Striking Coal Miners at Virden, Ill., Have a Bloody Battle With a Train Load of Imported Negro Laborers and Railroad Detectives.

14 Lives Lost in the Battle. The strike of coal miners which has been on in the Fourth district of Illinois since last April has at last resulted in terrible bloodshed. Pana has been the scene of excitement all summer but at the town of Virden everything had been quiet until about a month ago, when the Chicago-Virden Co., imported 100 Negro miners from Birmingham, Ala. The train was met by a large body of armed union miners who threatened to shoot the first Negro that stepped from the cars. These Negroes were finally induced to return to the south and the mines were not opened.

The mine operators strengthened the stockade about their property and made preparations to open their mines at all hazards. Gov. Tanner refused to send state troops to protect "imported convict labor against citizens of the state," and when the vigilant strikers learned that a special train on the Chicago & Alton railroad was coming with 200 Negroes they gathered in orce at the depot and at the stockade armed with Winehesters and revolvers. As soon as the train reached the town firing was begun by the miners and by a large force of railroad detectives on the train and continued all along the route to the stockade. The moment the train reached the stockade the miners opened a desperate fire with Winchesters, revolvers and firearms of all descriptions. The armed men on the train answered with a steady fire. The miners and the train were enveloped in a cloud of smoke and the shooting sounded like a continuous volle Engineer Burt Tigar received a bullet in the arm and dropped from his seat. His fireman seized the throttle, pulled it open, and with a jerk the train was under speed, toward Springfield. The train stopped at the stockade but two the firing to cease. The tower of the stockade was filled with sharpshooters armed with Winchester, and they kept up a steady fire into the crowd of union miners. Eye witnesses say the dead miners were killed after the train had

departed.

The list of the dead is as follows: Edward Welsh, miner, Springfield; Frank Bilveu, miner, Springfield; Albert Smith, miner, Mt. Olive; Joe Kitterly, miner, Mt. Olive: Ernest Kente Mt. Olive: A. H. HOT TALK FOR THE DONS.

American Peace Commissioners Call the Spaniards to Time. The Hispano-American peace com

nission has reached an interesting and exciting point in its deliberations. Judge Day declared that delay was the only possible object attainable by the persistent efforts of the Spanish com-missioners to saddle the United States with the Cuban debt and would be tolerated no longer, as the United States would neither assume nor guarantee any part of the debt. The Spaniards replied that before Spain would repu diste or reduce the face value of the Cuban bonds 60 per cent—her only al-ternatives—she would surrender to the United States the entire Philippines. udge Day responded that the surr der of the Philippines would probably be demanded irrespective of the Cuban or any other debt.

No Troops for Cuba Before December. If the President listens to the recom nendation of the military commission now in Cuba only a very small body of troops will reach Havana earlier than December. There are two reasons for this. The first is that the weather will be much improved by December. The second and more important reason is the desire to use no docks, warehouses, hospitals or camps that have peen used by the Spanish or Cubana This is the only way yellow fever can be avoided. The commissioners urge the President to authorize them to build everything new.
