As all and will, Carrington set about to argue down his conscience; the beart it so insistent a counselor. Why should he give up the woman be loved, simply because duty demanded he should! After all, was not duty merely social obligation? What was it to him that the sheep were sheared? Was it right that he, of all men, should divide the bouse, theow the black pall of dishonests over it, destroy his own happiness and hers, when so simple a thing as a maketh would cramble into nothingness this monument to one man's greed and selfabness? The survival of the first the put aside Self, who would thank him? Few, and many would call him a fool or a needler. So many voices spoke that he seemed to hear now distinctly.

"The trip through your fertile valley has been a succession of surprises to me and the only fault I can find is that I was not told the whole truth. The development surpasses the reports which I had heard. I am pleased with the soil and the climate, and besides having natural advantages you have the advantage of irrigation.

You are creating wealth and what you make you are entitled to. You are earning legitimate fortunes." Yes and liberal fortunes too, for money is made quickly and easily in the Gulf Coast Country of Texas. Profits of from \$300 to \$1000

an acre are the rule, not the exception.

Why don't you do the same—you don't need much capital. You can buy the few acres you need on easy terms and the first crop, if properly cared for, should more than pay for the land.

O. Riggs, Mercedes, Texas, bought ten acres last fall. Including

clearing, plowing, etc., it cost \$2040. He has shipped enough beam from the land to pay for it in less than six months and can raise another crop before the year is out.
