The Temple of Nature. Talk not of temples—there is one built without hands, to mankind given; Its lamp is lit by the meridian sun, And all its stars of heaven.

The Altar arrayed in stainless snow, The Andean ranges yet untried, At sunrise first, at sunset glow, All-altar-fire to God.

The altar with its incense blaze, Its floor the earth so green and fair; The dome its vast immensity: All Nature worships there!

The Ocean heaves restlessly, And pours his glittering foam forth; His waves the priesthood of the sea— Kept in the shalldom of earth, And to the altar of heaven.

As if they furnished a prayer, and prayer; On the altar of the holy ground— All Nature worships there!

The cedar and the mountain pine, The willow on the fountain's brink, The poplar and the sycamore, In verdant grove and forest, The song-birds pour their sweetest lays, From tower and tree and middle air; The falling river murmurs praise— All Nature worships there!

Being a good fellow will keep a man busier than most remunerative occupations.

Michigan Happenings

A Would-Be Train Wrecker.

The attempted wreck of Pere Marquette passenger trains near Northville has resulted in the arrest of John Haley, colored. Two attempts were made to wreck one on Sunday, August 23, and the other on Wednesday, August 26, and both were attempted on the afternoon passenger train from Detroit at a curve one and a half miles from Northville. It is a spot where it would be impossible for an engineer to see obstructions until he was right on them, and at one side of the track is a very steep embankment, so that if a wreck occurred there would necessarily be great loss of life. Harry Hanna, of Northville, claims to have seen the would-be-train wrecker at work, and identified him. Additional evidence has been secured that the boy was seen near the place on both days mentioned on Sunday in his bare feet. He is also known as Johnson and as Edmonds. The arrest was made Sunday at the home of George Henry Edmonds, whose wife is an aunt of the accused. Since Hanna told what he knew about the matter and Farmer Benson have had trouble.

The Price Seven High.

The Kalamazoo board of education comes in for some criticism from leading citizens on account of the conditions attached to awarding the west-end Michigan normal school to Kalamazoo. It is pointed out that the board exceeded the authority conferred by the legislature in asking the city to give a bonus of \$40,000, construct, cement walks, provide sewer connections, maintain the building for an indefinite period and pay half of the salaries of the teachers in that school. It is asserted that in four typewritten pages the board itself has made an unanswerable argument that Kalamazoo is the place that ought to get the school anyway, and why such a bonus should be granted to the residents. However, some who criticize the action of the board say that they will vote to issue bonds if this is necessary to bring the school there.

The Law is Weak.

The new law giving the railroad commission authority to suspend the operation of electric cars without going into effect September 17, is being regarded with some interest by the legislature. It is pointed out that the board exceeded the authority conferred by the legislature in asking the city to give a bonus of \$40,000, construct, cement walks, provide sewer connections, maintain the building for an indefinite period and pay half of the salaries of the teachers in that school. It is asserted that in four typewritten pages the board itself has made an unanswerable argument that Kalamazoo is the place that ought to get the school anyway, and why such a bonus should be granted to the residents. Tampered With a Witness.

Prosecuting Attorney Cline, of Ionia, has ordered the arrest of Marsh Hamler, of Lyons, on a charge of tampering with the people's witness, Harry Crawford, in the shooting case against Winfield Buck of Lyons, who tried to prevent Crawford from keeping company with his (Buck's) daughter, Mrs. Crawford, the complaining witness, skipped out when Buck's case was called, and he was arrested at Edmore on a bench warrant. He says that two weeks ago Hamler slipped an envelope with three \$5 bills into his hand and told him the best thing he could do was to tip off on them and then the Buck case would be dropped. He says he followed Hamler's advice.

Richmond Has a Mystery.

Agnes, the 12-year-old daughter of John Douglas, a laborer, of Richmond, had her throat cut while home alone with her father, Dr. McCarthy, who has charged that Agnes' father was a man who had been in the county jail, and Justice Heath has summoned the sheriff at Mt. Clemens, the county seat, to investigate. John Douglas is about 45 years old. His wife was away sitting up with a sick neighbor. About 11 o'clock he went to the house of another neighbor, and announced that Agnes' throat was cut. He was very much excited and had great difficulty in explaining what had happened.

The Missing Pearce.

Expressman George Ogg, of Pontiac, states that he saw W. J. Pearce, the missing member of the Pontiac board of public works in Detroit Friday, August 21, three days after Pearce's supposed disappearance from the Washburn hotel. He states that Pearce was riding on a wagon with a younger man and that he wore a cap. Ogg did not know that Pearce was missing at that time, nor did he learn of the circumstances until yesterday.

