fleet to Spain immediately.

Spanish Naval Prisoners. The auxiliary cruiser Neva, with more than 746 Spanish naval prisoners, including Admiral Cervera and 53 other officers, arrived in Portsmouth, N. H. Admiral Cervera was confined to his cabin. Capt. Eulate, who was commander of the Vizcaya, was also quite ill, having been wounded in the head during the battle of Santiago. All of the Spanish commissioned officers were on parole and had the freedom of the ship with one exception. The governor of Santiago de Cuba who was trying to escape on Admiral Cervera's flagship when she was destroyed. He refused to sign the parole papers and was consequently confined in one of the cabins under guard. The remainder of the prisoners were confined between decks and closely guarded by 23 marines from the Brooklyn, and 21 marines from the Marblehead. Admiral Cervera and about 80 other officers will be detained at the Annapolis naval academy while the other Spaniards will be confined at Portsmouth.

American Reinforcements Arrive. Six troops carrying 2,500 men, six batteries of artillery and a large quantity of ammunition and supplies, arrived at Juragu. The transports took the troops and equipments aboard at Tampa and were joined by their convoy at Key West. The fleet consists of the City of Macon and the Gate City, carrying the first Illinois infantry, 1,350 men; the Hudson with 930 recruits for the regiments of regulars in the field and the Comanche, Unionist and Specialist, carrying horses, ammunition and stores, batteries C and E, of the Third artillery; B and F, of the Fourth artillery and D, of the Fifth artillery, under command of Brig. Gen. Randolph.

Two large consignments of arms, ammunition and supplies have been landed for Gen. Gomez's soldiers in western Cuba.

Capt. Sampson, acting rear admiral of the American squadron off Santiago, has been nominated a commodore by the President. The Senate confirmed the nomination.

The eastern squadron under Commodore Watson which is to sail for the coast of Spain will soon be on the chase after the Spanish squadron under Admiral Camara, now on the way to the Philippines. Admiral Sampson has been ordered to detach from his own command immediately the vessels to be in Commodore Watson's command, and to direct the commodore to proceed on his mission.

A lump of silver worth about \$90,000 was found on the Maria Teresa after her destruction off Santiago. It was coin which had been fused in the burning of the vessel.

POOR OLD SPAIN.

CABINET RESIGNS AND PEACE NOW DEMANDED.

French Ambassador Tries to Sound President McKinley—Uncle Sam Wishes to Deal With Spain Direct—End of the War Evidently Near.

Madrid: Senor Sagasta went to the palace and tendered his resignation and that of the cabinet. It is said that he advised the queen regent to appoint a new cabinet, largely consisting of the military element, which would not necessarily mean the adoption of a warlike policy, but probably the reverse. It is generally expected that the resignation will be accepted, but the result may possibly be merely a partial reconstruction of the cabinet. The cabinet resigned in consequence of irreconcilable differences of opinion on the question of initiating peace negotiations.

Duke Almodovar de Rio, minister of foreign affairs, had an audience with the queen regent and subsequently an important conference with the French ambassador.

Washington: M. Jules Cambon, the French ambassador, had a conference with President McKinley, and it is admitted in diplomatic circles that subjects of the greatest importance to Spain were discussed. It is said that M. Cambon asked the President what he would do if a representative of Spain should offer to yield Cuba directly to the United States, give up Porto Rico and pay an indemnity, providing the United States would withdraw all claims to the Philippines and the Leyte Islands. President McKinley is said to have answered: "When such a representative makes such a proposition it will be time to answer." He further is quoted as saying that Spain must make a definite proposition looking to peace. The only terms which the United States will consider, it is said, are Cuban independence, free and absolute—the permanent occupation of the Philippines and Idroneo for an indefinite period, and Spain to pay an indemnity. The amount to be decided by the United States.

London: Exeter's new foreign minister, M. Delcasse, has notified the Spanish ambassador at Paris, Senor Leon Castillo, that the French government is ready to tender the good offices of the French ambassador at Washington in opening negotiations for peace, if the Madrid government will permit it.

Madrid: It is asserted that the United States makes the following demands as conditions of peace: 1. The possession of Cuba and Porto Rico, with a port in the Canaries. 2. An indemnity of \$20,000,000. 3. The retention of the Philippines as a guarantee of the payment of the indemnity. These terms are regarded as impossible.

