Goble's Win Two

Last Friday night Goble girls put their careers in the hands of the bat and won two home victories. As un-
expectedly as they did this the team scored 22 to 6 by better bas-
set. The boys had a harder struggle but finally rolled out extra time by 16 to 13 in which they
had the boys had the stunt going in the ninth inning but the lead held up. This gave 
Goble's a nice win. Nice win.

Congress Given Coddlage Message

CONGRESS GIVEN CADDAGE MESSAGE

Washington—In his message to the 79th Congress, President Harry S. Truman asked for more farm aid and said that the general condition of the farm economy was not one of prosperity. The President said that he had been assured by the Department of Agriculture that many farmers were losing their farms because of low prices and the high cost of living.

Members of the Congress will be asked to consider the President's message and to provide additional farm aid. The President said that the condition of the farmers was worsening because of the price of labor and the high cost of living.

It is reported that the President will ask for an increase in the amount of farm aid that is provided by the government. The President said that the farmers need more help to keep their farms and to make a living.

The President's message is important because the condition of the farming industry has been declining for some time. The prices of farm products have been falling and the cost of living has been rising.

The President's message is expected to be discussed by the members of the Congress. It is expected that the members will consider the President's message and will take action to help the farmers.

The President's message is important because the condition of the farmers is important to the country. The farmers provide food for the people and they are an important part of the economy.

The President's message is expected to be discussed by the members of the Congress. It is expected that the members will consider the President's message and will take action to help the farmers.

"It seems to have an effect on me, after all." Blackie stated.

"I know," Grandmother answered. "I was wondering if you noticed anything."

"I've noticed that it seems to make me sleep better," Blackie said. "But I'm not sure if it's just a coincidence or if it's really helping me." Grandmother smiled. "I think it's helping you."

"Why do you say that?" Blackie asked.

"It's just a feeling," Grandmother said. "I've noticed that you seem more relaxed and calm since you've been using the tea."

"That's true," Blackie said. "I do feel better when I drink it."

"I think it's because the tea contains a lot of minerals," Grandmother said. "These minerals can help balance your body and improve your sleep."

"That makes sense," Blackie said. "I'll continue to drink the tea and see if I notice any other changes." Grandmother nodded. "That's a good idea."

"By the way, I wanted to ask you about something else," Blackie said. "I've been thinking about getting a pet."

"Oh? What kind of pet do you have in mind?" Grandmother asked.

"I was thinking about getting a small dog," Blackie said. "I think it would be a lot of fun to have a pet to play with and take care of."

"That sounds like a good idea," Grandmother said. "A pet can be very rewarding and give you a lot of companionship."

"I know," Blackie said. "I've always liked animals."

"Well, think it over," Grandmother said. "It's important to consider all the responsibilities that come with owning a pet."

"I will," Blackie said. "Thanks for your advice." Grandmother smiled. "You're welcome."

"Well, I'd better get going. I have a lot of work to do today," Blackie said. "Thanks for everything."

"Anytime," Grandmother said. "Good luck." Blackie nodded and left the room, feeling much more relaxed and calm than he had been before. He knew that the tea was helping him, but he didn't know exactly how. But he was grateful for the help, and he was sure that he would continue to use it for as long as he needed it.
