Jld Maidhood.

Old maidhood, like fever, is a thing which seizes those who are too weak to resist it. Who are the most likely victims? Certainly one is, the girl who has been too much a girl, and too very attractive state at 18, she has always clung to it desperately until fading looks force her to see that it has flown from her. Then follows disappointniment. The woman who resists old maidhood is she who has only regarded girlhood as a pleasant prelude to a bigger phase of life. Her

zenith is to be womanhood. At 18 she has only just entered into the contest.