Gen. Miles Arrives at Santiago. Gen. Nelson A. Miles, commanding the U. S. army, has arrived off Santiago bay. Upon the arrival of the auxiliary cruiser Yale, on which Gen. Miles was a passenger, communication was opened with Admiral Sampson and the two commanders in chief.

Later Gen. Miles landed at Playa del Este and communicated by signal service telephone with Gen. Shafter, commanding the American forces before Santiago. What the nature and result of the two consultations were is not disclosed. It is understood to have been Gen. Miles' purpose to proceed immediately to Gen. Shafter's headquarters at Siboney, and after discussing with Shafter the latter's plan of campaign, to make a personal examination of the American position. It is not to be understood that Gen. Miles' presence at Santiago is in command of the forces before Santiago. Gen. Shafter is operating under written instructions from the secretary of war, approved by the President, and as long as he is able physically to direct the troops he will retain his command.

Congress Has Adjourned. The second session of the 55th congress has adjourned sine die after making the most history of any congress in the quarter of a century or more. The recognition of the independence of Cuba, the declaration of war upon Spain, the annexation of Hawaii, the war appropriations and war revenue legislation, organization of the vast volunteer army and expansion of the navy, a new bankruptcy law—all these were features of the session. The appropriations for war almost \$500,000,000. The Senate adjourned in its usual dignified manner, but in the House patriotic songs were sung and three cheers given twice over for President McKinley. Then followed cheers for Dexter, Hobson, Schley, Sampson and Gen. Joe Wheeler. The whole House was one vast demonstration, and flags were passed about to every member and were enthusiastically waved while the members sang the close of the 55th congress.

THE NEWS CONDENSED. Admiral Cervera says that his attempt to escape from Santiago was taken on express order from Blanco. Cervera says he realized fully that he was going to certain destruction. He expresses it as his belief that over 600 Spanish sailors were killed or drowned, 150 wounded and 1,800 taken prisoner.

Richard Rolland Kenny of Dover, junior U. S. senator from Delaware, indicted upon a charge of aiding and abetting Wm. Biggs, who has confessed to robbing the First National Bank at Dover, of which institution he was paying teller, of the sum of \$107,000. The Brazilian dynamite cruiser Nich-thery has finally been purchased and renamed Buffalo. She is to be armed and will mount dynamite guns similar to those of the Vesuvius, but vastly improved. They will throw a shell 6,000 yards whereas the Vesuvius only shoots 2,000, and the Buffalo's guns will have movable mountings.

As a result of a cabinet discussion the President has decided to dispatch a regiment of troops to Honolulu immediately, and the commandant at the Presidio, San Francisco, has been communicated with to learn what forces are available.

A Spanish privateer carrying five guns is reported off British Columbia, evidently laying for the rich cargoes of gold coming down from Alaska. The only American warship in Alaskan waters is the gunboat Phoebe which is carrying a surveying party to the Yukon.

MERRIMAC HEROES FREE.

Hobson and His Men Exchanged—Tremendous Ovation Given Them.

Assistant Naval Constructor Richard P. Hobson, of the flagship New York, and the seven seamen who, with him, sailed the collier Merrimac into the channel of the harbor of Santiago de Cuba on June 3 last and sank her there, have been surrendered by the Spanish military authorities in exchange for prisoners captured by the American forces.

Hobson and his men were escorted through the American lines by Capt. Chadwick, of the New York, who was awaiting them. Every stop of their journey was marked by the wildest demonstration on the part of the American soldiers, who threw aside all semblance of order, scrambled over the entrenchments and sent up cheer after cheer for the men who passed safely through the jaws of death to serve their country. The heroes were almost smothered with attentions and tears flowed down their cheeks as they tried to reply to the continuous ovation. The same scenes of enthusiasm were repeated upon the arrival of the men at the hospital station and at our base at Juragu. Hobson, who reached there in advance of his companions, was taken on board the New York immediately. The flagship's decks were lined with officers and men, and as Hobson clambered up her side and stepped on board his vessel, the harbor rang with shouts and cheers of his comrades which were echoed by the crews of a dozen transports lying near by.

Hobson had little to say in regard to his experiences, except that he and his companions had been well treated by the Spaniards and that they were all in excellent health.