Entire fields were washed out near New Berlin. It haled with sufficient force to break all the glass on one side of a Pere Marquette train, greatly terrifying the passengers. No estimate can be made of the damage to crops.

THE OHIO DEMOCRACY.

Tom Johnson in Possession: He Controls Everything in Sight.

The Democratic State convention, in session in Columbus, Ohio, was controlled by Tom L. Johnson completely. On all the questions involving control of the convention or committees, Johnson came out victorious and controlled the situation so firmly that one speaker termed him "more of a boss than Mark Hanna."

The resolutions allow allegiance to the last national platform, "sound colonialism and imperialism; denounce trusts and trust fostering tariffs; repudiate government by injunction, and oppose financial monopoly, together with every other legalized monopoly and legalized privilege."

This paragraph is the only reference to national issues. The people are asked to determine whether all state interests are to be sacrificed for the reelection of Hanna as senator. Other paragraphs most important are those:

"By embodying in the new Ohio constitution and unjust provisions for the regulation of street railroads, Republican managers have rendered competition more difficult and street car monopoly more secure. By reserving to the governor the power to appoint municipal officers in certain cases, they have dangerously concentrated their power in the hands of one man with tempting opportunities for interference by the state government in the local affairs of cities and villages."

"The corrupt union which the Republican managers of Ohio teachers' own party and to the rest of the people have made with privileged corporations, is further shown by the recent history of Ohio taxation. The Republican legislature has rejected even the simplest remedies."

"The present laws for assessing the property of all public service corporations should be so drafted as to compel the assessment of these enterprises not less than their taxable value as going concerns, and to prevent their evasion of just taxation."

The platform also favors home rule for counties and cities, assessing boards, the constitutional amendments for election of judges, and the abolition of single liability of stockholders, laws for public reports of corporations and auditing of the same, abolishing the fee system in county offices, and a uniform rate of two cents per mile on steam railroads."

On Wednesday the entire Johnson program was carried out, and every Tom L. Johnson for governor, was made by acclamation.

The Kids Were Found.

Frank Elmer, aged 17, and Elmore Keys, 14 years old, ran away from Chicago a week ago and came to St. Joseph to get married. The county clerk refused to give them a license, so, having no money, they turned home. For six days they lived on fruit taken from orchards, and at night slept in an old abandoned schooner. Saturday night officers gathered them in. Elmore's big brother has taken them back to Chicago, and as for Frank, he is in jail, dreaming about the terrible things that may be done to him, for Elmore is under statutory age.

In a discussion of the Panama canal matter between President Roosevelt and Secretary of State Hay three courses the administration could pursue were taken up.

The first is to ignore Columbia and proceed to construct the canal under the treaty with New Granada in 1846 to that Columbia if the office is, and create an independent government of Panama out of the present state of Panama. This would give the United States what is expected to be a short and inexpensive war, but would insure a permanent settlement of the question of the sovereignty of the canal zone across the isthmus of Panama.

The second course is that the president shall act in accordance with the provisions of the Spooner law and, having failed to make a treaty successfully with Columbia, turn to the Nicaragua route.

The third course is to delay this great work until something transpires to make Columbia see the light and resume negotiations for another treaty.

These figures represent only the cases where full authentication was possible and are not believed to present one-half of the real number of Fourth of July accidents in the United States.

The name of Ann Arbor's leading republican daily paper has changed from the Washtenaw Times to Ann Arbor Times, a very desirable act.

Manchester seems to be a dead town this summer, it is the only one of any size in the county that has not had a gale day and they have just discovered it to their sorrow.

A project is on foot to induce farmers of this county to unite and pledge themselves to hold their produce for higher prices.

The meeting of Fairview with Mr. & Mrs. L. D. Watkins on Aug. 26 was larger attended and very much enjoyed.

The formal exercise began with the singing of America in which nearly all joined, and prayer by W. R. Mount.

Mrs. Will Zimmerman read a selection entitled "snap shots at the olden time," and Miss Lois Lowry recited "aunt Tabors' visit to the opera" in a manner that won the applause of all.

Mrs. J. G. Palmer read a short paper of pioneer reminiscences written by her grandmother, Mrs. Stephen W. Palmer in 1850.

L. D. Watkins was asked to define pioneer and said it was usually applied to those who came to a country when it was in a state of nature.

Mrs. Harper told how her mother solved the problem of how to light the minister to bed by staying at home and dipping some tallow candles while the rest attended church Sunday evening.

John Green had actually dressed with snow ankle deep on the floor and then went down after a basket to help clean out the snow which had sifted in through the roof during the night.

