6,822 DEATHS FROM WHOOPING COUGH

Whooping cough is the most neglected of children's diseases, and one of the most dangerous. There are 6,822 deaths reported in a single year in the United States from this disease. There is no cure for whooping cough, it usually running its course, but relief can be given and its duration shortened. A few drops of Dr. Drake's Glesco will relieve the most violent paroxysms of coughing, and given regularly it will lessen the severity of the attacks and bring quicker recovery. HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "horizontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slangs, initials, technical terms and obsolete forms are indicated in the definitions.

JUST WALKING ROUND

By THOMAS ARKLE CLARK

MY YOUNG neighbor, Donald, aged four, was discovered one morning, by a more mature acquaintance of his, some distance from his home wandering rather aimlessly up and down the street as if he were out for a constitutional and not expecting to arrive anywhere in particular.

"What are you doing, Donald?" she asked, somewhat concerned that so young a pedestrian should be so far from home.

"Just walking round," he replied and proceeded on his way.

She ran onto him again a half hour later, and again put the question to him.

"Didn't I tell you I was just walking round," he said, rather irritated apparently that she should not have been satisfied with his first reply.

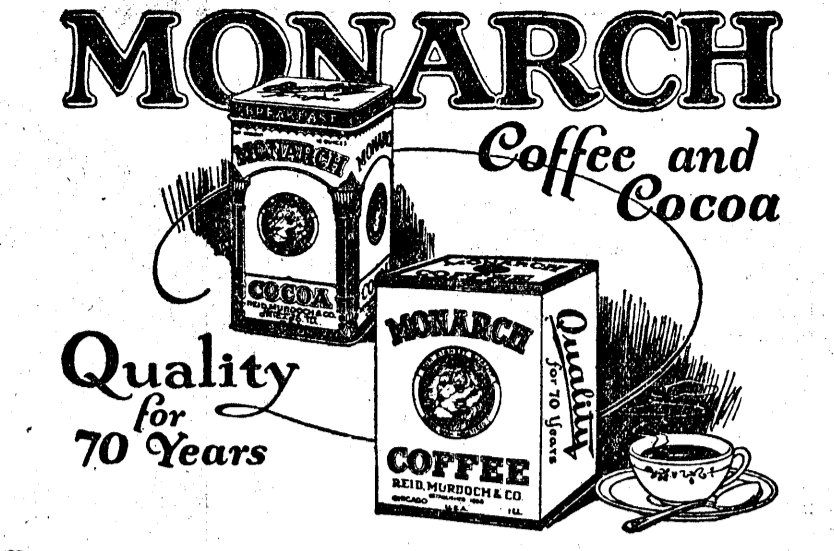

There are a good many people in the world who, like Donald, seem to be "just walking round."

As I came down the long stretch of wet sand between St. Malo and Rochebonne, I could see where other strollers had been by the footprints plainly marked in the yielding surface of the beach. Most of them had been going nowhere, apparently. The track they had left behind them was a wavering one, going first in one direction and then in another, and finally getting nowhere. They had had no particular end in view; they were going nowhere, and they got nowhere. They were just walking round.

There was one track, however, that caught my eye and held my attention. It was direct, unwavering, straight as the track of an arrow. There was no hesitancy in the man's steps. His footprints were deeply marked upon the sand, his stride had been long and vigorous; he had known quite definitely where he was going, and he had taken the most direct route to get there. He had an object in being on the sands, and he undoubtedly got somewhere. He was not just walking round.

Mrs. Belton was constantly complaining that no one worked harder than she did, but she never got through; she was always in the middle of house cleaning or her spring

Chains for French Women

In Paris a curious caprice of feminine fashion is illustrated in the jewelers' windows. The long pearl necklace, formerly much favored by smart women, has developed into a huge chain which, in everything but weight, resembles the sort of thing worn by slaves in ancient times. Bracelets have assumed an equally massive appearance. The clasps of these strange ornaments are knobs of ornamental stone roughly carved in quaint figures and looking as if they might have been dug from some long-forgotten haunt of prehistoric man.

There is more volume and greater mass in the mountain of Mauna Loa on the island of Hawaii than there is in Mt. Everest in Asia.

Partners Wanted

Assist in buying 250 acres farm for nursery, truck business, etc., joining big Oil field on two sides, other side Corsicana, Navarro county seat, Texas. Water, ample market, good title, all mineral rights, 15 acres woodland. Price \$50,000; need \$40,000, buy in fee. Oil rights alone worth the money. Look this over; investigate; the best buy in lands in Texas. Am single man. A. W. EVERETT, 420 Fidelity, Dallas, Texas.

Long hard wear built into every one!

Farmers everywhere are turning to "U.S." Blue Ribbon Boots and Overshoes!

The "U.S." Blue Ribbon Walrus slips right on over your shoes. Its smooth rubber surface washes clean like a boot. Made in red or black, 4 or 5 buckles.

THIS is why. "U.S." Blue Ribbon Overshoes and boots are built with thick, oversize soles, tough as an automobile tire. Into the uppers goes rubber so elastic that constant bending won't crack it. Anchored in this rubber are the strongest of reinforcements. Look for the "U.S." Blue Ribbon when you buy. It will pay you!
