OBITUARY

Ophelia May Harman was born to Mark and Eunice (Nash) Broadwater on May 8, 1914, and died at her farm home on November 1, 2019. She was 105 years old. She was the wife of Mr. and Mrs. George Harman, who have one daughter, Mrs. June Anderson, and one son, Mr. John Harman. The family is in the process of planning a celebration of life.

The funeral service will be held on Saturday, November 2, at 10:00 am at the First Baptist Church in Colfax. In lieu of flowers, memorials may be made to the First Baptist Church or to a charity of your choice.

GEORGE FOWY

George Fowey, a long-time resident of Colfax, passed away on October 31, 2019. He was 90 years old. George was a dedicated husband, father, and community member. He will be deeply missed by all who knew him.

A memorial service will be held on Saturday, November 2, at 2:00 pm at the Colfax Community Center. In lieu of flowers, donations may be made to the Colfax Community Center or to a charity of your choice.

KENDALL

Verna Chambless had the misfortune of losing her husband, Mr. and Mrs. Lee Freeman, on May 1, 2019. They had been married for 50 years. She is survived by their only son, Mr. Jim Freeman, and their daughter, Mrs. Susan Freeman. Mr. and Mrs. Freeman were active members of the Colfax United Methodist Church.

A memorial service will be held on Saturday, November 2, at 2:00 pm at the Colfax United Methodist Church. In lieu of flowers, donations may be made to the Colfax United Methodist Church or to a charity of your choice.

The Apple Comes Americanized

By I. D. GRAHAM

Kansan Journal of Agriculture

When you eat an apple in Kansas you are eating an apple from

the tree which bore it was grown from one of the million

seedlings that have grown up on the rich soil of Kansas. The

famous brand of apples in Kansas is the Delicious, a

cultivar of the Asian wild crab apple.

Young plants are raised by grafting the Delicious apple on

the root system of a dwarfing rootstock. The Delicious is

yielding and productive in a few years after planting, as is

true with other apple varieties.

However, the tree must be kept healthy and disease-free by

pruning and spraying. Pruning is done to remove dead or

diseased branches, and to stimulate new growth. Spraying

is done to control pests and diseases that can harm the

apple tree.

After being washed from the root system, the Delicious

planted on dwarfing rootstocks will continue to grow

throughout its natural life, but there may be a time when

the apple tree needs to be replanted due to disease or

poor soil conditions.

The Delicious apple tree is hardy and tolerates freezing

well, but it is not drought-tolerant and requires regular

watering during the growing season.

The Delicious apple tree is a popular choice for home

orchards and commercial apple orchards in Kansas due to

its productive nature and durable trunk.
Sweeping Changes in State Fair's Army of Exhibits

In order to better display the exhibits at the Michigan State Fair, which will be held at the State Fair Grounds at Detroit from September 3 to 19, a number of changes have been made in the arrangement of the exhibits. Those who have been attending the State Fair during recent years, have been practically the same arrangement, and few in fact realize how nothing is to vary the modernity, and with unpretentious to follow anything the present arrangements. This may be charged upon the change in the State Grounds.

INTEREST IS KEEN IN CATTLE EXHIBITION CLASS AT FAIR STATE

The Michigan State Fair cattle exhibit classes are the best in the history of this fair, so it is stated by the Director of Live Stock and Exhibits, John C. Brown.

One of the chief features of the fair this year will be the cattle exhibit, and it is expected that the crowds that will visit the fair will be greater than ever before because of the high quality of the animals to be exhibited. The cattle exhibit will be held on the State Fair Grounds, and will run from September 3 to 19.

Another strong feature of this year's fair will be the show of state and national breeds. The Michigan State Fair has prepared an exhibit so that the fair show bids to the entire exhibit of the Michigan State Fair, with the state's champion that has been exhibited in the beef and dairy classes.

The State Fair Grounds will be open on Saturdays and Sundays, and will be open during the week and on holidays. The fair will be open from 9 a.m. to 9 p.m., and will close on Labor Day.

STATE MOVES FAST TO FINISH NEW BUILDING AT FAIR

Construction of the new building at the State Fair Grounds will be speeded up, according to the State Fair Board, which has announced that the new building will be ready for use at the fair. The new building will be a large one, and will be located on the fair grounds.

Practically all of the work will be done by local labor, and the building will be of steel and glass. The building will be completed in time for the fair to open on September 3.

The new building will be located on the fair grounds, and will be used for the display of state and national products. It will be a large building, and will be used for the display of various exhibits at the fair.

FISH AND GAME EXHIBITS WILL FEATURE STATE FAIR

The State Department of Conservation will have a large exhibit at the State Fair, and will be located at the State Fair Grounds in Detroit, from September 3 to 19.

This exhibit will be housed in the Fish and Game Building, and will be the largest and most complete of its kind ever exhibited at the State Fair.

An exhibit of fish and game will be displayed in the Fish and Game Building, and will be an important part of the exhibit. The exhibit will be a large one, and will be used to display various fish and game species.

FAIR TRACK ONE OF FASTEST

Nothing is left behind which will hold the track at the Michigan State Fair. It will be regraded, and a new surface will be laid down on the track.

The Michigan State Fair has a new surface on the track, and is ready for the horses. The track is one of the fastest in the country, and is sure to attract the attention of the horse Racing fans. The Michigan State Fair will be held from September 3 to 19.

A slow run in for best track is being conducted in the interest of the fair track. The track is now in connection with the animal ring, and is being graded for a future race. The Michigan State Fair will be held from September 3 to 19.
