LOCAL BREVELIES

Big time Tuesday night.

At the Womens Club's annual "A Night at the Town House" in Kendall on March 19, the Republicans' evening was a resounding success. Despite a few 2 o'clocks, the Republicans gathered at the Kendall Inn for a dinner at 6 o'clock. For the nomination of a number of officers and the election of the transition committee, no one knew for sure what might come before it.

Democrat Caucus

The democratic caucus for the town of Pine Grove will be held at the Kendall Inn on Tuesday, March 26, at 7 o'clock. For the nomination of a number of officers and the selection of other business, the caucus will meet.

Basket Ball

Basket ball finished the basketball season with double victory. The girls defeated the W. E. C. team by a score of 52 to 6 and the boys by the score of 92 to 5.

While the victories were entirely outballed both teams showed some refinement of touch and skill, both of which were belying the final total by far. We look for a successful outcome of their efforts in the next year and hope they will come again and often.

During the intermission, the boys played Augustine at the Paw Paw conservatory on Monday evening. The Paw Paw team has not yet been defeated this season. Dr. D. C. Day of the Paw Paw team showed the pep that they did with Hopkins they will be at their best, and really showed you and the district at the Paw Paw conservatory, well and truly.

ORDER OF COMMUNITY

BASE LINE

Wm. D. Inman, chairman and wife of Alfred Inman have moved to the east of Picacho. Their son, Wm. A. Inman, is now in the service in the United States Navy.

Max Danenberg has rented the last stool in the east of Picacho and moved there. His shop will be located at 101 S. Main St. in Picacho.

State News Briefs

South Haven—South Haven High School recently became a United States citizen. The students of South Haven High School were presented with the United States citizenship certificate by Representative John Eaton of the 5th District at a special assembly on March 12.

Holland—The department of biology at Hope College recently awarded two gold medals to its students. The gold medals were presented to Dr. John and Mrs. Elizabeth Jones, both of whom have contributed significantly to the development of the department of biology, as a sign of their dedication to the field of education.

Manitowoc—According to announcements by the Manitowoc Board of Education, the school board has appointed John F. Cookley, principal of the Manitowoc High School, as the new principal of the Manitowoc Training School. The appointment is effective immediately.

Lakeview—The new Lakeview Elementary School is being built on a beautiful six-acre plot near the center of the city. The school is expected to open in September of this year.

St. Joseph—The former St. Joseph Church has been converted into a community center. The church was razed to make room for a new fire station.

Hamtramck—The Hamtramck High School yearbook, "The Face," was published recently. The yearbook is a colorful collection of photos and articles that highlight the school's students and activities.

IT'S A FACT

Red Arrow—A new city ordinance has been passed in Red Arrow, prohibiting the sale of alcohol on Sundays. The ordinance was passed by a vote of 5 to 2.

FATHER JONES AND THE JESUIT ARCHIVES

BY HON. FRED LANDON

The state of Michigan and the Canadian province of Ontario have been in the news recently. In fact, the state of Michigan has been the subject of numerous newspaper articles and reports. The state of Michigan is known for its beautiful natural scenery and its rich history. The state is home to many historic sites and landmarks, including the Great Lakes, the Detroit River, and the Mackinac Bridge. The state is also known for its thriving economy, with industries ranging from automotive manufacturing to technology and finance. The state has a diverse population, with a mix of Native American, African American, and European ancestry.

The state of Michigan is also known for its rich history, with a long and complex history that has shaped the state's identity. The state was founded in 1679 by French explorer Louis Joliet, who was the first European to explore the area. The state was eventually acquired by the United States in the Treaty of Paris in 1783. In the 19th century, the state played a key role in the development of the country, with the state's economy based on the production of agricultural products, such as corn and tobacco. In the 20th century, the state's economy shifted to focus on manufacturing, with industries such as automotive manufacturing and electronics.

In recent years, the state has faced challenges related to population loss and economic decline. However, the state has also made efforts to attract new industries and businesses, with initiatives such as the Michigan Economic Development Corporation and the Michigan Business Development Corporation. The state is also known for its beautiful natural scenery, with a mix of urban and rural areas, and for its rich cultural heritage, with a mix of Native American, African American, and European ancestry.

One Spray Control

For Aphids Scale and European Red Spider, RED SPRAY OIL, 25c per gallon, is a spray oil, recommended for the control of aphids, scale, and European red spider. This oil is not approved for use on vegetables, but is approved for use on other crops. It is a concentrated spray oil, and should be mixed with water before use.

that does not make a good center will produce blossoms in the rewiring of the house, or for electrical safety, etc.

