In An Arbor there is an ordinance allowing leaves to be burned only between the hours of six and noon, and permissible no other time. That seems like a very sensible ordinance, as there would be less danger from fire, and there would be a few hours in the day when the air would not be permeated with the disagreeable smell and smoke. Why not have such a provision here?

"Let's see," said Supervisor Bertman of Manchester, this morning, "thirty years ago today I rode in a cutter from Franklin to Jackson. 'Oh, no, you mean Norembur,' suggested several of the men with him. 'No, he does not,' said Supervisor Hall of Sharon. 'I remember that was the year we built our house.
