They are at just the age when care in personal appearance is developed to its fullest extent, and their surroundings and associations are such that they are constantly under the necessity of appearing at their best. Nine out of every ten College men wear Clothcraft Clothes because they fill their requirements exactly. A glance at the "Newport" and "Rugby" models shown in the illustration will tell you how and why.

The clothes are faultlessly fashioned and fit t And because that fit is TAILORED, not PRESSED into the garments they retain it throughout life.

The broad shoulders don't sag, the coat fronts don't droop, the trousers don't get baggy. Every bit of style a Clothcraft suit possesses when it made it has with it when you wear it the last time.
