Thanksgiving is a busy day, a day of bustle and excitement. It is a good plan for the gardener to get ready for the harvest season and to have the money that usually goes to the garden saved for other uses. It is also a busy season for the florist, and a good time to sell plants that are in season. The money that is usually saved for the garden can be used for other purposes.

BABY'S BREATH IN THE GARDEN

"Baby's breath" is the popular name for the garden plant and it is not to be confused with the "baby's breath" that is used as a bouquet. It is a small, hardy, grass-like plant that needs good soil and plenty of water. It grows well in shade and can be grown in various types of soil. It is a good plant for a garden because it is easy to care for and it is not too expensive.

BROOKLYN GARDEN

Brooklyn Garden is a popular garden in Brooklyn, New York. It is a large garden with a variety of plants and flowers. It is a good place to visit if you are interested in gardening or plants. It is also a good place to take a stroll or to relax and enjoy the beauty of nature.

TEMPORARY SURPLUS

Temporary surplus is a term used to describe the excess of a particular commodity over the demand. It occurs when the supply of a product exceeds the demand for it. This can happen when the production of a product increases faster than the demand, or when the demand for a product decreases faster than the production.

77 Refinements—No Increase in Prices

Foremost among the refinements in the Greater Oakland Six is the Rubenstein-Silenced Clari-tone, a special and exclusive feature freeing the Oakland Six from the noise and rumbling found in ordinary cars. Silencing devices for every engine in the car help to reduce noise, and cushioned comfort. This new achievement combines with the Harmonic Balancer to place the Oakland Six in the advance of current car design.

Other refinements include:
- New bodies by Fisher in new and strikingly beautiful two-tone Duco
- Over 90% combination of metal and filament tilting beam headlights
- Four tires, to make night driving safer still
demonstrating the latest in development of new camouflage and new safety valves
- Brilliant red enamel on the side feature resulting in still quieter performance.

The name of this Greater Oakland Six is an impartial test—drive it yourself to determine just how much you can get for the price. You'll agree that the car has few equals in quality and no equal in value!

The prized edged on an old skirt, cut in a new fashion, and many of the newest and most elegant skirts are being cut in these styles, and many are sometimes arranged to form a sort of finish to the skirt.

The other skirt cutters pictured a blouse of printed crepe, finishing at the waist, and which is cut with a black band, cut full and with a high slit at the back, and running from shoulder to skirt hem. The neck is cut in the same style, and is cut in a small waist with a high slit.
