Is Water to Avoid
The recent death of C. H. Hong, a
Chinese grocer in Baltimore, atten-
duaed the attention of many food
scientists, as well as the public. Mr.
Hong was known for his extensive
knowledge of food and nutrition.

Cherry pie with milk makes a
nutritious combination of sugar
and fruit. It is not only refreshing
but also wholesome. The sugar in
cherry pie aids in the digestion of
fruits and milk, while the milk con-
mits the body's ability to use the
sugar from the pie.

SOILS CAUSE FOR CLOVER FAILURES

Lime Harrowed Into Field Before Seeding One Approved Method.

Porting for clover has been favored by many farmers over the past decade in many parts of the state. A method approved by agronomy experts is to harrow or dig in the lime before seeding to the field. Lime should be applied, however, when the soil is most con
venient to follow the course of the field.

For average conditions, about 3,000

pounds of high-grade limed per acre are the proper proportion. The lime is applied in the most convenient condition and the seed is spread over the surface. To get the best results of this method of field.
TRIPLE V GASOLINE

Some Fall Millsen

"In the fall, one sees new kinds of people. The woods are full of men, and the fields are full of children. The air is cold, and the leaves are falling. It is a time of year when one can see the world as it really is."

"And I think it is also a time when one can see the true meaning of life."

"I have always found that the fall is a time when one can see the beauty of the world in a new way. The colors are rich, and the air is crisp. It is a time when one can see the world as it really is."

ALLEGAN COUNTY
DAY & NITE FAIR

4 Days and 3 Nights
August 25-6-7-8 Allegan Fairgrounds

THE GREATEST OF HORSE RACING
Nearly $3,000.00 in Race Purses

Allegan's reputation for real racing at the county fair will be more than sustained this year. There will be two races Wednesday, three Thursday and three Friday, for purses totalling nearly $3,000. Entries have been received from a record number of drivers, assuring highly contested races on all three days.

DISPLAYS
Bigger, Better and More Complete at This Fair

Displays at this year's fair promise to be superior to any which have been shown in a good many years.

Every effort is being made to have the agricultural and livestock exhibitions more complete than ever. The fair management is asking every farmer in Allegan County to take an active interest in the displays at this fair. Plans have already been made for the display of the state board of agriculture. This will probably be the greatest display ever shown at an Allegan Fair. In addition to this the Michigan State College will have a fine exhibition, which promises to be highly interesting. Fair officers are sure that the displays at this year's fair will be highly endorsed by everyone who visits the annual exhibition.

Seven Big Free Acts

Free attractions for the 1926 fair will out-shine those of all previous fairs.

The famous Flying Fishers in a great aerial cast act.
The Pallone Trio in a comedy acrobatic act are two of the thrills.
See the Phunniest Phred on Earth. You will split your sides laughing at this.
Vera Direct, famous mare horse who races without a driver.
Lanovo's Jockey Girls will ride jumping horses that perform all sorts of spectacular feats.
All these acts every afternoon, and Wednesday, Thursday and Friday nights.

Two Bands Each Day

There will be two big bands on the grounds each and every big day. All of them will be Allegan county bands—your bands, excepting ours. The Allegan Odd Fellows band, the Silver Creek George band, the Pintwifl band, the Wayland band and John Tiefenthal's County Boys' band, together with the famous Press Newboys' band, will play.

WONDERFUL FIREWORKS

This year's fireworks display is to be even better than that of last year. The fair management has spared no expense in securing the finest display obtainable. On Wednesday, Thursday and Friday nights these big displays will be shown and will give you something to talk about in the years to come. Contracts signed by the fair management call for marvelous pyrotechnic thrillers. If you see them one night you will want to see them the others.
