Efficient those tube receiver using two 5814 tubes and 4 tubes and 2 5670 tubes to apply simply as two stages of audio frequency amplification. The usual type of receiver containing two stages of tuned radio frequency amplification is shown to contain 5814 tubes, and the frequency band can be expanded to include other bands by adding a set of 4 tubes and 2 5670 tubes. A simple version of this design is shown in the diagram, where both the 5814 and 4 tubes are illustrated as part of the tuned circuit. The tubes are arranged in a single unit, and the frequency band is expanded to include other bands by adding a set of 4 tubes and 2 5670 tubes. The tubes are arranged in a single unit, and the frequency band is expanded to include other bands by adding a set of 4 tubes and 2 5670 tubes.
Machinist City—The village entered a system to be in the state parish, by the recent organization of the town cemetary, to meet the demands for a place to be used for the purpose of organizing the school for the blind. It is also planned to provide accommodations for the school for the deaf and the blind.

Holladay—C. F. White, county agent, will be the featured speaker at the next meeting of the Farm Bureau, which will be held on Tuesday, August 21st. The meeting will be in the Holladay town hall. The Farm Bureau has made arrangements for Mr. White to address the group on the subject of soil conservation and the importance of maintaining soil fertility.

Vickersville—Phog Carter, a 14-year-old boy, who was last seen in the Vickersville area, was found dead in a nearby stream. A coroner's inquest was held, and it was determined that the death was accidental due to drowning. The family is mourning the loss of their beloved son.

Cenere City—George Williams, 48, in a fit of rage, knocked over a fire hydrant when he was stopped by the police for speeding. He was arrested for disorderly conduct and charged with reckless driving. The incident has caused a stir in the community, and the police are investigating the matter further.

Tombstones Make Poor Foundations

Big Rapids Starts On Drive

Michigan's famous "Boy Governor" Thomas Mason, who helped his brother, Will, become a politician, while the youngest chief magistrate selected by any state of the union, lived an era when young statesmen were in high favor. Will was serving Michigan territory as acting governor when hardly twenty, Abraham Lincoln was appointed by President Thomas Jefferson to fill out the unexpired term of his predecessor. In the face of the fierce opposition of the Whig party, it was appointed the Office of Secretary of State, for which the Whig party secured the nomination of the Whig candidate. Will was appointed to the position of Secretary of State, and the appointment was confirmed by the United States Senate.

Allegan—A total of $17,500 was raised to help the city budget for next year. The money was appropriated by the council. The total amount was $17,500. The city has decided to increase its budget by $5,000 for the street department, $1,000 for the police department, $4,000 for the fire department, and $1,500 for the water department. The city is planning to use the extra funds to improve the city's infrastructure and to provide better services to the residents.

Big Rapids—A movement is under way to secure a new hospital in the city. The hospital was built in 1910 and has not been used in several years. The movement is being led by the Rotary and Exchange clubs and other community organizations. The hospital was constructed with the assistance of the city government and has served the community for many years. The hospital was closed in 1919 due to financial difficulties.

Suits for Recovery of Federal Income Tax

The Best Recommendation

Both men were well known in the local community and were respected for their contributions to the country during the Civil War. The men were also known for their strong moral values and their dedication to their families and communities. The court ruled in favor of the government, and the men were required to pay the federal income tax.
"We Like Its Economy" Say Thousands Of Owners

The truth is the operating cost of a Pontiac Six is lower than the Ford's V-8 and less powerful, or the difference is so slight that it is not worth consideration.

There are thousands of Pontiac owners in Illinois, and according to a recent survey, gladly boast of it. No higher opinion could be given of the car, and I can assure you that the majority of them are owner-drivers. It is not a car for the man who wants a car, but for the man who owns it.

"This is an unexpected pleasure," Wymore said. To have her out would have made it an even more unexpected pleasure for her to do but appear careful.

"Pardon me, dear," she said, "but I feel a little nervous."

She looked around insistently, not wanting to be interrupted. She sat at the table; it was warm. She felt the play of her words, and she was aware of her nervousness and the need to remain cool. She flipped the pages of the menu, and a slice of the page fell to the floor. Some of the words came off the menu, and she stood up to get them. She went to the back of the menu and got them. She then sat down and flipped through the menu again. She was nervous, but she wanted to make sure that her man was not aware of her nervousness.

"We shall see if that is so," she said, and she took the slice of the menu into her hand.

She took the slice of the menu into her hand, and she turned it over. She then saw that her man was not aware of her nervousness.

"We shall see if that is so," she said, and she turned the slice of the menu over.

She turned the slice of the menu over, and she flipped through the menu again. She was nervous, but she wanted to make sure that her man was not aware of her nervousness.

"We shall see if that is so," she said, and she flipped through the menu again.
