Wise men ne'er sit and wall their loss. But cheerily seek how to redress their harms. —Shakespeare.

GOOD THINGS IN SEASON.

CHESTNUTS may be served in such a variety of dishes that those who are fortunate enough to have plenty may serve many dainty dishes. Boiled and served as an escalloped dish, they will nicely take the place of meat; as a cream soup, or nut loaf or in Nesselrode pudding they are the nut par excellence.

Chestnut Soup.—Cook two cupfuls of shelled and blanched chestnuts in chicken stock until tender. Press through a sieve and add a cupful of rich hot milk with the same of the broth, celery salt, salt, cayenne and nutmeg to season. Cook two table-spoonfuls of onion in three of chicken fat, add two of flour and stir into the soup. Cook five minutes, add a cupful of hot cream and serve at once. Milk may be used with a beaten egg in place of cream. Serve strained.

Nesselrode Pudding.—Make a custard of three cupfuls of milk, one and a half cupfuls of sugar, and the yolks of five eggs, strain, cool and add a pint of this cream, a fourth of a cupful of pineapple sirup and one and a half cupfuls of prepared chestnuts then freeze. To prepare the chestnuts, shell, cook, remove brown skin and force through a strainer. Line a two-quart melon mold with part of the mixture and to the remainder add half a cupful of candied fruit, cut in small bits, one-quarter of a cupful of sultana raisins and eight chestnuts broken in pieces and soaked several hours in maraschino sirup. Fill the mold, cover, pack in salt and ice and let stand several hours to ripen. Serve unmolded on a platter garnished with whipped cream sweetened and flavored with maraschino sirup.

Chestnut Pie.—Prepare a custard for a pie, fill the crust and sprinkle finely chopped chestnuts over the top before putting into the oven.

Chocolate Nut Fudding.—Mix a cupful of soft breadcrumbs with two cupfuls of scalded milk, one cupful of

HOLD YOUR LIBERTY BONDS.

Next to the imperative duty of American citizens to support the Liberty Loan is their duty to hold their Liberty Bonds. It is not full service to the country to purchase Liberty Bonds and then throw them upon the market, thus putting upon others the real burden of financing the war. Unless the necessity for disposing of them is very great, every owner of a Liberty Bond should hold fast to it. Holding onto one's bonds means that one has not only lent so much money to his government but also that he is not spending that money for goods, labor and transportation needed by the nation in the prosecution of the war, and is thus leaving the resources of the country more freely at the disposal of every Liberty Bond holder to be a creditor of his or her government, and it is a good thing for the nation for its obligations to be widely scattered amongst its citizens and not congested into the hands of the rich. It is a most hopeful thing for the United States that the best investment in the world, the Liberty Bonds, are very widely distributed amongst millions of its citizens.

Judging the future by the past, our Government bonds issued during this war are going to rise greatly in value with peace. In 1918, four per cent United States bonds sold in the open market as high as \$130, and in 1901 brought over \$139—that is \$139 and some cents for a \$100 bond. That the Liberty Bonds are going to rise well above par value is something that every conservative will admit is well within the bounds of possibility.

The shrewd and unscrupulous, the birds of prey in finance, realize the worth of Liberty Bonds, and are going to use every effort to secure them from the hands of those owners of whom they are unafraid or who are ignorant of the stock and investment

Doings for Present and Future in High School and Grades of This Village.

Lucile Aulls has entered the fifth grade.

Roy Kirk entered the eighth grade Monday.

Mae Riedel and Norma Mahrie visited the first and second primary Tuesday afternoon.

Alpha Sigma will be held one week from Monday evening, Nov. 18. A good program is promised.

Frederick Buss, Lawrence Haschle and LeRoy Heimerdinger entered the high school Monday.

Miss White, at the ward school, did not report a full attendance Monday, but the little ones will soon all be back.

School opened again Monday. There was a good attendance, though some remained at home, recovering from influenza or fear.

All teachers were here at opening of school with the exception of Miss Powers, who was not notified in time; however, she arrived Wednesday.

Ira E. Wood, ex-superintendent of the old people's home at Chelsea, who was arrested on an assault and battery charge by one of the lady members of the home, was found not guilty.

British and our boys would have died too, if it had not been for food we received by parcel post.

