AT THE O
INFORMAL AFTERNOON FROCKS, VERY EXTREME BONNET TYPHES

It is not that embroidery is a new phenomenon which gives it unusual prominence today but that the current style trend mas to the feminine in a way unseen in former years. The design of the embroidery is as important as the style of the frock, and the embroidery, a fine art in itself, is as important to the overall effect as the style of the frock itself. And it is the style which is leading the new and the feminine aspects in hand embroidery by positioning it in new ways.

The informal afternoon frock shown in the picture was much of the idea in the fact that the embroidered bonnet was a natural extension of the frock itself. Notwithstanding all rumors to the contrary, the bonnet results in a looking better than the frock, and as if from this fact that the decorative influence in form and style have been made to be outstanding in a way unseen in former years. The embroidery is to be done by foresters using the new idea of the frock, and the embroidery is as important to the overall effect as the style of the frock itself.

Children Cry for

CASTORIA

MOTHER—Fletcher

CASTORIA is especially prepared to relieve infants in

aids and Children all ages of Constipation, Flatulence, Wind, Colic and Diarrhea; allowing Westerners dressing them, and, by regulating the Stomach and Bowels, aids the assimilation of Food, giving natural sleep.

To avoid Injurious, always look for the signature of Castle.

Physicians everywhere recommend it.

Health and normal looks—

the reward of internal cleanliness.

If you do not keep clean, you look unclean, and you are unclean. A good, strong, cleanse will make you look young and improve your health.

Avoid loneliness—say Doctors

Laxatives and cathartics do not overcome constipation, says a noted authority, but by their continued use tend only to aggravate the condition.

Medical science has found at last in lubrication a means of overcoming constipation. The gentle lubricant, Nujoel, penetrates and softens the hard foods waste and thus hastens its passage through and out of the body. Nujoel is not a medicine or laxative and cannot cause constipation. Like pure water, it is harmless.

Take Nujoel regularly and adopt these habits of internal cleanliness. For sale by all drugstores.

Nujol

For Internal Cleanliness

DISPLAYING THE MILLINEKY PROGRAM

Here is white milk fluid, the same cool- ing renovation in climate, means to help the body stay in a state of water balance. It is also the answer to the problem of a diet consisting of raw meat. The long simmering textile which results in the frock from untreated line is treated with a softening citric acid to prevent the formation of fibers, thus forming the finest bonnet ever made for the feminine in a way unseen in former years. The embroidery is as important to the overall effect as the style of the frock itself.

Raising of Flax
Now Encouraged

Unprofitable Returns From Wheat Had Made Some Change Desirable.

Unprofitable returns from wheat growing have in the past few years caused a number of farmers to look elsewhere for more satisfactory returns.

The present opportunities for raising flax are considered to be better than those for wheat, and many farmers are now converting their wheat lands to flax.

Term Corn and Hog Ratio Is Explained

Live Stock Farmer Should Understand Expressions.

The term corn and hog ratio is a common expression used by live stock farmers to express the relative prices of corn and hogs.

The ratio is calculated by dividing the price of corn by the price of hogs.

For example, if the price of corn is $5 per bushel and the price of hogs is $100 per head, the ratio would be 50:1.

This ratio is useful for farmers who are raising corn to feed their hogs, as it gives them an idea of how much corn they need to produce to feed their hogs.

Silver Screws for England

A demand for English silver screws is increasing, and a result of a situation of twenty pounds of silver to the old silver rate of twenty-five pounds will be a material benefit to the merchant by the prorate savings on the old rate of five.

Current news from London states that a demand of silver screws is being made in England.

Currency for Piano Farm

A demand for currency has been made on 350s, but it is necessary to keep your coin and sell for them to obtain the necessary currency.

Cash is now in demand, and will be required for the purchase of goods.

Flaxseed

Flaxseed is a valuable crop for farmers, and is grown for its seed, which is rich in oil, and for its fiber, which is used in the manufacture of linen.

Flaxseed is grown in many parts of the world, including Canada, the United States, and Europe.

CORN

Lift Off—No Pain!

Greenish and Shiny

Greenish and shiny is a term used to describe the appearance of corn before it is ready for harvest.

The corn is typically harvested when it is green and shiny, and is not yet ready to eat.

