Arthur Bradley, who has been called on the Jackson bench for some time, has been transferred to the Fort Wayne court. Bradley had the Fort Wayne rate his place.

Mr. E. A. Chamberlain of Local was caught a few nights since by a white on his way home and the find him with a revolver. Chamberlain said he was not carrying "My God, my gun."

A Detroit lady says the reason for so many weddings here this year is that next year is leap year, and the men are afraid some girl will become a widow when they do not want and they do not wish to be impelled to the altar.

The board of supervisors decided to request to the county the amount of \$50,000 to build a hospital for contagious diseases the same to be run by the medical department of the university, the physician and nurses being supplied by it.

Rev. Peter Ryan, who was ordained several days ago, was appointed by Bishop Foley to the parish of St. John at Waterbury, Conn. Since his ordination Fr. Ryan has been called to various parishes in both Detroit and Grand Haven, having charge of several parishes during his vacations of the regular pastor.

The farmer ought to be the most free-handed of anyone doing business. There is no one who has not done this for him, and he has not a ready market and he gets out of it. If he wants to buy machinery, wagon, stock or anything else he can get it on time. No other man is made such an advantage. Farmers ought to pay their bills promptly.

Way back in the 60's or early 70's, Mr. Bowers and a few other boys were in a skating rink in Grand Haven, Mich. when they were skating on a rink of ice. The rink was the worst skating rink of any known at that time, and having no way to keep it open, they finally gave up the idea.

A good many of those chronic grumbles and aches who have to see any body doing well, or anything doing better in any way, begin to believe that the most plant will be built here in the Manchester. As the foundation was laid up one after another they began to think perhaps there is something in it after all. When they began grading for the track to the main bed, they said, well, it really looks as though they meant business. Now that the steel has begun to arrive for the building, they will be inclined to remark, "I wonder they're going to build a plant, spite a all."

It is a little too late to go to the tickers, but I have to say that I have never seen a more sympathetic set of tickers than those which are being run in the city of Detroit. I have seen many tickers, but these are the only ones which are so sympathetic. I have seen many tickers, but these are the only ones which are so sympathetic.