Two Russians and myself escaped last June. One of the Russians was recaptured. The other Russian and myself walked 600 miles and at last reached Moscow. Bread was twenty shillings a pound. I was broke. Donald A. Lowe, of Seattle, Ohio, the Y. M. C. A. secretary there, took me in and kept me for five days. I could not secure a passport from the Bolsheviks, but by good fortune I met Sir William Clark, the head of the British Economic Mission who attached me to his party. Traveling by boat and by car we finally reached Murman, the Allied headquarters.

The folks at home cannot realize what the Y. M. C. A. means to the boys over there—the Y, the K, of C., the Jewish Welfare Board and the other of the seven welfare organizations which at President Wilson's request have gotten together in the United War Work Campaign to raise \$250,000,000 to enable them to continue their activities.

"Yes, I am going to carry on. Having been a prisoner of war I cannot rejoin the Princess Pats, but I am going into the air force and do my fighting in the air. I am on my way now to Minneapolis. My sweetheart is an American girl. She lives in Minneapolis."

values. The favorite method will probably be offering stock of wildcat companies or other speculative ventures. Speculative is really too conservative a word to apply to some of these stocks, since to say that they have a speculative value is flattering in the extreme; they have no value at all, except in hands of unscrupulous people, who trade them for money or Liberty Bonds to ignorant investors.

Some get-rich-quick schemers propose not to trade their gold brick stock for Liberty Bonds but to use their clients' money to buy their stock, taking Liberty Bonds as security. This is camouflage—only a thinly disguised method of securing Liberty bonds for worthless or near-worthless stock.

Every holder of a Liberty Bond before he disposes of it, and especially before he trades it for stocks or other bonds, should consult a bank. Much money will thereby be saved to the owners of Liberty Bonds and the finances of the American people be better conserved.

ANOTHER LIBERTY LOAN.
Secretary of the Treasury McAdoo has announced that no matter what the results of the pending overtures for peace may be, there will be another Liberty loan. To use his expression, "We are going to have to finance peace for a while just as we have had to finance war."

There are over 2,000,000 United States soldiers abroad. If we transport these men back to the United States at the rate of 300,000 a month it will be over half a year before they are all returned. Our army, therefore, must be maintained, victualled and clothed for many months after peace is an actuality.

The American people, therefore, having supported the Liberty loan with a patriotism that future historians will love to extol, will have an opportunity to show the same patriotism in financing the just and conclusive victorious peace whenever it comes.

Not for a moment, however, is the treasury department acting on any assumption that peace is to come soon. Until peace is actually assured the attitude of the treasury and the attitude of the whole United States government is for the most vigorous prosecution of the war, and the motto of force against Germany without stint or limit will be acted up to until peace is an absolute accomplished fact.

One more Liberty loan, at least, is certain. The fourth loan was popularly called the "Fighting Loan" and the next loan may be a fighting loan too, or it may be a peace loan. Whatever the conditions, the loan must be prepared for and its success rendered certain and absolute. Begin now to prepare to support it.

WAR RELIEF AGENCIES TAKE YULETIDE INTO CAMPS IN

Funds Raised by United War Work Campaign Will Aid in Cheering Soldiers.

Santa Claus is going to France, too. This queer little figure so familiar to America with "his little round belly that shakes when he laughs like a bowl full of jelly," is going to pay his first visit to France.

The French children have never known so real or lovable a character as Santa Claus. Their Christmas has consisted of leaving their little sabots in the chimney corner while some kind spirit came in the night and left a gift there. But this Christmas will be visualized for them in a manner they can never forget.

Inside the funny red suit and wearing the snowy beard and wig may be a Y. M. C. A. or Knights of Columbus Secretary, a Jewish Welfare or Salvation Army man, for the service organizations are going to take an American Christmas to France, the last one on the other side of the Atlantic. Oh, yes, it is too, the last war-time Christmas.

The organizations will be guided in their Christmas program by the one of last year, except that it will be more extensive and much more elaborate. When our boys were asked last season what they wanted most for Christmas, they replied with one voice—"children."

Who could conceive of a real Christmas without children? Not any member of the A. E. F. certainly.

"You might just as well include the children in whatever you plan," the Canteen Girl warned the Christmas Committee when it met in Paris. "If you don't, the boys will make their own Christmas. They miss the little ones at home and will find substitutes in the French babies." And the Canteen Girl knew because she spent the previous Christmas in a heavy artillery camp "somewhere in France." So this year the French children are included in the festivities as a matter of course.

