LOCAL BREAKTHROUGHS

Chamber of Commerce Meeting

June 12th at 7:30

Mahie Myers was born in Kansas-

and the local community.

We will see them every Wednes-

day.

Mr. and Mrs. Tom Damery were

up from Kansas last week. They

attended the wedding of the week with Mrs. Al. Wuselbeck.

The diet breezer and family spent

the weekend at their home. The

Arvin Myers drove to Detroit but

had to return home with his brother and other relatives.

El Bush has sold his home and will

move to his new home by the end of this month. He will live

with his brother and other relatives.

Mr. and Mrs. C. B. Burr and

family and Miss Jeannefruit Birds

of Rocky Point will be here Sunday

week to visit with friends.

Shore s on the baby of the month

at the Chamber of Commerce.

Mr. and Mrs. E. M. Aitken, Sr.

will be here Wednesday morning.

Several guests from out of town.

The Chilcote cast includes:

Four persons, formerly of Gobles,

are among the grandchildren of

G. W. Chilcote, Sr., who have

come to visit with relatives.

Molly Miller, Elizabeth Cheshire, Freeman

Stevenson and Bill Bowerman

are the only ones who are

here.

Mayor Moses Reynolds was

two years old last Friday and his

mother entertained friends and

his family and friends in honor of

the event. The mothers had a good

time and the children had a ball.

Great fun was had by all.

The ECI that took the eighth graders

on a tour of the ECI was not

successful as a few had to be

placed in jail. The tour was

rescheduled and the students

were promised a second chance.

They were all waiting for their

turn to take the tour.

The sale of the first 100 shares of

the new Gobles community

bank was completed. Mrs. G. W.

Chilcote, Sr., was the first

person to purchase a share of

the new bank.

The Chamber of Commerce meeting

was held last week and was

successful. Because of the weather, President

Fredricott has some important

work to do. He will try to

keep the meetings going as

business should be

represented.

Gobles is a good place to

meet and greet the

members of the community.

The first week of Los Angeles

College, Cal, who in her days was

better known as Mrs. Geo. Adams, on

the Carpintera farm south of town, a few days ago, had a

surprise visit from one of her
cousins and a friend. She
treated them to a wonderful

Taco dinner. They all enjoyed

dinner and later that evening.

ONCE GOOD MONEY, NOW WASTE PAPER

Dinosaurs in old paper take note! The American Bankers Association has concluded that paper is a waste of paper after all. It has been determined that dinosaurs were unable to deplete the supply of paper, and that the supply of paper is still vast and unexploited. Therefore, the conclusion is that dinosaurs could have had a much better economy if they had used paper instead of stone.

JAPANESE REPORT

SUGARLY TRUMP!

Nakamura, director of the Jida Sugar Company in Japan, has reported the successful recovery of sugar in Japan. The Jida Sugar Company has been producing sugar for over a century, and their newest product is a sugar that is even sweeter than the original.

Discoveries in Canada

Nineteen more were discovered in Canada, bringing the total number of discoveries to 21. The latest discovery was made in the Canadian Arctic, and it is the largest sugar deposit found in Canada to date.

Imported Insects

Millions of dollars are now being spent in the United States to control insects. The latest insect control device is a device that sprays a cloud of vapor over the area, killing the insects. This device has been used successfully in several areas of the United States, and it is now being used in Canada as well.

Sweet Clover Valuable

Sweet clover, like most of the common clovers, is a source of generous amounts of clover. This makes it a valuable food for grazing animals, and it provides a valuable source of protein for human consumption. The sweet clover is a member of the pea family, and it is easy to grow and manage. It is a hardy plant that can withstand dry conditions, and it is a valuable addition to any farm or garden.

Sugard Gran Excellent

As Substitute Hay Crop

Sugar cane is a fine substitute for hay in many areas. It is a hardy plant that can withstand dry conditions, and it is a valuable addition to any farm or garden. It is also a valuable source of sugar, and it can be used to make a variety of products, including table sugar, molasses, and syrup.

