WHOLE PUREER 2142.

STATE NEWS BRIEDS

Gov. Warner states that he is in reassession of information which indicates why the second hand machinery was accepted for the Jackson prisons binder twine plant. It was because the machinery was up to specifications and able to do the work required of it. It answered the specifications in every way, except that instead of being brand new it had been used about of days in the Canadian plant to which it had been originally sold.

The governor went to Ann Arbor Friday, where he loaked gover letters on file in the engineering department, which explains how Prof. Wrentmore regarded the machinery as new because it had been used so little and had been so repaired that it was not nothing to indicate that it was not new.

Here is a copy of a letter which Prof. Wrentmore wrote to the Hoover and about the prof. Wrentmore wrote to the Hoover and a possible Co., which explains his at these.

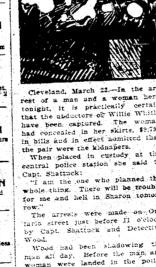

"On April 29 I inspected the machiner in the contract."

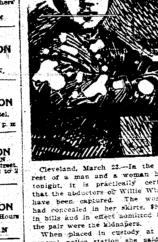

The principal of the prison of the prof. Wrentmore wrote to the Hoover the prof. Wrentmore wrote to the Hoover and attill in-hurness. Such is the record of the machinery installed in the machinery installed in the machinery installed in the machinery installed in accordance with the guarantee included in the contract.

In the department of agriculture there is a subdepartment called the biological survey. It is the duty of what or hird, mammals and insect, to let it be known just of hird, mammals and insect, to let it be known just on the farmer, the market gardeer, and to those cargadin soil pursuits generally.

The work of the survey was been recognized for its excellence for years. At one time the house committee word with sharp twinges across the small of my back and fresquar passage of the survey on the critatence, it is said that there were personal reasons for the attempt to their support; some of the Washington correspondent to excellence for years. At some as it was known the committee alone the object of protect to the house a measure of the washingt the protect to the house in the survey of the matter to their papers, institute and the armers individually all over the committee was unmored by the application for the survey. The application for the survey was began to receive letters and the papers, institute and the farmers without and the farmers without and the farmers without and the farmers without and the papers in the protectors had taken the mixture of the papers in the protectors had taken the mixture of the papers in the protectors had taken the mixture of the papers in the protectors had taken the mixture of the papers in the protectors had taken the mixture was not a transfer colored indelibly a great plet of cotton cloth which was steeped in a small quantity BY EDWARD B. CLARK.
DRAWINGS BY DEARBORN MELVING. Maintenant is the season of congress washington is full of lobbyists, it seems that the general impression created is that a horde of men bent on preventing the passage of good legislation has descended upon the capital. The word lobbyists seeming the beautiful. ly has come to mean only one thing. In truth lobbylats are of two kinds, the kind that: wants to prevent the passage of legislation; that is infinical to private interest, and the kind that wants to secure the passage of legislation that will redound or that it is supposed with redound to the public good.

In the hotels of this city it is an easy matter to pick out the individuals of one species of lobbyist. They bear the ear-marks of their business and it may be said that one of these ear marks or their business and it may be said that one of these care marks or their business and it may be said that one of these care marks or their business and it may be said that one of these care marks or their business and it may be said that one of these care marks or their business and it may be said that one of these care marks or ly has come to mean only one thing. In their business and it may be said that one of these ear marks ordinarily is in appearance of sleek prosperity. It is impossible to
pick out the individuals of the other species of lobbyist unless
you happen to be the keenest kind of a judge of heman nature.
In some instances the second class of lobbyists has the unmistakable air of the philanthropist while in other cases their companion lobbyists look simply like ordinary everyday American citizens, men of business and men of the professions and in many washington, fulfills the somewhat widespread idea of a man whose pockets are butting with bank notes with the corners showing in order to tempt some member of congress to forget his duty to his onetituents and to his country. It is a much harder matter to country and congressment than unfortunately some people believe. The publish who would make a direct offer of money except in rare pen to possess.

The lobbyist who thinks that some corporate interest is to be

These New Towns in the Northwest All Need Men

Hundleds of new towns are springing up all over the Pacific Northwest.

The big, easy fortunes being made from fruit. tarning and stock-raising, are making these towns grow tast. They all need men who know trades they need you, whether you have money to invest or not.

Never, in the history of America, has the man who works with his hands had such a chance to make money, as is offered in the west today.

You Are Losing Money Every Day You Stay in the East

> You would not stay another day in the worn-out East: I you knew even half the truth about the great Patrile Northwest.
> Families, who went there pennifess 5 years ago, are spending this winter in California. They bought good and at low prices, part for sit, gradually—today are dependent.
> Opportunities are greater now than over, because Ask up on a point to send you our free book, telling you all about Origin, Idaho and Washington. We'll also sell you what it costs to go there.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most emisent physicians are the most careful as to the uniform quality and perfect purity of ramedias prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig. Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product, has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the appoval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainby printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co.—plainby printed on the front of every package, whether you simply call for—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured b

is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

Mapleine, a delictoria syrup better than maple ocers. If not send 35c for a Commanda WILL MAKE YOU RICH "The development of the country has made marvelous strides. It is a revelation, a rec-ord of conquest by settlement that is remark-able."—Etricar from correspondence of a National Editor, who visited Canada in August last.

The grain crop of 1908 will tet many farmers \$20.00 to \$25.00 per acre. Grains, raising, mixed farming and dairying ser the principal industries. Climate is excellent; social conditions the best; railway advantages unequalled; schools, churches and markets close at hand. Land may also be problemed from railway and land corrections. We are the largest growns of vegetable seeds we believe in America, operating over 1800 north.
We warmed our seeds to produce the action, flower, replacible grown. Our seeds to produce the action, flower, replacible grown. Our seeds to produce the action, flower, replacible grown in the second of the product of the world—
Scholing table why we have the large yet the field backets about the world—