"The Flag."
The hut was as neat a dream as one could be with a mud floor, no glass in the windows, very little heat and many, many rats. But holy and mistletoe were used without stint. Bright banners and posters adorned the walls, and the flag—"THE FLAG," the British say we call it, "as if there were no other flag"—was suspended over the canteen counter in a frame of ivy, while rays from an electric lamp cast from a reflector fell on its glittering stars.

Army trucks, arrived loaded with children gathered up for miles around. The poles came from the camp across the hill, and all the guests were there. The Chaplain made an address of welcome in his faltering, French, then suddenly two hundred childish voices, pitched high in their excitement, sang

all four verses of the Marseillaise. Instantly every cap was off, and three thousand artillerymen stood stiffly at attention. A burst of applause, followed by the singing of "The Star Spangled Banner!"

Then the real fun began. This little picture is painted from last year's celebration and is a sample of a hut Christmas.

Early in the morning of this great holiday the generals, colonels and all the other officers will be working in the canteen, and the boys will be gathered in the huts, the religious services will be held. First a Mass will be said by a Catholic Priest, then, perhaps a Rabbi will talk to his boys, and later the Protestant minister will hold worship.

In all the huts will be plenty of Xmas cards supplied by the agencies for the boys to send the folks at home. And for soldiers in out of the way places, cards will be issued, with the compliments of the service agencies, which will entitle them to a certain amount of smokes and eats at any hut canteen.

But the real Christmas gift from the agencies will be a booklet containing some of the wonders of America. There will be a picture of the highest building in New York, beautiful spots of Yellow Stone Park and important points in American history. The French believe everything the Americans tell them but the English are apt to be dubious at times.

"Come now, said an English Tommy, "you can't expect me to believe that stuff about a fifty-one story building in New York, you know."

After they get this book the soldiers will be able to convince these "doubting Thomases" if they have to make 'em count the stories.

Make your Christmas present to him through the fifteen thousand men and women wearing the service uniform by giving your share of the \$50,000,000 they need.

The American people have laid away at good interest several billions of dollars. They should not be impressed by the fact that Germany was to surrender today there would be no need of saving, or of giving the limit for war needs. There is a vast army of men and women in Europe as well as in the war camps in the United States and they may be fed and cared for until they can be returned to their homes and that will be many months. It is not wise to take care of the men that of those engaged in the war. The morale of the United States soldiers and sailors, and the mechanics, nurses, etc., has been splintered. Let us do all we can to continue this condition by subscribing liberally to the various funds now being raised for the soldiers' welfare.

BULLETIN

Peace! Peace! Victory!

As we go to press it is reported that Germany has surrendered.

The bells and whistles are proclaiming the glorious news. People are wild with excitement.

Michigan is ready and waiting for the opening of the United War Work Campaign to be held on the morning of November 11. Thousands of workers throughout the state are on their toes and prepared to see that Michigan stands out as a shining light among her sister states.

It is this campaign which is the test of true patriotism; in which some slight sacrifice can be made for the boys who are fighting our battles in the trenches. The seven great, accredited war relief agencies—The Y. M. C. A., Y. W. C. A., K. of C., Jewish Welfare Board, Salvation Army, American Library Association and the War Camp Community Service—have called upon the American people for \$250,000,000 with which to carry on their work of relief.

President Wilson has asked that the people of this country comply with this request. Give, Give, Give until it feels good.

WOMAN'S NERVES MADE STRONG

By Lydia E. Pinkham's Vegetable Compound.

Winona, Minn.—"I suffered for more than a year from nervousness, and was so bad I could not rest at night—would lie awake and get so nervous I would have to get up and walk around and in the morning would be all tired out. I read about Lydia E. Pinkham's Vegetable Compound and thought I would try it. My nervousness soon left me. I sleep well and feel fine in the morning and able to do my work. I gladly recommend Lydia E. Pinkham's Vegetable Compound to make weak nerves strong."—Mrs. ALBERT SULTZE, 603 Olmstead St., Winona, Minn.

