ANAconda FERTILIZER

Top Dress Hay Fields

There is no such thing as "creeping the land" by putting it to grass crops. A good hay crop requires more plant food than small grain crops. Here are facts:

Plant test 1 ton of cotton:
Alfalfa, 4 tons
Clover, 2 tons
Common pasturegrass, 2 tons

It will take almost a whole bag of Anaconda to replace the phosphates required to make the alfalfa crop. If you do not use Anaconda, it will be necessary for you to put 8 tons per acre as you ought. Come and get it at any of our warehouses.

PRODUCTS
Anaconda Trifex, Superphosphate $1.15 per unit
Superphosphate of Ammonia .60
Ammoniate of Phosphate .60

16 units of Anaconda (equal to a whole ton of low grade 10-10-10 acid phosphates) will cost you only $1.10.

MRS. URQUHART

Dr. Urquhart of Omaha says every housewife should have a stock of his famous preparation in your medicine cabinet. He says that people are suffering needlessly from chronic headaches and neurasthenia, and that the headache is a symptom of some underlying condition which should be treated before the headache itself becomes chronic. He says that his preparation is a simple, non-habitual relief from the headache, and that it is a safe and effective remedy for all kinds of headaches.