The jack type of filament switch is well worth making because, when the light is turned on, the wires are not actually passing through the switch, so that there is no risk of any electrical damage to the switch itself. When a switch is made of this kind, it is very easy to make it oil-tight, as the wires are not passing through the switch, and it is also easy to make it dustproof, as the wires are not passing through the switch.

DROPPING BOXES AND MEAT

In considering the arrangement of a cellar, it will be of some use to draw a plan of the floor, and to mark off the cellar in it, and to note the location of the boxes and meat. The floor should be cut in two parts, one part being in front of the cellar, the other being in the back of the cellar.

The cellar should be made to accommodate the boxes and meat, and the boxes should be placed at the top of the cellar, and the meat at the bottom.

The stairway should be made to accommodate the boxes and meat, and the boxes and meat should be placed at the top of the stairway, and the meat at the bottom.

The stairway should be made to accommodate the boxes and meat, and the boxes and meat should be placed at the top of the stairway, and the meat at the bottom.

A stairway should be made to accommodate the boxes and meat, and the boxes and meat should be placed at the top of the stairway, and the meat at the bottom.

The stairway should be made to accommodate the boxes and meat, and the boxes and meat should be placed at the top of the stairway, and the meat at the bottom.

THE STRAWBERRY AS A SOURCE OF FARM INCOME

By E. T. TALBOTT

University of Minnesota

The strawberry is one of the most popular fruits in our section of the country. It is a well known fact that with the coming of spring, the strawberry beds begin to develop new growth, and the fruit begins to ripen, and the fruit is ready for picking.

In the case of the strawberry, the fruit is ready for picking when the fruit is about the size of a small pea. The fruit should be picked while it is still green, and not allowed to ripen on the plant. The fruit should be picked while it is still green, and not allowed to ripen on the plant.

The fruit should be picked while it is still green, and not allowed to ripen on the plant.

The fruit should be picked while it is still green, and not allowed to ripen on the plant.

Ford
For the First Time
‘500 Buys a Closed Car
If you plan to spend over $500 F. O. B. Factory for an automobile, you can get the year-round comfort and convenience of a Ford closed car.
The price advantage which the public enjoys in purchasing Ford cars is the result of volume production. In 1926, when the Ford Motor Company was producing approximately only a million cars a year, the Ford Touring Car sold for $875. Today, with production on the nine millionth car milestone, the $500 closed car is a product of the highest quality allied with the name of the Touring Car design. Open cars are correspondingly low.

While this reduction of price reduction has been carried on, important refinements and improvements have been made in Ford cars. The latest improvements include new and attractive body lines—a lower center of gravity, closed cars in color, all-steel bodies, and other refinements. However, the basic features of Ford design have not been changed. Three-point motor suspension, planetary transmission, dual ignition system, torque tube drive, multiple disc-brake, splash lubrication, thermo-syphon cooling system—outstanding features of automobile design—have all been retained, regardless of cost.

TEN
The best friend of Nabob Harrison in the world, was his next door neighbor, Miss M. B. Smith, a plain, tidy, nervous looking woman who had come to live in the old house on the corner of Main and Fifth Avenues, a few months before the fire at the Harrison's. M. B. Smith was a good friend of the Harrisons, and she was often invited to spend the day with them. She was also a good friend of the neighborhood, and she was always eager to help anyone who needed her services.

But the best friend of all was Mrs. Harrison, the mother of the boy, who was one of the Harrisons' constant companions. She was a kind, gentle, and good-natured woman who always looked after the children with great care. She was also a good friend of the neighborhood, and she was always ready to help anyone who needed her services.

She was a kind, gentle, and good-natured woman who always looked after the children with great care. She was also a good friend of the neighborhood, and she was always ready to help anyone who needed her services.

ELEVEN
A breakfast meeting of the women of the neighborhood was held in the parlor of Mrs. Harrison's house. The meeting was called by Miss M. B. Smith, and it was attended by all the women of the neighborhood. The women of the neighborhood were all very interested in the meeting, and they were eager to hear what was to be said.

Delicate Tints Help in Making Floral Arrangements

A beautiful wall finish is one of the first essentials in making a room more attractive and pleasant. Celery, white, and other light shades of green are excellent for this purpose. Celery can be made to give the walls a fresh, lively appearance and to lend a touch of life and color to any room. It is also an excellent choice for a nursery, living room, or dining room.

If You Have a Good Crop of Corn and Oats—

You want to find this sort and rate to get the most money out of them. Here’s a suggestion that won’t need you to ropewalk it and will enable you to make money on your land this spring.

Try mixing two parts of 200 lb. (200 lb.) with 100 lb. of new seed and 100 lb. of old seed

Either of these will produce 200 lb. of corn at a grade rate from 10c to 15c. 100 lb. of oats will give you 100 lb. of oats.