The exchange took place under a tree about midway between the hostile lines. Col. John Jacob Astor conducted the American part of the program and Maj. Iries, a staff officer, representing the Spanish side, was extremely courteous, but very formal, and no attempt was made by either of them to discuss anything, but the matter in hand. Maj. Iries was given his choice of three Spanish lieutenants in exchange for the American sailors. The Spanish officers selected Lieut. Adolfo Astes, of the First provisional regiment of Barcelona, one of the most aristocratic military organizations of the Spanish army, in exchange for Hobson.

Ten Killed by an Explosion in a Tunnel. A gang of 10 men working 5,000 feet from shore in the waterworks tunnel, which being extended outward under Lake Erie, five miles, at Cleveland, lost their lives by an explosion in the tunnel. No one knows what caused the disaster and the only man in the tunnel who escaped death is Don O'Donnell, a lock tender, who was stationed 3,700 feet from the shore. He heard the explosion or series of explosions. He says there were 10 shocks and the concussion was something terrible, for it threw him off his feet, and for hours he was in such a dazed condition that he could scarcely remember what had happened. He finally got out and told what had occurred.

About six weeks ago there was an explosion of gas in the shore end of the big hole which killed eight men and injured a number of others.

The Alphonso XII Destroyed at Havana. Secretary Long has received word through Gen. Greely, signal officer, confirming the report that the Spanish warship Alphonso XII was destroyed while trying to run the Havana blockade. The Alphonso XII is an iron gunboat with one screw one funnel and one mainmast, barque-rigged, 280 feet long, 43 feet beam and 15 feet draught; displacement 3,000 tons. She had a speed of 17 knots, and carried 18 large guns, five machine guns and five torpedo tubes. Her officers and crew numbered 370.

Brigadier-General
Frederick Dent Grant.

THE SON OF HIS FATHER AT THE FRONT.

No more gratifying appointment has been made by President McKinley than that of the eldest son of General Ulysses S. Grant, colonel of the Fourth regiment, New York State National guard, to brigadier-general.

He was chosen colonel unanimously by the officers of the Fourth regiment of Brooklyn and was mustered into the United States army with his headquarters at Camp Clark, Hempstead, Long Island. He took his regiment to Chickamauga Park and was there placed in command of a brigade, composed of three regiments, and was acting as brigadier-general when he received his commission from the war department.

Frederick Dent Grant, is the oldest son of ex-President Ulysses S. Grant. He was born in St. Louis, Mo., on the 20th of May, 1850. As a boy he was with his father at various times and places when it was convenient for the general to have his family with him.

At Fort Henry, Corinth, Vicksburg, Nashville and City Point, in front of Petersburg. He accompanied his father to Washington and was with him when he received his commission as lieutenant-general from President Lincoln. After the war he entered West Point as a cadet, and graduated in 1871. On leaving the Military Academy he obtained a large allowance and accepted a position as an engineer for the Union Pacific railroad.

He was in the various wars, and made a trip to Europe with General Sherman. He was in the Mexican war, and was in the Texas and Indian wars. He was in the Texas and Indian wars.

"I'm So Tired!"

As tired in the morning as when I go to bed! Why is it? Simply because your blood is so weak, so poor, thin, and unwholesome that it does not keep you strong and you do not get the benefit of your sleep. To feel strong and energetic you must have the purifying effects of Hood's Sarsaparilla. Our word for it, I will do you good.

AT THE EXHIBITION... COST OF A WEEK AT OMAHA'S GRAND SHOW.

Room and Board for Exposition Visitors at Moderate Cost—Excursion Tickets to Kansas Convention and Fair Treatment for All Who Attend.

Perhaps the first consideration with those contemplating a visit to the Trans-Mississippi Exposition at Omaha this summer is that of cost.

On the first place, the railroads have granted exceedingly low rates. Rooms can be obtained at moderate cost in any part of the city.

Admission to the Exposition grounds is 50 cents for each person above 12 years, 25 cents. These figures include the cost of the excursion.

Why shouldn't the pink of propriety be an appropriate flower for our national occasion?

One of nature's beauties, capable of only one day for general admission, fails to cure summer complaints.

The moral training of the little child is the future hope of the nation.

Builds up the system; puts pers. rich in the veins; makes men and women strong.

Jugs and horse races should be well handled.

LIQUID AIR IN WAR... COULD PLEACE ANY ARMOR... PLATE. A New and Marvelous Discovery of Science.

Charles K. Tripler tells in the June Cosmopolitan of his wonderful discovery of liquid air.

Liquid air is simply air such as we breathe, from which most of the heat, originally derived from the sun, has been extracted.
