A VERY MERRY CHRISTMAS TO

LOCAL NEWS

Trouble arises from Albion.

George A. White and family have gone to Flint for the holidays.

A close friend of Mr. White, who resides in Albion, was talking with him recently about the situation in the town. The friend indicated his dissatisfaction with the present condition of things at Albion, and he expressed the opinion that the government was not doing enough to improve the situation. The friend also mentioned that he had recently visited the city and was not impressed with the atmosphere. He said that the streets were dirty and the people were not friendly.

The friend concluded by saying that he believed Albion needed a new administration in order to improve the situation. He suggested that the current administration was not doing enough to address the problems facing the city.

Robert Smith, one of the residents of Albion, has decided to run for mayor in the upcoming election. He has expressed his interest in improving the city and bringing about change.

Smith has received support from several other residents who share his concerns about the current situation. They believe that Albion needs a fresh approach to governance and hope that Smith's candidacy will prompt necessary changes.

The election is scheduled to take place in the next few weeks, and both Smith and other candidates are expected to campaign vigorously to gain the support of the voters.