Sheep Yards

One of the best ways of increasing the efficiency of a sheep yard is by enclosing it with a fence. The fence should be high enough to keep the sheep from escaping, and it should be made of a material that is durable and weather-resistant. The sheep yard should also be provided with water and feed, and it should be located in an area that is protected from the elements.

Better Poultry

Helping All Stock

Progress of “Better Sires—Better Stock.” Campaign

Prepared on the basis of Department of Agriculture reports, the results of the “Better Sires—Better Stock.” Campaign are now available. The campaign has been under way for several years, and it has been a great success. The results show that the use of better sires has resulted in an increase in the productivity of stock. The campaign is now being expanded to cover all types of stock, and it is expected to have a great impact on the farming industry.

Rice Glue

The Japanese rice glue, or fish glue, is very useful in preparing white papers, and it is now being used in Japan. It is a valuable source of protein and other nutrients, and it is also a valuable source of energy. The glue is made from the fish, and it is a natural product. The Japanese use it as a binder, and it is also used in the manufacturing of paper.

For Yeast Foam

with sparge

The wife who is a good brewer is a real helpmate for the bread winner.

Bread, for example, is a very important food in our diet. It provides us with energy and nutrients, and it is a valuable source of protein. The bread can be made at home, and it is a valuable addition to any meal.

Children cry for

CASTORIUM

Rhubarb Very Important

as Perennial Vegetable

Rhubarb, or “salep”, is an important perennial vegetable. It is a root that grows in the wild, and it is a valuable source of nutrients. The root is rich in vitamins and minerals, and it is a valuable addition to any diet.

Pretty Things That Are Made at Home

The baking of pies and cakes and the making of preserves is a great deal more pleasant to do in May than in any other month. The flowers are blooming and nature is at her best. The days are longer and there is more time for rest and comfort. The air is fresh and invigorating. It is a time for outdoor living and for enjoying the company of friends.

The Vanishing Men

SYNOPSIS

Out of gaol, at the end of eleven years, the morbidly anxious and weary Louise Merrick appeared in the streets of London, her pale face and thin figure wearied by the prison. She was accompanied by an older man, who was evidently her guardian, and together they went to the house of Richard Warburton, a wealthy man, who had promised to give Louise a home and support.

Richard Warburton was a man of great wealth and influence, and he had a reputation for being a great benefactor. He was well known for his generosity, and he had a deep sense of duty to his fellow human beings.

Louise, on the other hand, was a woman of great beauty and intelligence. She had been sentenced to eleven years in prison for a crime that she did not commit, and she had been left to rot in the gaol, while her family and friends had done nothing to help her.

When Richard Warburton saw Louise, he was profoundly moved. He knew that she was innocent, and he felt a deep sense of compassion for her. He offered her a home and support, and she accepted.

Chapter V

The story of Louise Merrick's escape from prison and her eventual redemption is a story of courage and perseverance. Despite the odds, she managed to escape from prison and make her way to London, where she was eventually discovered by Richard Warburton.

But the story of Louise Merrick is not just a story of personal redemption. It is a story of hope and inspiration, and it serves as a reminder that even in the darkest of times, there is always hope for a better tomorrow.

Richard Warburton

Chapter VI

The world was a place of great beauty and diversity, and Richard Warburton was determined to see as much of it as he could. He traveled extensively, and he was always eager to learn more about the people and cultures he encountered.

He was particularly interested in the arts, and he had a deep appreciation for the beauty and diversity of music. He loved to attend concerts and opera performances, and he was always eager to learn more about the composers and performers he encountered.

But Richard Warburton was also a man of great compassion and empathy. He was always eager to help those in need, and he was always quick to lend a helping hand. He was a man of great principle, and he was determined to do what was right, even when it was difficult.

Chapter VII

The story of Richard Warburton's life is a story of dedication and devotion. He was a man of great principle, and he was always eager to do what was right, even when it was difficult. He was a man of great empathy, and he was always eager to help those in need. He was a man of great beauty and intelligence, and he was always eager to learn more about the world.

But Richard Warburton's life was not just a story of personal achievement. It was a story of hope and inspiration, and it serves as a reminder that even in the darkest of times, there is always hope for a better tomorrow.
