Our competitors recognizing our severe competition and knowing well the high quality of our work and the preference weare-receiving on orders, ARE NOW BECOMING ALARMED AND EXCITED at the rapid increase of our business through this territory and the confidence shown in the high recommendation we are getting from the people whom we have dealt with.

They have now resorted to one of the last and lowest means of getting orders, KNOCKING. An agent for an out-of town firm got an order from a party on the strength of HIS ASSERTION that we PURCHASED OUR WORK FROM HIS FIRM. This is too ridiculous to even need a denial and furthermore the agent knew this was a lie.

We simply state this case, one of the many, to show you how ridiculous the stories are, and we have some curiosity to know what the next one will be.

We have never had to resort to those methods and never will. We have been able in the past to meet all competitors in a fair and homorable way and give our customers value for every dollar they give us. We KNOW this policy will WIN in the end and abo that those KNOCKS will react on the KNOCKER and lose them much more busines than it will us.

Our Prices Are Lower Than the same quality of work can be bought anywhere else. We guarantee the quality to be as good or better than any other stone in your cemetery, the lettering is where we have them all beat.

Druggists are prohibited from selling either of the narcetics named to children at all, or to anybody without labelling them "paison." The definition of "narcotic" is: "d medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES HOT CONTAIN NARCOTIOS, if it bears the signature of Chas. H. Fletcher.