Mrs. Watkins said that the early settlers had little to do with and not much to take care of but were just as happy as we are today, nor did they work any harder.

J. G. Palmer used to drive team to plow when it was a common occurrence to hitch the team to the rear of the plow to draw it back out of a root.

H. R. Palmer gave Mrs. Felton authority for saying that neighbors sometimes came two and one half miles to get fire to kindle one on their own hearth.

A. R. Palmer said that timber had been burned to produce ashes that might be sold for money to pay taxes and Mrs. Harper said that her father had drawn ashes to Clinton to get money to buy a pair of overalls.

Pres. Halladay interested all in a brief talk and then sang, "Going to California in '40," which elicited a round of applause and he responded by singing "Homeward Bound."

The next meeting will be with Mr. & Mrs. C. J. Harper on Sept. 26 at 1 p. m. with the following program: Select reading, Mrs. W. R. Mount; current events, P. O'Leary; the state fair, W. R. Mount; recitation, Mrs. H. R. Watkins. Subject for discussion, "Which best develops character, prosperity or adversity?" Papers by Mrs. J. G. Palmer and Mrs. R. D. Palmer.

Lenawee County.

Recumseh has played 20 games to date and won 22, losing only seven. Our club has beaten every club it has played with, and won the majority of games excepting those each club having won one game, although Tecumseh's win was a shutout, and the Detroit Wheelmen, which club has taken two out of three games. Tecumseh has won six shutout games and lost two. The Indians have certainly made a good record and proven themselves to be the fastest team Tecumseh has ever met.

Lowery & Kiebler received four car loads of western lambs Sunday night and expect two more tonight. Friends, when you write items for publication, kindly sign your names so we may know from whom they came. T. J. Farrell has had a cement floor put in his carriage house and a new cement horse block in front of his residence. We have to thank our friend David Woodward of Clinton for a basket of assorted fruit from his Bridgewater orchard. Letters are advertised at the postoffice for Miss Mary Astian, Miss Laura Beaudette, Mrs. Mattie Watson, Mrs. Ludeck, A. Howe. Passengers on the Jackson branch trains are attracted as they pass through town, by the workmen and teams at the cement works. Tecumseh juniors will come here next Monday and play "the reds" two games of ball on Hall's grounds near the depot, at 10 a. m. and 2 p. m. Manchester masons have been invited to accompany Saline masons to Brooklyn on Tuesday evening, the 29th, when Saline confers the 3rd. degree. The village has purchased 300 feet of new hose for the fire engines and the department is now claimed to be well equipped, having in all about 1,300 feet of hose. With this issue the ENTERPRISE begins its 37th year. The publisher desires to thank his patrons for their liberal support and solicits a continuance of their patronage. Owing to the weather, the star chapter officers did not go to Chelsea last Friday afternoon to confer the degrees. They much regretted it as they anticipated having a very enjoyable time. Rev. Steinger was interrupted when about half through his sermon Sunday morning by the announcement that Mrs. John Waters had a stroke of apoplexy and his presence at her bedside was desired. The congregation was then dismissed. The annual school meeting will be held at the central building on Monday evening next, Sept. 7. There are two members of the board of education to be elected in place of Dr. C. F. Kapp and Dr. E. M. Conklin whose terms of office expire on that day. Those who had the satisfaction and pleasure of attending the Farland entertainment, should thank Messrs. Lonier and Donaldson for bringing him here. They lost money on the enterprise but they were the means of securing one of the very finest musical treats it has been our good fortune to listen to in a long time. Farland is indeed a wonder. He is a complete master of the banjo. Some of our citizens thought that Fred Freeman had taken possession of the Freeman house because he took a notion on Monday to cut the weeds and grass and slick up around the building. He did a good job just the same, and we believe that he would make a first class street commissioner. He expects to try a lawsuit at Chelsea soon and is working up his muscle to be ready for the scrap they may put up. The canning factory is in readiness for business as soon as tomatoes are ripe. There is a fair average growing and the stockholders hope that the business will pan out sufficient to at least pay expenses this year. The superintendent is here and the help have been employed and are ready for business. The weather has been somewhat backward and tomatoes have not ripened as fast as was expected but if warm weather should follow the rains, stock will ripen rapidly and they will have all they can take care of for a while. Following is the carriers' report of mail matter handled from Manchester office during August: Route No. 1, T. J. Farrell: Pieces mail 9,203; Cancellation \$21.52; Stamps sold 30.80. Route No. 2, T. J. Thorn: Pieces mail 6,808; Cancellation \$16.64; Stamps sold 13.22. Route No. 3, H. G. Rushton: Pieces mail 4,417; Cancellation \$ 8.36; Stamps sold 11.16. Some people think that they are not making much progress at the cement plant but if they will take the pains to go over there and look around, they will find that considerable work has been done. They already have sufficient walls for the buildings, but they are putting in heavy cement foundations for all the machinery and there will be a lot of it. They also have a good deal of grading to do and the grading for the railroad tracks in and about the grounds. They hope to have the buildings enclosed before snow flies but may be delayed on account of material which is hard to get.

