simply one of the various styles or combinations in which this article is made. This is a beautiful Folding Bed, also the nicest kind of a Book Case, Secretary, Cheffonier or Drawer Room combined. In Jackson, where they are well known, they have saved hundreds of dollars to people

omes. Most everyone would like a sleeping room down stairs, as it's very convenient, and in case of sickness an absolute necessity. Many also would like a library, but to build a house large enough to have parlor, sitting room, dining room, library, sleeping rooms, kitchen, closets, baths, etc., calls for a mansion and a fat pocket book to go with it. The article that we mention makes a beautiful book-case and secretary. This with a neat library table and a chair or two equip your library with furniture. Should you need a sleeping room, simply ake hold of a little handle on the side and turn your bookcase half around, not on the carpet or floor, but on its own base. No moving out from the wall, no pulling or hauling at all. The bed drops down in any direction that you desire. A good bed, no make-shift, an article that is complete and satisfactory. They run in price from \$40 to \$75. Do not pay \$500 to \$1,000 more to build your new house or remodel the old one, vait-until you see what this article will do for you.
