WHAT STATE LAW MAKERS ARE DOING

Passage of Bills Permits Detroit To Plan Transit

Lansing, Mich.

With the Calhoun Rapid Transit Co. before the Michigan Legislature and the House of Representatives, the opportunity is now presented to the city of Detroit to consider the question of a rapid transit system, or an extension of the present system, if the Detroit City Council should be so inclined.

Detroit officials have been working on this question for some time, and the present session of the legislature will afford an opportunity for the city to consider the matter fully.

The Detroit City Council has been desirous of securing some form of transportation that will enable it to meet the increasing traffic on the city streets, and the passage of the bill will enable the city to take such action as may be necessary to meet this problem.

Rearrangement of representation of the city in the state legislature is another matter.

Under the present bill, Detroit would have two representatives in the state legislature, instead of the present one, and the bill would be similar to the bill passed in 1889.

The bill would provide that the Detroit City Council shall have the power to appoint the two representatives in the state legislature, and the city would be entitled to the same number of representatives as any other city in the state.

The bill would also provide that the Detroit City Council shall have the power to appoint members of the state legislature to serve as members of the state legislature from time to time, and the council would have the power to appoint such members as it may deem necessary.

This is a matter of great importance to the city of Detroit, and it is believed that the passage of the bill will be a great step forward in the development of the city.

The Detroit City Council will meet this afternoon to consider the question of the bill, and it is expected that the bill will be passed by the council.

The bill will be introduced in the state legislature, and it is expected that the bill will be discussed at length and will be amended as necessary before it is finally passed.

The bill will be a great step forward in the development of the city, and it is expected that the city will benefit greatly from the passage of the bill.

STYLES IN SUMMER WARDROBE; KNITTED WEAR FOR CHILDREN

When the business of everything—summer wardrobe, the question is—"What will you wear?" "What will your children wear?" "What kind of garments will you have?" The attractiveness of garments made for children is essential in every direction, greatly influencing the advancement of young children. Therefore, you should be very careful in selecting the right things that harmonize and blend together, in their own and their child's lives.

The little girl in the picture looks lovely in her awareness of the sun's warmth upon her face and in the midst of greenery.

FINE EXAMPLE OF THE ENSEMBLE SUIT

Noyalty and Gay Color Featured

Generally useful over light summer gowns, the knitted ensemble pictured here is of extreme value and comfort. The knitted suits are made of different fabrics, especially for the young children and are tailored by the most expert hands. The suits are made of suitable wool and woolen fabrics, as well as some sort of silk dressing. One of the most popular suits is a light, airy, and yet very practical one. These suits are not only suitable for warm weather but also practical for wear during the winter months.

Electricity on the Farm

By the use of electric light and power, the farm machinery is more effective and the work is better done. Western farmers use electricity for various purposes, such as lighting, heating, and driving machinery. It is a great convenience to have electricity on the farm, as it makes the work easier and more efficient.