Mr. & Mrs. J. A. Goodyear leave tomorrow morning for Detroit. Mr. G. will attend the state fair at Pontiac. Emmanuel's society held services in the Baptist church last Sunday and will do so next Sunday and until they get their new pipe organ placed. Mrs. Byron Guitt of Jackson and Mr. & Mrs. John Waters of Tecumseh came here Sunday night to see their mother, Mrs. Jane Waters. Mrs. Jane Waters suffered a stroke of apoplexy Sunday forenoon. For some time it was feared that she could not live but Dr. Kapp and Klopfenstein did their best and she is improving slowly. Mrs. C. W. Case and daughter, Stella, accompanied by her guest, Mrs. Helen Pack of Ann Arbor went to Clinton Monday to visit Mrs. C. J. Robinson. Miss Stella will spend the week with her cousins. Martin Traub and family, Mrs. Wm. Traub and Mrs. Edward Doane visited at Henry Wolfe's in Sharon Sunday and then drove to Chelsea where Madames Traub and Doane took the car for Detroit. Lambert List of Jackson was a pleasant caller last Friday, came in to renew his subscription and have a little chat. He has been working pretty hard this summer and came down for a little rest and to visit old friends in Freedom. We learn that Henry Kirchofer's sister who came from Switzerland to visit him and is now in Milwaukee with her sister, will go to Kansas City to visit her brother, Sam Kirchofer, and then return to Switzerland on Oct. 3rd. I. M. Robinson wrote an account each day of what he saw when he and Mrs. Robinson were visiting their son Barrett at Boston. He has also prepared a picture book of scenes in and about the "hub." They are interesting and instructive. Miss Maud Goodell who has been teaching in the Manistique public schools, the past three years and who spends her summer vacations here with her mother, left yesterday afternoon via the Ann Arbor road and Frankfurt to resume her duties for another year. She has the best wishes of all her Manchester friends. Prof. & Mrs. Wallace of Adrian came here to attend James Martin's funeral and made the ENTERPRISE a pleasant call. The professor says that the Toledo & Western electric line has located its depot next to his sanatorium which will be of great advantage to him. He also says that he has now for treatment several cases that have been handled by surgeons, and he is performing cures. Mrs. James Field and daughter Nellie left here yesterday morning for Galroy, California where Mrs. Field's father, Stewart Fitzgerald, and her sister, Inez, reside. They were met at Adrian by Attorney Case who will accompany them to their destination and then proceed to Redlands. The ENTERPRISE and a large number of friends wish them a pleasant journey. They will undoubtedly make their homes in California. Another very successful surprise was sprung upon one of our citizens on Sunday. That day our townsman, John Schlicht, was 71 years of age and his family and his sons and daughters and their families assembled at his beautiful home, corner of Clinton and Boyne streets to celebrate the event. There were his son Will and family, his daughter, Mrs. Will Buse, husband and family, and his daughter, Mrs. Ernst, husband and family besides his son and daughter who make their home with him. They spent the day very pleasantly and left some useful mementoes of the occasion. Through the untiring energies of Rev. Steinger, the Methodist society will be able to offer to the pastor whom the annual conference may select to succeed him, a new parsonage in which to reside. The building is located just north of the church, on Washington street. It is a large fine looking structure with stables, etc. The house will be heated by furnace. Rev. Steinger has done a good share of the hard work in raising funds, though he has been ably assisted by members of the society and the ladies' aid society, and we believe that everybody would have been pleased to have him remained here and occupy it. Saturday noon Mr. & Mrs. James Martin returned from their cottage at Wampler's lake and Mr. Martin was about his new house on Water street at about 6 p. m., when he suddenly complained of his head feeling badly. George Bailey looked around and finding him down upon his hands and knees saw that he was ill and sent for Doctor Tracy. He was then carried to his home and Dr. Klopfenstein called in consultation but he continued to fail and expired at about 9 o'clock. The news of the sad affair cast a gloom over the village. Mr. Martin was one of our well-to-do citizens and was apparently in good health. He was building a beautiful and comfortable residence where he and his estimable wife expected to spend many happy years.