COUNTRY OF MOUNTAINS

The country of mountains is a place where mountains are a prominent feature of the landscape.

The country of mountains is home to many different species of plants and animals, and is known for its beauty and natural wonders.

Start the Winning Fight Today

Do you get up in the morning and sweat all day? Do you have to work hard just to make ends meet? Do you ever feel like you're fighting a losing battle?

But you can change all that with the Right Gameplan for Success!

Here's how it works:

1. Choose the Right Gameplan for Success

2. Follow the Gameplan's Step-by-Step Instructions

3. You'll Be on Your Way to Success in No Time!

Don't let a moment of doubt hold you back. Start your successful journey today!
The Old Land Mark Gone

With the removal of the sidewalk awning from in front of the old Saul Frank Department Store a bigger, brighter, better trading place was revealed to the people of Gobles and vicinity.

Tripp’s Four Day

Mercury Has No Air

You play your game, according to the rules, but there’s little if any “air” in the things you do. When the object is clear, and that is of the utmost importance, you are not playing your game fairly.

Sure-Enough Optimist

He gave thanks as follows: “Thank the Lord for we are Newmen, and we must ever remember, but I must have the sure-ness in your eyes.”

Oxen and Out

One of the farmers has arrived at the realization that the smell was originally a part of the north, and that the smell and the oxen never should have got together.

Storms on an Indian Ocean

The Indian ocean is noted for the great hurricanes which sweep over it with surprising violence and great force. They do immense damage to shipping and imports and spoil boats along the whole coast of India.

Quaint Theory

Thomas Paine, in England, in 1791, wrote a book, “Theories of the Earth,” to prove that the earth was originally a day and that it had since changed its form and lost its daily activity. He had not been shown.

Cautious Wins

Cautious wins in war or political situations will bring victories to its enemies; to feed, victory generally prevails. In such pursuits, while the excessive forms and the war are against.

Heavy Meteoric Shower

The meteoric shower has been observed in the United States half a day, and in Europe, the next day. The shower lasted for five minutes, and its effects are still visible. It was observed by a large number of persons.

Keeping Ships Afloat

Keeping ships afloat is the business of every merchant. The secret of success is to keep them in the business, and to keep them at the business. A great deal of profit would be destroyed if we did not try to keep a right ship over the water.

Mrs. Proctor Reports Great Benefits by Taking Lydia E. Pinkham's Vegetable Compound

Shippensburg, Pa. - "I recommend Lydia E. Pinkham's Vegetable Compound to all my friends. For the first time in my life, I feel well. I have been ill for years and have tried every kind of medicine, but nothing seemed to help. I have been taking Lydia E. Pinkham's Vegetable Compound for a month now, and I feel better than I have for years. I am happier and more energetic. I am able to work longer hours and have more energy. I am grateful to Lydia E. Pinkham for giving me back my health." - Mrs. Proctor

SINNERS IN HEAVEN

BY CLIVE ARDEN

A great flood engulfed the earth, turning it into a sea. But there were a few who had not forsaken their faith in the Lord. They built an ark and filled it with animals, saving them from the impending disaster. The flood lasted for forty days and forty nights, but finally receded, revealing a world of new life. The survivors emerged from the ark and began to rebuild their lives, grateful for the chance to start anew.

EGYPTIANS STONE FARMING

"We are not just planting crops, we are creating a new way of life." - Farmer

EGYPTIANS STONE FARMING

During the reign of Pharaoh Akhenaten, the Egyptians developed a method of farming that would forever change their way of life. They began to use stone to create irrigation systems, allowing them to cultivate crops in areas that were once too dry for agriculture. This technique, known as stone farming, allowed the Egyptians to expand their agricultural lands and improve their food supply. Stone farming was a significant advancement in agricultural technology, and it played a crucial role in the prosperity of the pharaoh's reign.

Value of Michigan Crops Up 48 per cent in 3 Years

HAY WANTED

Michigan farmers have been notified by the State Department of Agriculture, which reports that the value of Michigan crops is 252 per cent higher than the value of the crops of the same period in 1909. The value of the 1910 crop is $20,000,000 more than the 1909 crop. Michigan farmers are being paid for their crops, and they are getting a better return for their labor. The Michigan Department of Agriculture is working hard to promote the sale of Michigan crops, and the farmers are getting a better price for their crops.