How often do we hear the expression among women, "I am so nervous, I cannot sleep" or "it seems as though I should fly." Such women should profit by Mrs. Sultze's experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

CHAPTER VII.
A Sunday Walk.
Really if Prince had been a vain dog his ego would certainly have become unduly developed because of this incident. The Corners, as a community, voted him an acquisition, whereas heretofore he had been looked upon as a good deal of a nuisance. After she recovered from her fright Mrs. Sultze, with her home, with Caro-

Uncle Sam Says:
The carpenter's daughter was sitting on a bare brown log by the brook, she was dressed very prettily, all in brown. Carolyn May wanted awfully to go to Miss Amanda. The brown log with the pretty roses in her hair sat on a log by the brook, her father returned from the path. Joseph and his little niece were coming

Uncle Joe was quite stubborn. He went straight ahead down the brook, without letting the figure on the log into the focus of his vision. He went to Uncle Joe's hand but Carolyn May wanted awfully to go to Miss Amanda. The brown log with the pretty roses in her hair sat on a log by the brook, her father returned from the path. Joseph and his little niece were coming

There on the log, raising its flat head out of an aperture, was a horrid, silent, writhing creature. "Come here," Carolyn May wanted awfully to go to Miss Amanda. The brown log with the pretty roses in her hair sat on a log by the brook, her father returned from the path. Joseph and his little niece were coming

The old timers who have been predicting a hard open winter because of the high water, and muskrat building houses, better stir out and look around a bit. There are no skory nuts at all in these parts, at least we have not been able to locate any, and the sensible muskrat is building a double-story habitation, the same as ever, says a farm friend. VICTORY GIRLS RALLY TO SUPPORT OF U. W. W. C. DRIVE
"Every Girl Pulling For Victory" is Slogan Of Young Women Who Are Doing Their "Bit" At Home. New York, Nov. 4.—"Every girl pulling for Victory." This is the slogan of the Victory girls. "Everybody is doing something to win the war but me," a fourteen year old girl said. "I'm left out. I can't buy Liberty bonds or go to France as nurse."

It is for the "left out" girl who wants to make a real sacrifice for the men at the front, that Victory Girls "Earn and Give" division of the United War Work Campaign has been established. Victory Girls is as much an army at home as the men in the service are an army wherever they are called. Like Victory Boys they are an "Earn and Give" division of the United War Work Campaign. When a girl enrolls she pledges herself to earn a stated sum for war work. This means that no girl, or boy either, can give any money that she or he has not earned. State Pads at Enterprise office.

WILL DRIVE TO RHINE

Soldier Says If Huns Don't Quit Soon They'll Be Forced Into Their Own Country.
The following excerpts are from Private Leonard Blowers to his sister Mrs. Ernest Stockinger.—Ed.

Dear sister and brother: Today is Sunday and I shall try to write a few lines. There is not very much wait until the war comes to an end and then I can tell you plenty, and I do not think it will be a very long time before it will come to a close. If I am not home for Easter Sunday I shall be disappointed, for I am as sure as can be that the Germans will have to scop before long unless they want us to drive them clear to the Rhine—and if they don't stop, that is what will happen to them. I cannot see why they keep on trying to fight for they sure must know that the United States is getting in better shape to fight each day and the Germans are getting weaker and the Yanks have gone through every point in the Germans' line that they have tried.

The nights are very cool here now and we had a heavy frost on the fourth of September. It was first one this fall. Farmers have begun digging potatoes. It sure is funny to see the way they do their work. I do not get any mail yet, but will not get discouraged, for I know that I will get some time after it starts to come it will be regular, so do not be afraid to write, fearing that I will not get your letters. I shall keep on sending you letters when I feel like it. Tell Ernest I wish I could help him husk corn this fall and I would be willing to work for my board.

Well, will say good night for this time, with love and best wishes. Your brother, PVT. LEONARD BLOWERS. **FREEDOM**

The Safe, Steady, Farm Light

LALLEY-LIGHT is electric light for the farm. It is safe. It is clean. Its cost is low. Its brilliance is always steady, without a flicker. The light direct from the generator, with the plant in operation, is as sure and steady as when current comes from the storage battery. This is so because Lalley-Light engine is designed especially for driving an electric generator. It has extra large ball-bearings throughout. No other uses two ball-bearings on the crank-shaft; one on the connecting rod. Lalley-Light has been in successful farm use for seven years. It brings new conveniences, better living, to every farm. Its light and power cost but a few cents a day. Let us demonstrate Lalley-Light, free, right on your own farm. Write for the owners' testimonial book.

Consider a Lalley-Light just-as you considered the purchase of your cultivator, your planter, your rake, your loader, your mower and your binder. They found a place on your farm because they are cheaper and more efficient than hand labor. They do more work and better work in less time. They save labor and turn it to good account in other ways. It is just the same with the Laley-Light. It is better and more efficient. You and your men can spend more time in the fields taking care of your crops, because with electric light you can do in less time and do better the chores that must be done before daybreak or after nightfall.
