I Am REYNOLDS, the Roofing Man

I have been in the roofing business for 40 years and they call me the "Pioneer." years and they call me the "Pioneer." I have been in no other business.

I know the roofing business: have made a scientific, practical ady of it. I am at the head of my company, of which I am proud. have also made a success of my business. The result has been ou brands-Torpedo and Wolverine, The 'red granite kind, "which are the very best brands of roofing on the market today at any price.

This roofing will last longer, is cheaper to lay and cheaper in the long run than any other you can buy.

If we could make a better roofing, we would but we cant. You will make no mistake in using it.

It only costs about hilf other shingles would cost haid on the roof.

We will give you an absolute guarantee that our roofing will last you five years. We know it will last you five years. We know it will last you five years. But five years' guarantee is enough to make and we say five years simply to show faith in our own roofing.

It cost us \$70.000.00 to find out that our kind of roofing was better than the other mans. The difference is this:

Our roofing is made of crushed, irregular shaped granite particles put on two heavy sheets of asphait felt cemented to gether. These particles of quarry granite have sharp points and sharp edges and the roof is was and on matter how much you may know aboutsome other roofing you should have sharp points and sharp edges and the roof and no matter how much you may know aboutsome other roofing you should have the roof first and the roof first will need paint.

We have a liberal proposition to make to you, and no matter how much you may know aboutsome other roofing you should have sharp points and sharp edges and the roof first will need paint.

This roofing is yet up in one square roll, all ready to bay and exercely packed inside of the roof first that the roof first was a saving. This roofing is yet up in one square roll, all ready to lay and securely packed inside of

WHAT IS THE BIBLE? By REV. A. C. DIXON, D. D., or of the Chicago Ave. Moody

Their history can be traced, beginning with the "Book of the Law," from he time of Moses to the present day writing material Moses used we do not know, but we do know that in

membership. It is regarded as one of the fortunate things in connection with Brädler's candidacy that he has a large circle of personal friends and anquaintances throughout central the bell. The cost of the present system and handwork. A remarkable thing

in the words of Amos God was speaking. And thus through the book.

(3) The Bible is literature written by the command of God, under the guidance of God, on the state of God. Moses commanded that the "Book of the Law" should be placed in the side of the ark. No safer place could have been found, and the more I study the listory of the Bible the more profoundly am I convinced that God has kept his book in the side of some are through all the ages.
