The Baptists Ladies Aid will meet Tuesday evening at 7:30 at the Green West Thursday afternoon.

**Michigam" Our Michigan**

After a glance at Michigan's fo- lar and the forester, let us all be wise about the sound of her belle moy, for we, all a few years with the same. 

Michigan has a most interesting story to tell. The is a race, the forest, the and the time, the river, and the wood, and the pines, and the period, and the com- munity of the people, and the of the nation, and the land clear and build for permanence. 

The first thing with minds to know every part of what edition was Joan Steed, who passed through the Strathroy Distri- bution in 1834, and she was watching a woman during a family, and in three candles, and there been no a few hundred inhabitants. When Michigan's visi- tor was landed in Lansing in 1847 the site was a dense forest. So the people were there on the Fourth of July in 1839, as it is known, that was held to help the likely people. 

Upper peninsula mining had not yet begun, but mining was in its in- formation, and the growth of the population through the many new communities. 

The great migrations to Michigan, beginning with the phenomenal growth of her indus- trial cities are the results of the efforts of the people. It is a great indus- trial picture a more wonderful and beautiful one, but it has been going in the memory of many new communities.

In a bar street years Michigan will celebrate the one hundredth ann. 

The second day of state, she will celebrate with a grand expedition of her life sta- 

dard and development during that period which will bring the world here to marvel and exclaim. And it is a 

An important fact is that she still has the same home. There are many new communities, many new sections, and the in-

**Fartlycash Business**

The Club met at the home of Mrs. William. 

Roll call was succeeded by 12. 

The following business meeting was held during the evening:

- Huntley Springs in the home of Mrs. 
- Rolls were taken in the room of Mrs. 

Note: The name of the person in charge appears to be unreadable. 

**Waverly**

T. Ballocks and family have moved to Chicago where he was expected to return in February.

**Santa and His Calling List**

She Decides to Reveal Mystical Secret of Black Bow of Tiny Glass.

*By Martha Banning Thomas*

It was a giddy, giddy, giddy Christmas Eve, with the moon up in the sky and the birds singing carols, and the children running around with their eyes wide open, waiting for Santa to arrive.

**Poultry Essentials for Eggs in Winter**

**Good Protection, Right Feed, and Careful Factors.**

The poultry layer, be it a hen or a rooster, requires constant and special attention to make it yield the maximum amount of good eggs. The chicken must be protected from the cold. It can not only prevent the laying of eggs, but may injure or kill the bird. The poultry that must be housed during the winter months, must be protected from the cold by a warm shelter or a covered porch. The feed also must be changed during the winter months. The poultry must be kept warm by the use of a fan or a heater. The poultry must be kept clean by the use of disinfectant.

**Unexplored Country**

Substituting is still practically exercised by pharmacists andsubstitutes.

**FORD RUNS 57 MILES ON A GALLON OF GAS**

Ford has been running on a gallon of gas for over 50 years. The company has been using a special fuel mix that allows the car to run for up to 57 miles. The company has been able to achieve this by using a combination of more efficient engines and improved fuel efficiency. The company has also been using a special type of gasoline that is more efficient and allows the car to run for a longer distance.

**Honey Crop of 1926 Is**

**Dependent on Fall Carry-Over and Next Season’s Harvest**

The honey crop of 1926 was dependent on the fall carry-over and next season’s harvest. The crop was not dependent on the current year’s harvest. The honey crop of 1926 was dependent on the fall carry-over and next season’s harvest. The crop was not dependent on the current year’s harvest.

**Steps to Itching**

Petersen’s Ointment is good for the millions of painful sufferers in the name of a cure for the itching of the skin. It is also good for relief in itching due to gout, rheumatism, and nervous affections.

**Unemployed**

People should be helped to find work. It is the responsibility of the government to provide for the unemployed.

**Children for Castoria**

MOTHER—Picket's Castoria is so good it can be used to relieve infants in arms and Children and all ages of Consumption, Fervidness, Colic and Diarrhoea; alleviating Fervidness and setting themselves in a mouthful.

**Thanksgiving dinner**

A delicious dinner was served on Thanksgiving day. It was a feast of all the best dishes. The turkey was roasted to a golden brown and was served with all the garnishes. The stuffing was made with bread and vegetables, and the gravy was made with the juices from the turkey. The vegetables included carrots, peas, and green beans, and the stuffing was served with a side of mashed potatoes.

**FARM FACTS**

Woods take about 50 per cent of the forest products in our country as well as 200,000 acres. Big trees are evident that the average height of a big tree is 80 feet. The average diameter of a big tree is 2 feet. The average weight of a big tree is 2000 pounds. The average age of a big tree is 80 years.

**Oatmeal**

Oatmeal is an excellent food for poultry as well as 200,000 acres. Big trees are evident that the average height of a big tree is 80 feet. The average diameter of a big tree is 2 feet. The average weight of a big tree is 2000 pounds. The average age of a big tree is 80 years. Oatmeal is an excellent food for poultry as well as 200,000 acres. AILEMENTS OF YOUNG GIRLS
Replied by Lydia E. Pinkham's Vegetable Compound School Teacher's Experience

REPUBLIC, W. Va., Aug. 14—A few young women铁的, who have had to leave school and go to work, have inquired for advice as to how they can continue to receive the medicinal benefits of Lydia E. Pinkham's Vegetable Compound. Several of them have written, asking how the compound can be used for such purposes as increasing the appetite, improving the digestion, and strengthening the system in general. The Pinkham compound is a proprietary remedy that has been used for centuries to treat a variety of ailments, including menstrual disorders. It is a natural remedy that is said to be effective in improving women's health. The compound contains a combination of herbs and plant extracts that are believed to have medicinal properties. The Pinkham compound is still widely used today, and it is available in many countries around the world. It is a safe and effective remedy that can be used to treat a variety of conditions. A young woman who has been experiencing menstrual discomfort can try taking the Pinkham compound, as it is known for its ability to soothe menstrual cramps and regulate the menstrual cycle. It is also helpful in improving the overall health of the body, as it contains nutrients that are important for maintaining a healthy immune system. The Pinkham compound can be taken orally, and it is available in a variety of forms, including tablets and capsules. It is recommended that the compound be taken in consultation with a healthcare professional to ensure that it is the right choice for the individual. It is also important to consult a doctor if the symptoms persist or worsen. The Pinkham compound is a safe and effective remedy that can be used to treat a variety of conditions.
